2. PRODUCT OVERVIEW

2.1 Key Features

- **IPX8 Waterproof Rating:** Designed for underwater use up to 5 meters, suitable for swimming, surfing, and diving.
- **Heatproof Technology:** Functions reliably in temperatures up to 60°C (180°F), allowing use in baths, saunas, or hot springs.
- **8GB Internal Memory:** Stores up to 2000 songs, providing ample space for your audio library.
- **Bone Conduction Technology:** Delivers sound through your cheekbones, keeping your ears open to ambient sounds for safety.
- **Flexible and Durable Design:** Constructed with a titanium alloy frame for 360-degree flexibility and a skin-friendly silicone covering.
- **Integrated FM Radio:** Allows listening to local radio stations.

- **No Bluetooth Connectivity:** This model operates as a standalone MP3 player and does not support Bluetooth for music streaming.

2.2 What's in the Box

- 1x Tayogo W01 Bone Conduction Swimming Headphones
- 1x USB Charging Cable
- 1x Instruction Manual
- 1x Carrying Case
- 1x Pair of Swimming Earplugs

Packing List

Image 2.1: Contents of the Tayogo W01 package.

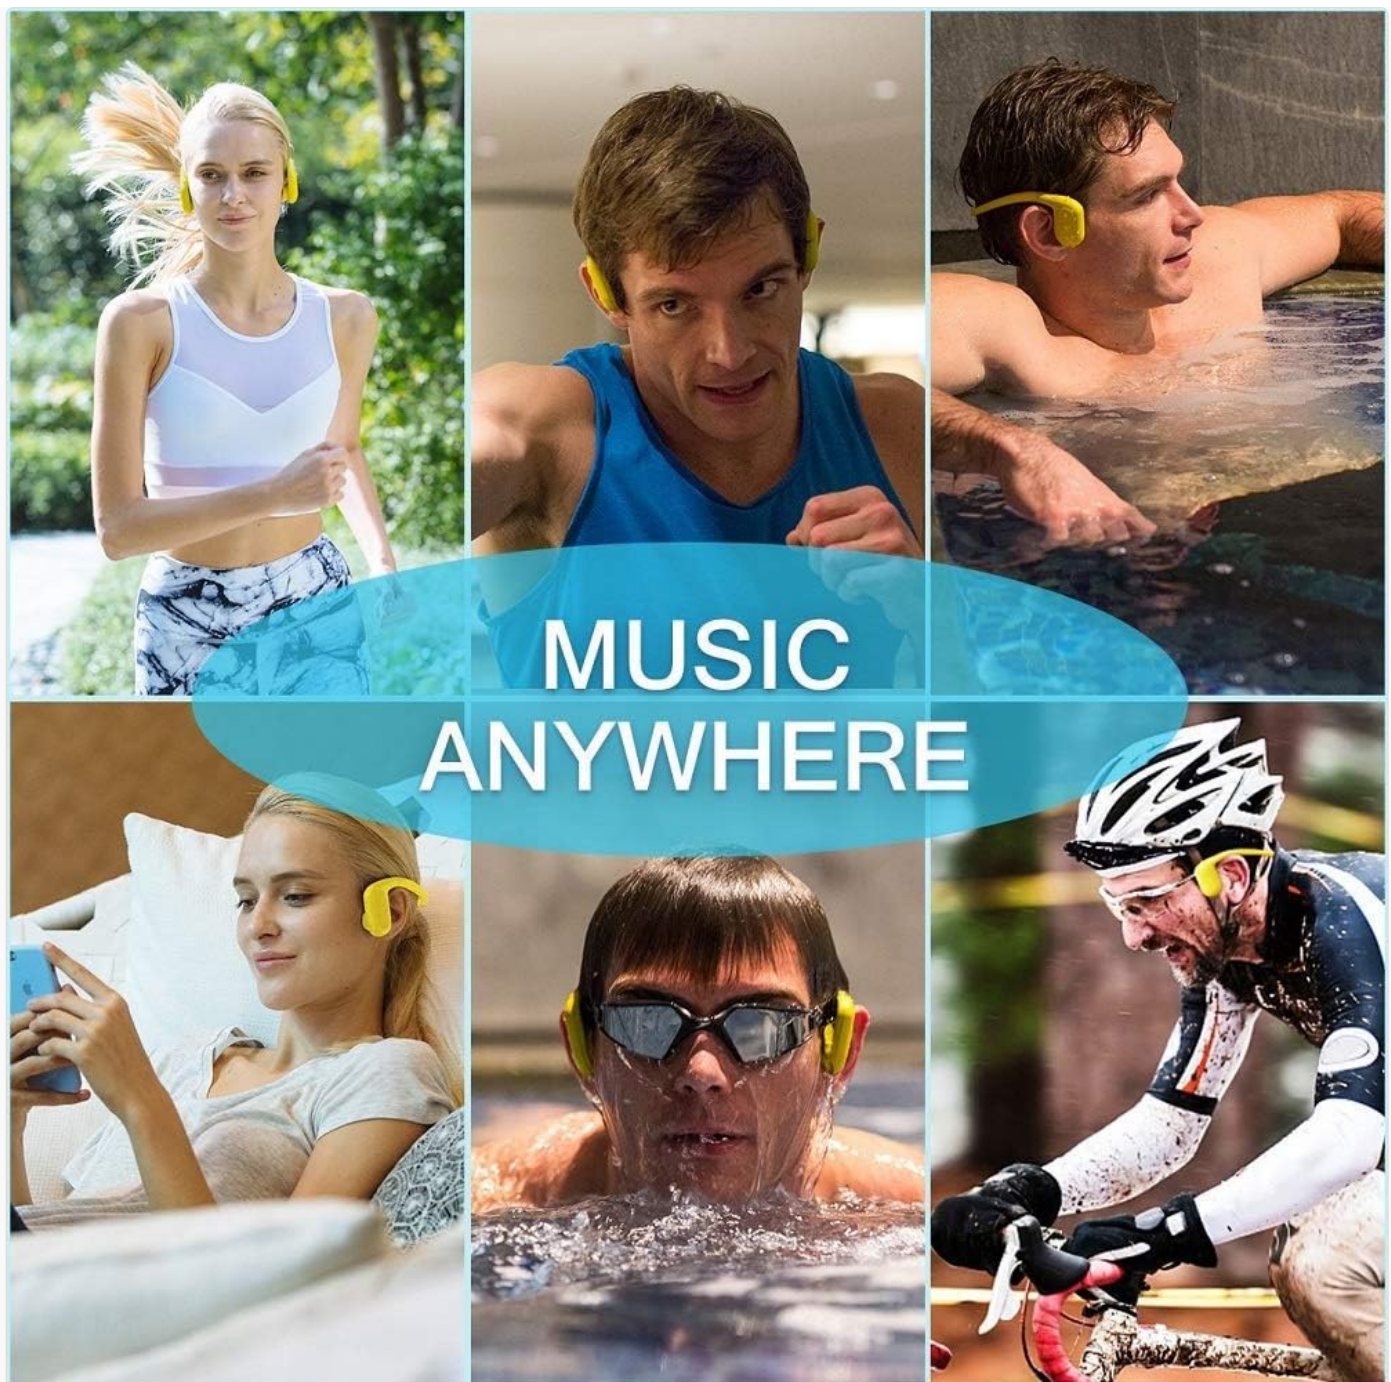

Image 2.2: Tayogo W01 headphones in various usage scenarios.

A woman with blonde hair is shown from the chest up, sitting at the edge of a swimming pool. She is wearing yellow over-ear headphones. The background is a blurred view of the pool and surrounding area. On the left side of the image, there are three blue water drop icons, each containing a feature of the headphones. The brand name 'Tayogo' is in the top left corner.

3. SETUP

3.1 Charging the Headphones

Connect the provided USB charging cable to the headphone's USB interface and plug the other end into a USB power source (e.g., computer USB port, USB wall adapter). The LED indicator will show charging status. A full charge typically takes approximately 2 hours.

3.2 Loading Music Files

The Tayogo W01 has 8GB of internal memory for storing music. To load music:

1. Connect the headphones to your computer using the supplied USB cable.
2. The headphones will appear as a removable disk drive on your computer.
3. Drag and drop your desired audio files directly into the root directory of the headphone's storage **Do not create any folders.**

4. Supported audio formats include MP3 (8 to 320Kbps), WMA, DRM WMA, OGG, WAV, and AAC-LC. Ensure your files are in a compatible format.
5. Safely eject the removable disk from your computer before disconnecting the USB cable.

3.3 Wearing the Headphones

Place the headphones around the back of your head with the transducers resting on your cheekbones, just in front of your ears. The flexible titanium alloy frame allows for adjustment to fit various head sizes. An adjusting belt and buckle are included to help secure the headphones if needed, especially during vigorous activities like swimming.

Bone Conduction & Powerful Playtime

Convey the sound through skull, also
OK for wearing glasses. Charge in
2 hours and listen for 7.

4. OPERATING INSTRUCTIONS

The Tayogo W01 features three main buttons: Volume + (top), Play (middle), and Volume - (bottom).

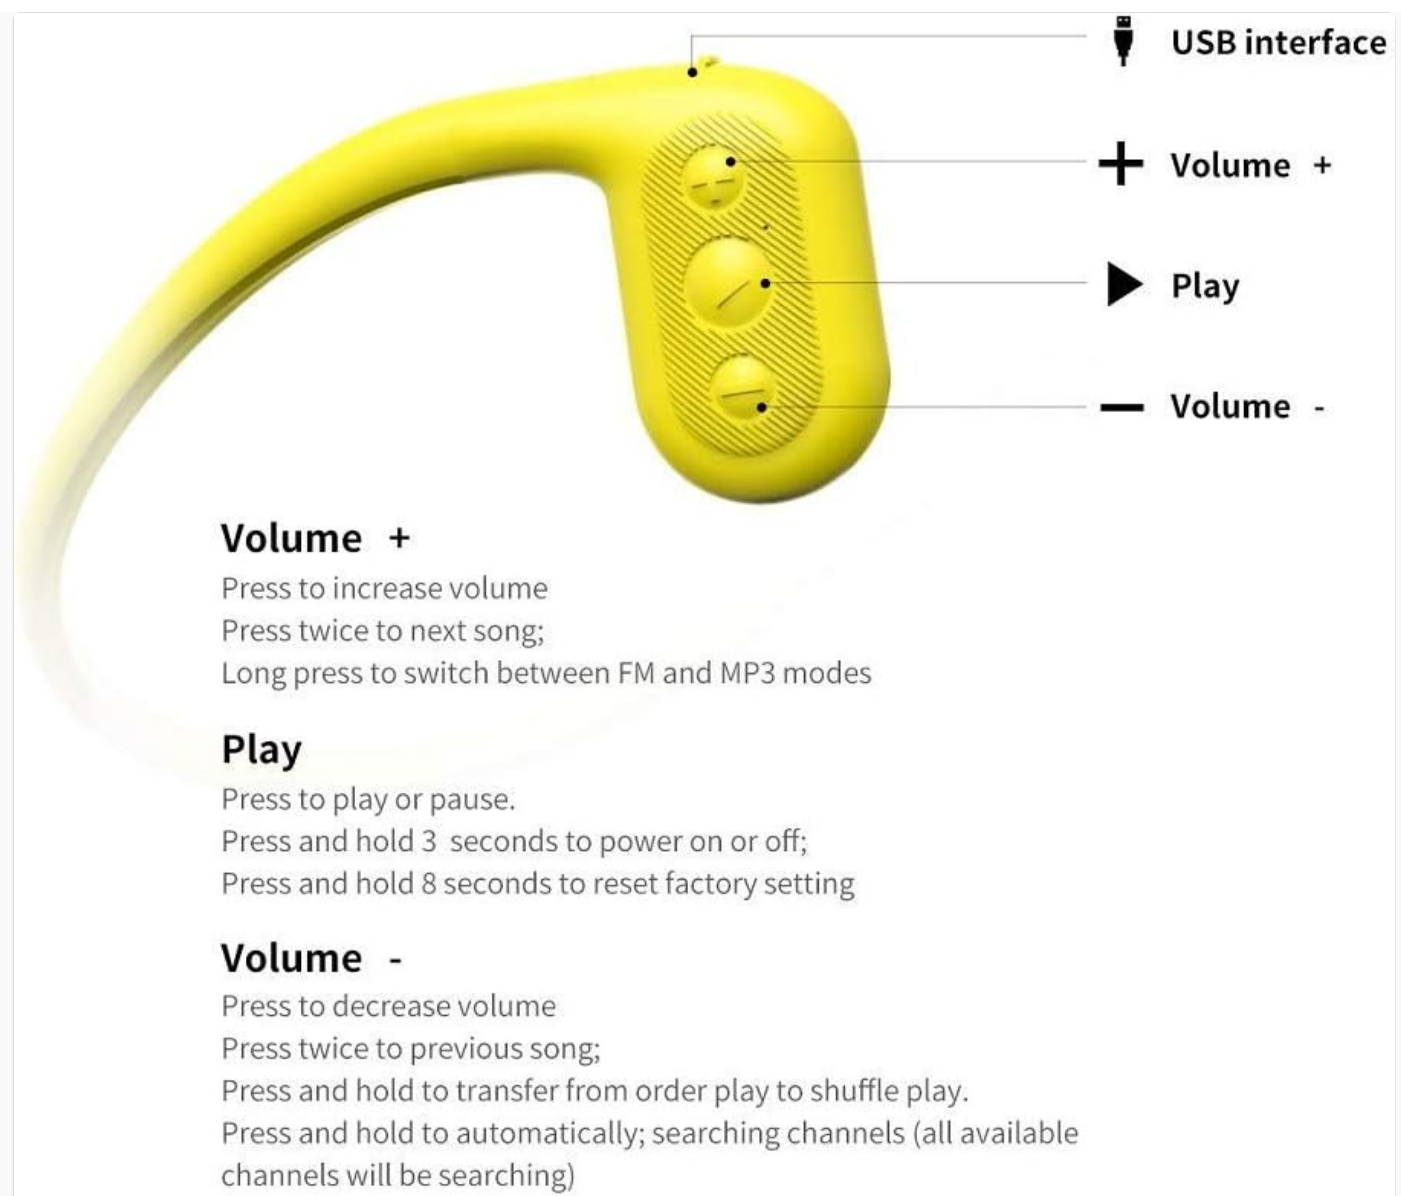

Image 4.1: Button functions overview.

4.1 Power On/Off

- **Power On:** Press and hold the **Play** (middle) button for 3 seconds.
- **Power Off:** Press and hold the **Play** (middle) button for 3-5 seconds.

4.2 Volume Control

- **Increase Volume:** Press the **Volume +** button once.
- **Decrease Volume:** Press the **Volume -** button once.

4.3 Music Playback (MP3 Mode)

- **Play/Pause:** Press the **Play** (middle) button once.
- **Next Song:** Press the **Volume +** button twice.
- **Previous Song:** Press the **Volume -** button twice.
- **Switch Playback Mode (Shuffle/Order/Single Play):** Press and hold the **Volume -** button for 3 seconds.

4.4 FM Radio Mode

- **Switch to FM Mode:** Press and hold the **Volume +** button for 3 seconds to switch between MP3 PLAY and FM modes.

- **Automatic Channel Search:** In FM mode, press and hold the **Volume -** button for 8 seconds to automatically search and save all available channels.

4.5 Reset to Factory Settings

- To reset the device, press and hold the **Play** (middle) button for 8 seconds.

5. MAINTENANCE

- **Cleaning:** After use, especially in chlorinated or saltwater, rinse the headphones with fresh water and wipe them dry with a soft cloth.
- **Storage:** Store the headphones in the provided carrying case in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The IPX8 rating ensures protection in water up to 5 meters. Ensure the USB port is dry before charging or connecting to a computer.
- **Heat Resistance:** The headphones are designed to function in temperatures up to 60°C (180°F). Avoid exposing them to temperatures exceeding this limit.

6. TROUBLESHOOTING

- **No Sound/Music Not Playing:**
 - Ensure the headphones are powered on and the volume is adjusted.
 - Verify that music files are in a supported format (MP3, WMA, WAV, etc.) and copied directly to the root directory without folders.
 - Check if the device is in MP3 PLAY mode (long press Volume + button to switch).
- **FM Radio Not Working/Poor Reception:**
 - FM radio reception can be limited, especially in remote areas or underwater.
 - Perform an automatic channel search (long press Volume - button for 8 seconds in FM mode).
- **Headphones Slipping During Swimming:**
 - Utilize the included adjusting belt and buckle to secure the fit.
 - Consider securing the headphone transducers under your goggle straps for a more stable fit, as suggested by some users.
- **Sound Quality Issues (Muffled/Low Volume):**
 - Bone conduction sound quality is often enhanced when submerged in water and when using the provided earplugs to block ambient noise.
 - Ensure the transducers are firmly placed on your cheekbones.
- **Device Not Responding:**
 - Attempt a factory reset (press and hold the Play button for 8 seconds).
 - Ensure the device is charged.
