Peg Perego Selfie Stroller Instruction Manual

Model: IP2200NA00BA36DX19

INTRODUCTION

The Peg Perego Selfie Stroller is designed for convenience and ease of use, offering a self-folding, lightweight, and compact solution for parents. This stroller is compatible with all Primo Viaggio 4-35 Infant Car Seats (sold separately) to create a versatile travel system. Its design incorporates ball-bearing shock absorbers, swivel wheels, and front and rear suspension systems for a smooth ride. This manual provides essential information for the safe and proper use, maintenance, and care of your Selfie Stroller.

SAFETY INFORMATION

- Always ensure your child is securely fastened with the 5-point harness.
- Do not exceed the maximum weight recommendation of 48 pounds.
- Never leave your child unattended in the stroller.
- Ensure the stroller is fully open and locked before placing a child inside.
- Engage the brake when the stroller is stationary.
- Avoid hanging bags on the handlebar as this can cause instability.
- Refer to the car seat manual for proper installation when using as a travel system.

SETUP AND ASSEMBLY

Unfolding the Stroller

The Peg Perego Selfie Stroller features a self-opening mechanism. To unfold, release the locking mechanism (if engaged) and allow the stroller to open automatically. Ensure all parts click into place and the frame is fully extended before use.

Self-Folding

The Selfie stroller has an automatic super compact closing which makes it easy for parents on the go.

Attaching the Bumper Bar

Align the bumper bar with the designated slots on the stroller frame and push until it clicks securely into place. The bumper bar can also serve as a carrying handle when the stroller is folded.

Harness Adjustment

The stroller is equipped with an adjustable 5-point harness. Adjust the shoulder straps and waist straps to ensure a snug and secure fit for your child. The buckle is released by pressing the central 'PUSH' button.

Car Seat Compatibility (Travel System)

The Selfie Stroller can be converted into a travel system by attaching a Primo Viaggio 4-35 Infant Car Seat. An adapter (sold separately) is required for this configuration. Follow the instructions provided with the adapter and car seat for proper and safe installation.

OPERATING INSTRUCTIONS

Folding the Stroller

The Selfie Stroller features a one-hand automatic folding system. Locate the folding mechanism on the handlebar (often a button or lever) and activate it. The stroller will compact itself into a freestanding position. The bumper bar

can be used as a carry handle once folded.

Adjusting the Recline

The stroller seat offers a 150-degree reclining backrest, suitable for children from birth. Adjust the recline position using the mechanism located at the back of the seat to ensure your child's comfort.

Using the Canopy

The expandable hood provides UPF 50+ sun protection. Extend or retract the canopy as needed. A peek-a-boo window allows you to check on your child without disturbing them.

Brake System

The stroller is equipped with a single-pedal brake system located near the rear wheels. Press down on the pedal to engage the brake and lift it up to release. Always ensure the brake is fully engaged when the stroller is stationary.

Storage Basket

A spacious basket is located under the seat for carrying essentials. Do not exceed the maximum basket weight capacity of 20 pounds.

MAINTENANCE

- **Cleaning:** Fabric parts can be spot cleaned with a mild detergent and warm water. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** Wipe the frame with a soft, damp cloth. Dry thoroughly to prevent rust.
- **Wheel Maintenance:** Regularly check wheels for debris and ensure they rotate freely. Lubricate moving parts as needed with a silicone-based lubricant.
- **Storage:** Store the stroller in a dry place, away from direct sunlight and extreme temperatures, to prevent material degradation.

TROUBLESHOOTING

- **Stroller not folding/unfolding smoothly:** Ensure all components are free of obstructions. Check that the folding mechanism is fully engaged or disengaged.
- **Wheels squeaking or stiff:** Clean any debris from the wheel axles and apply a small amount of silicone lubricant.
- **Harness difficult to adjust:** Ensure straps are not twisted and adjust according to the child's size.
- **Stroller unstable:** Verify that the stroller is fully locked in the open position before use. Do not overload the storage basket or hang heavy items on the handlebar.
