## PURPLE LEAF ZYUK04GHTG1218G

# PURPLE LEAF 12' x 18' Permanent Hardtop Gazebo Instruction Manual

Model: ZYUK04GHTG1218G | Dimensions: 214.5"L x 143.7"W x 120.9"H | Brand: PURPLE LEAF

## 1. IMPORTANT SAFETY INFORMATION

**CAUTION:** This gazebo requires assembly and is heavy (406 pounds). Always use appropriate safety equipment, such as a ladder and gloves, when installing. Follow local building codes and obtain necessary permissions before installation. Always have at least 2-3 people assisting in the installation process to ensure stability and safety.

## 2. PRODUCT OVERVIEW

The PURPLE LEAF 12' x 18' Permanent Hardtop Gazebo is designed to provide a durable and comfortable outdoor living space. It features a robust construction and thoughtful design elements for long-lasting performance.

### Key Features:

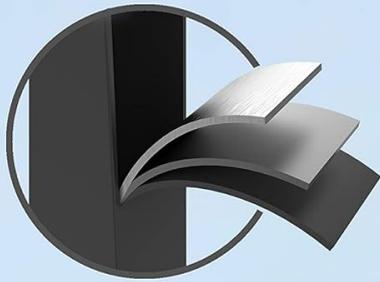

- **Size:** 12' X 18' footprint, offering ample space.
- **Roof:** Fade-resistant and rust-resistant galvanized steel double roof, designed to withstand heavy snow and provide UV protection.
- **Frame:** Sturdy aluminum frame with a powder-coated finish and pre-drilled holes for secure installation, ensuring stability in various weather conditions.
- **Ventilation:** Double top vented roof promotes optimum airflow and comfort, also aiding in strong wind resistance.
- **Drainage:** Reasonably sloped roof with a water gutter system to ensure quick water drainage and prevent pooling.
- **Enclosure:** Removable curtains and netting are included for UV protection, rain protection, ventilation, and an open view.

### 3. SETUP AND ASSEMBLY

Assembly of the PURPLE LEAF Hardtop Gazebo requires careful attention to detail and a minimum of two to three people. It is recommended to lay out all parts and familiarize yourself with the instruction manual before beginning.

#### General Assembly Tips:

- **Teamwork:** Due to the size and weight of components, assembly is significantly easier and safer with at least 2-3 individuals.
- **Initial Fastening:** Do not fully tighten all screws immediately. Leave them slightly loose during initial assembly to allow for adjustments, ensuring all parts fit correctly before final tightening.
- **Level Surface:** Ensure the base and frame are plumb and square. An unlevel base can cause difficulties in fitting subsequent parts, especially roof panels.

- **Tools:** While an Allen wrench/hex key is provided, a drill can significantly speed up the process, especially for the numerous screws involved.
- **Roof Panels:** When installing roof panels, ensure they slide into tracks correctly. Do not force or cut panels if they do not fit; re-check the frame's squareness.

## 4. OPERATING INSTRUCTIONS

### Curtains and Netting:

- The gazebo includes two layers of fabric: an outer curtain for privacy and sun/rain protection, and an inner netting for insect protection.
- Both layers operate on a double-track system, allowing them to be opened, closed, or tied back independently.
- The yarn-dyed polyester fabric is water repellent and fade-resistant, offering durability against outdoor elements.

*Figure 4.1: A detailed view of the yarn-dyed polyester curtain fabric, indicating its waterproof, tear-proof, and fade-proof properties for long-lasting outdoor use.*

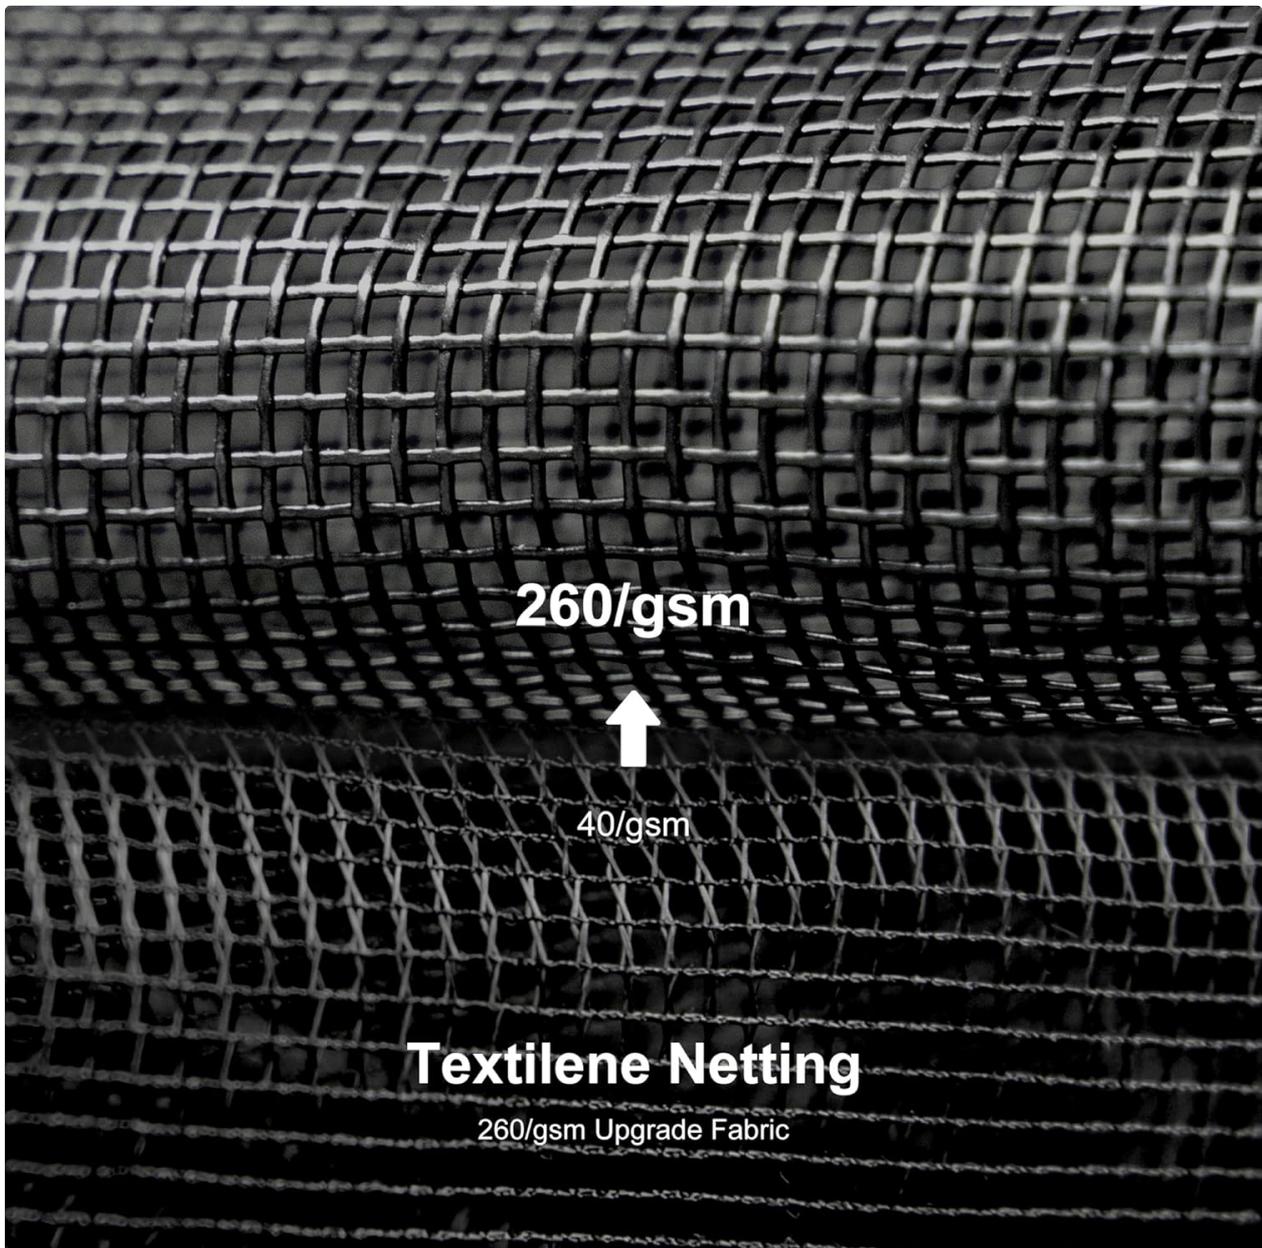

Figure 4.2: A comparison shot showing the density of the 260/gsm upgraded Textilene netting fabric, indicating its superior quality compared to standard 40/gsm netting.

### Roof and Drainage System:

- The double-tier roof design allows for optimal air circulation, reducing heat buildup and enhancing comfort.
- The integrated water gutter system efficiently channels rainwater away from the gazebo, ensuring a dry interior.

# Built-in Drainage System

Efficiently manages water, keeping the space dry and comfortable underneath.

*Figure 4.3: This close-up illustrates the built-in drainage system of the gazebo. Water is shown efficiently flowing through the integrated gutters, designed to prevent pooling on the roof and ensure a dry area underneath.*

## Integrated Hooks:

- The gazebo roof is equipped with hooks, allowing you to hang lights, fans, or decorative plants to customize your outdoor space.

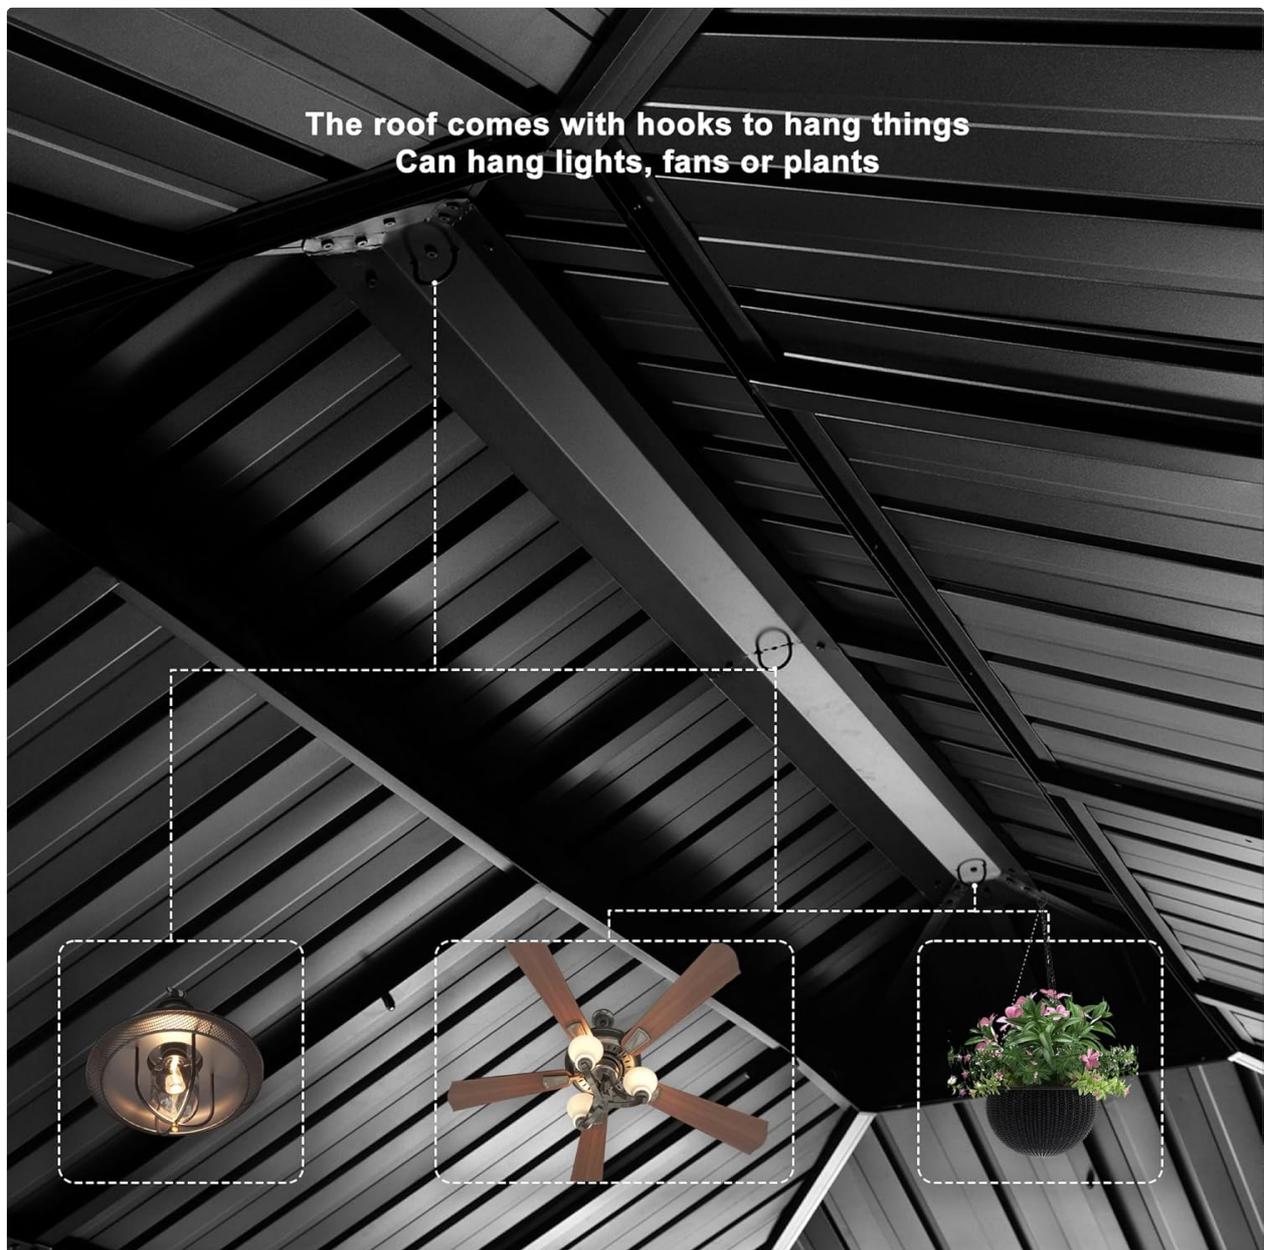

Figure 4.4: An interior shot of the gazebo roof, illustrating the integrated hooks designed for hanging various items such as lights, ceiling fans, or decorative plants.

## 5. MAINTENANCE

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning:** Clean the aluminum frame and galvanized steel roof with mild soap and water. Avoid abrasive cleaners that could damage the finish.
- **Fabric Care:** Curtains and netting can be spot cleaned with mild detergent. For deeper cleaning, follow specific care instructions provided with the fabric. Ensure they are dry before storing or closing for extended periods to prevent mildew.
- **Drainage System:** Periodically check and clear the water gutters of any debris (leaves, twigs) to ensure proper drainage.
- **Hardware Inspection:** Annually inspect all bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.
- **Winter Care:** While the hardtop is designed for snow, consider removing heavy snow accumulation to

prolong the roof's lifespan. Curtains and netting can be removed and stored indoors during harsh winter conditions.

## 6. TROUBLESHOOTING

- **Water Pooling on Roof:** Check if the gazebo is installed on a level surface. Ensure the drainage gutters are clear of debris.
- **Parts Not Fitting During Assembly:** Verify that the base and frame are perfectly square and level. Do not force parts. Loosen previously tightened screws to allow for minor adjustments. Refer to the assembly manual for specific steps.
- **Gazebo Instability:** Ensure all anchor points are securely fastened to your deck or patio. Regularly check and tighten all frame connections.
- **Curtains/Netting Snagging:** Inspect the double-track system for any obstructions or damage. Ensure curtains and netting are properly aligned on their tracks.

If you encounter issues not covered here, please contact customer support.

## 7. SPECIFICATIONS

Attribute	Value
Brand	PURPLE LEAF
Model Number	ZYUK04GHTG1218G
Product Dimensions	214.5"L x 143.7"W x 120.9"H
Item Weight	406 Pounds
Material	Aluminum, Galvanized steel, Textilene
Frame Material	Aluminum
Roof Material	Galvanized Steel
Color	Gray
Water Resistance Level	Water Resistant
Ultraviolet Light Protection	True
Assembly Required	Yes
Floor Area	216 Square Feet
