PURPLE LEAF ZYUK04GHTG1216G

PURPLE LEAF 12' X 16' Permanent Hardtop Gazebo Instruction Manual

Model: ZYUK04GHTG1216G

Introduction | Safety Information | Parts List | Setup & Assembly | Operating Instructions | Maintenance | Troubleshooting | Specifications | Warranty & Support

1. Introduction

Thank you for choosing the PURPLE LEAF 12' X 16' Permanent Hardtop Gazebo. This manual provides essential information for the proper assembly, operation, and maintenance of your new gazebo. Designed for patio, lawn, and garden use, this gazebo features a galvanized steel double roof, a sturdy aluminum frame, and includes curtains and netting for enhanced comfort and privacy.
Key features include:

- Fade-resistant and rust-resistant galvanized steel roof for durability and UV protection.
- Sturdy powder-coated aluminum frame with pre-drilled holes for stable installation.
- Double top vented roof for optimal airflow and wind resistance.
- Efficient drainage system with sloped roof and water gutter design.
- Removable curtains and netting for UV protection, rain protection, ventilation, and privacy.

2. Safety Information

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Do not exceed the weight limit of 2500 LBS for the structure.
- Ensure safe installation by having adequate personnel, ladders, and wearing protective gloves.
- Secure the gazebo properly, especially during high wind conditions, to prevent displacement or damage.
- Do not use the gazebo with weights or furniture that it was not designed to support.
- Always follow local building codes and regulations for outdoor structures.
- Keep children and pets away from the assembly area.

3. Parts List

Before beginning assembly, verify that all parts are present and undamaged. Refer to the packing list included in your boxes. All components are clearly labeled for easy identification.

Key Components:

- Galvanized Steel Roof Panels
- Powder-Coated Aluminum Frame Posts (4.7" x 4.7" thick)
- Roof Support Beams and Connectors
- Curtain Tracks and Hooks
- Textilene Netting (260/gsm upgrade fabric)
- Privacy Curtains
- Stainless Steel Screws and Fasteners
- Anchoring Stands (8.6" x 8.6")

Figure 2: Illustration of the 4.7" x 4.7" thick posts, designed for enhanced stability and durability.

Figure 3: Upgraded stainless steel screws provide superior durability and rust resistance compared to ordinary iron screws.

4. Setup & Assembly

Assembly of the PURPLE LEAF Gazebo requires at least two people, and for larger models, three or more individuals are highly recommended. The process can take several hours (e.g., 7-16 hours) depending on experience and number of helpers. Follow the included step-by-step instructions carefully. All parts are labeled to facilitate the assembly process.

Assembly Tips:

- Organize all parts and hardware before starting. The kit includes an organizer for small screws and bolts.

- Use an electric screwdriver with an appropriately sized hex bit for faster assembly, setting it to a low torque (e.g., tightness of 3) to prevent over-tightening.
- Avoid assembling roof panels during periods of high sunlight and warm temperatures, as panels can become very hot.
- Ensure all parts are perfectly aligned before tightening screws, especially for end caps and roof sections.
- Consider the final placement and anchoring method before full assembly.

5. Operating Instructions

Curtains and Netting:

The gazebo includes both privacy curtains and mosquito netting. These can be operated independently using the double track system. The curtains provide UV protection, rain protection, and privacy, while the netting allows for ventilation and keeps insects out.

- **Fully Open:** Tie back curtains and netting to enjoy an open view and maximum ventilation.
- **Semi-Open:** Use netting to block harsh sunlight and keep mosquitoes out while maintaining airflow.
- **Fully Closed:** Close both curtains and netting for complete privacy, rain protection, and warmth.

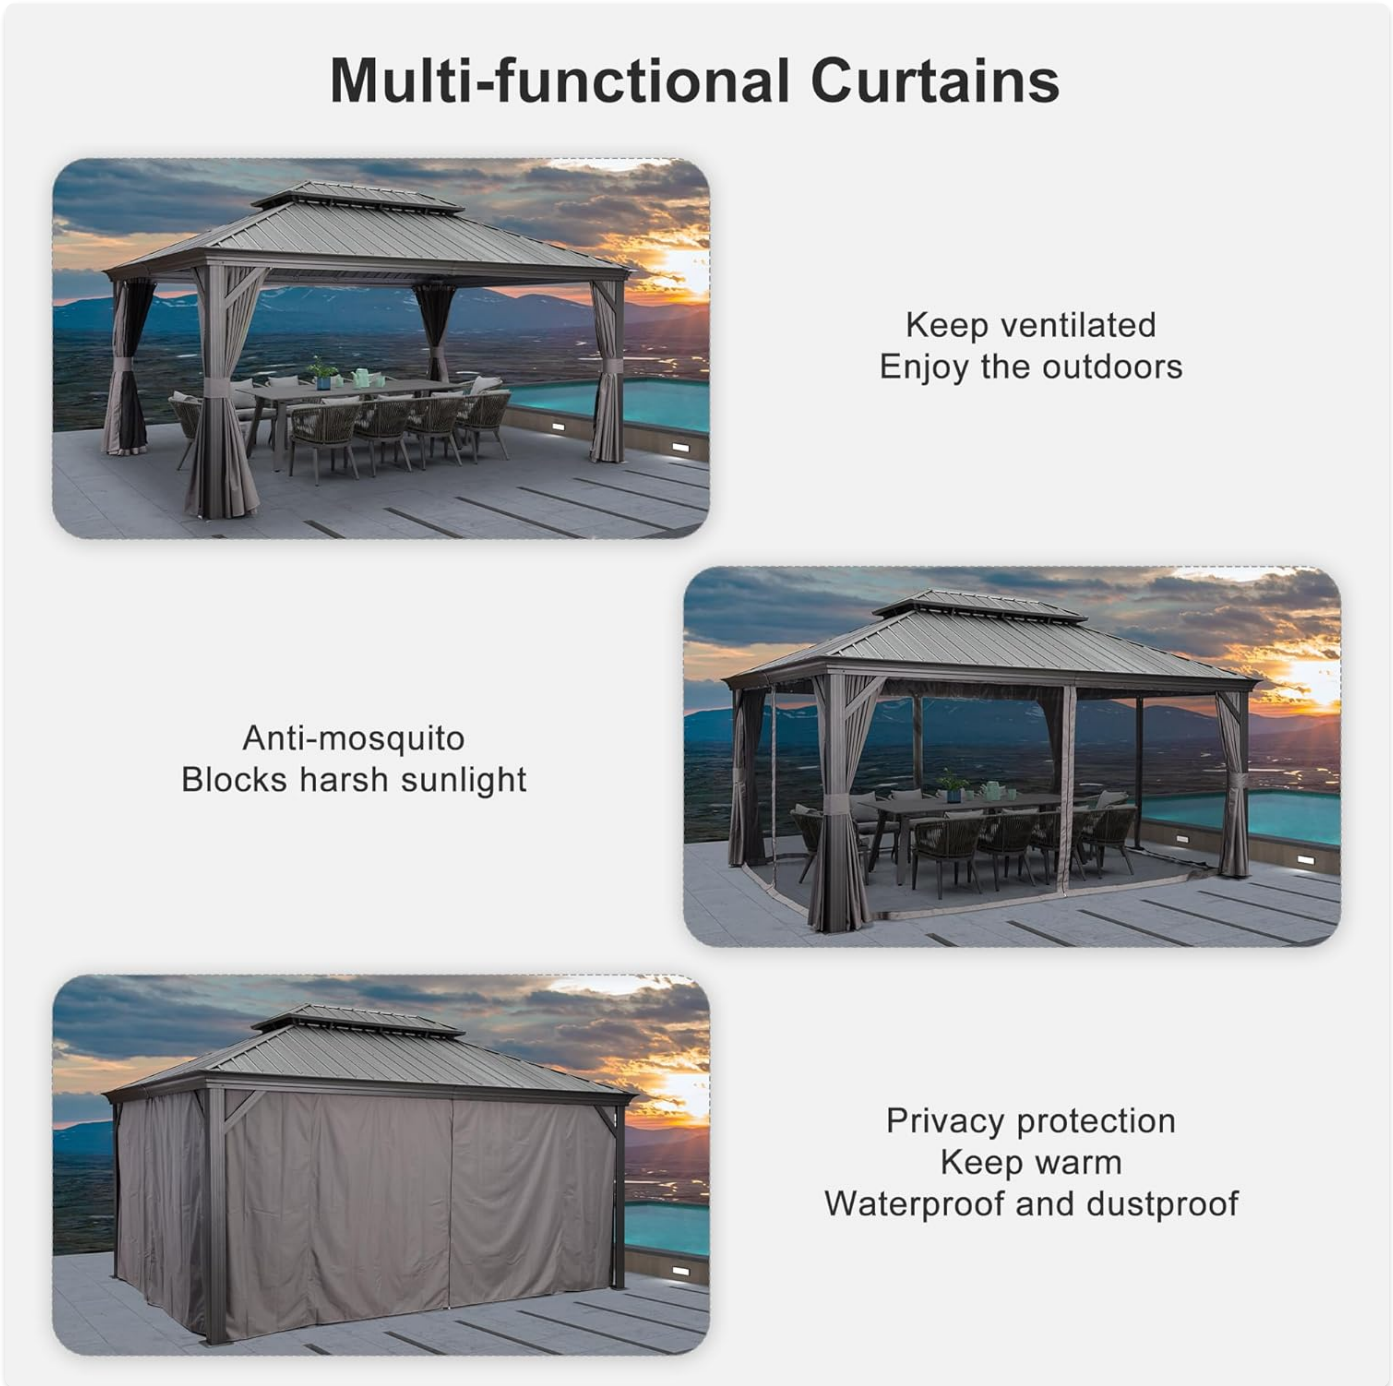

Figure 5: The multi-functional curtains offer various configurations for ventilation, sun protection, and privacy.

Drainage System:

The sloped roof and integrated water gutter system efficiently manage rainwater, directing it away from the interior and ensuring the space underneath remains dry and comfortable.

Figure 6: The built-in drainage system efficiently channels water away from the gazebo structure.

Roof Hooks:

The gazebo roof is equipped with hooks, allowing you to hang lights, fans, or decorative plants to customize your outdoor space.

6. Maintenance

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Clean the galvanized steel roof and aluminum frame with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Curtains and Netting:** The fabric is designed to resist fading for up to 720 hours under harsh weather conditions and maintain colorfastness for up to 2 years. Clean as needed with mild soap and water. Ensure they are dry before storing or closing for extended periods to prevent mildew.

- **Fasteners:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Drainage System:** Keep the roof and gutters clear of leaves and debris to ensure proper water drainage.
- **Winterization:** While the hardtop is designed to withstand heavy snow, it is advisable to clear excessive snow accumulation from the roof to prevent structural stress.

Figure 8: The Textilene netting is made from 260/gsm upgrade fabric for enhanced durability.

7. Troubleshooting

Problem	Possible Cause	Solution
Water leakage from roof	Loose roof panels or connecting nuts; debris in gutters.	Ensure all roof panels are securely fastened. Clear any debris from the drainage system and gutters. Re-tighten connecting nuts if necessary.
Gazebo feels unstable in wind	Improper anchoring; loose frame connections.	Verify that the gazebo is properly anchored to the ground using the provided anchoring stands. Check and tighten all frame connections.
Interior becomes too hot/stifling	Lack of sufficient airflow, especially on warm days without breeze.	Ensure curtains and netting are fully open for maximum ventilation. Consider installing an outdoor fan using the integrated roof hooks.
Curtains/Netting not sliding smoothly	Debris in tracks; damaged hooks.	Clean the curtain tracks of any dirt or debris. Inspect hooks for damage and replace if necessary.

8. Specifications

Brand:	PURPLE LEAF
Model Number:	ZYUK04GHTG1216G
Product Dimensions:	190.9"L x 143.7"W x 120.9"H (12' x 16')
Floor Area:	192 Square Feet
Item Weight:	350 Pounds
Frame Material:	Aluminum, Alloy Steel (Powder-coated)
Roof Material:	Galvanized Steel (Double Roof)

Curtain/Netting Material:	Textilene Netting (260/gsm), Privacy Curtains
Water Resistance Level:	Water Resistant
UV Protection:	Yes
Assembly Required:	Yes
Color:	Gray
