ScentLok Savanna Aero Attack V2 1/4 Zip

ScentLok Savanna Aero Attack V2 1/4 Zip Lightweight Camo Hunting Shirt User Manual

Brand: ScentLok | **Model:** Savanna Aero Attack V2 1/4 Zip

Product Overview

The ScentLok Savanna Aero Attack V2 1/4 Zip Lightweight Camo Hunting Shirt is engineered for warm-weather hunting, providing advanced scent control and comfort. It integrates ScentLok's proprietary Carbon Alloy technology to adsorb human odors, combined with moisture-wicking fabric to keep the wearer cool and dry. This shirt is designed for optimal mobility and stealth in the field, making it an essential component of a hunter's gear.

Key Features

- **Carbon Alloy Technology:** This advanced technology combines treated carbon, activated carbon, and zeolite to create a large surface area that effectively adsorbs human odors. This helps to contain the wearer's scent, reducing the chances of detection by game animals. The odor-adsorbing capability can be reactivated by heat, typically in a clothes dryer.

- **Moisture-Wicking and Lightweight Fabric:** Constructed from 100% polyester, the shirt's fabric is designed to draw moisture away from the skin, promoting rapid evaporation. This feature helps to keep the wearer cool and dry, even during strenuous activity or in high temperatures, enhancing comfort and performance in the field.

Image: A diagram illustrating how moisture is wicked away from the fabric surface.

- **Enhanced Comfort and Mobility:** The smooth, quiet polyester fabric ensures minimal noise during movement, crucial for hunting. Tapered stretch-fit spandex cuffs provide a secure fit, keeping sleeves in place. A zippered chest pocket offers convenient storage for small essentials, and the 1/4 zip features a cover to prevent irritation.

Preparation for Use

Before your first use, and periodically thereafter, it is important to prepare your ScentLok Savanna Aero Attack V2 shirt to ensure optimal performance of its Carbon Alloy technology.

Sizing and Fit

Ensure you select the correct size for a comfortable and effective fit. Refer to the sizing chart below for chest measurements. A proper fit is crucial for maximizing the shirt's scent control and mobility features.

Image: Sizing chart for ScentLok men's outerwear, including chest measurements for various sizes (S-3XL) and tall sizes (LT, XT).

Men's Outerwear Sizing (Chest in Inches)

Size	Chest
Small (S)	34–36
Medium (M)	38–40
Large (L)	42–44
X-Large (XL)	46–48
2X-Large (2XL)	50–52
3X-Large (3XL)	54–56
Tall Sizes: 2" added to body length / 1.5" added to sleeve length	
Large Tall (LT)	42–44
X-Large Tall (XT)	46–48

Initial Activation

For first-time use and after extended storage, it is recommended to reactivate the Carbon Alloy technology. This is typically done by placing the garment in a household dryer on high heat for a specified duration (refer to care tag for precise instructions). This process helps to release trapped odors and refresh the carbon's adsorptive capacity.

Usage Guidelines

To maximize the effectiveness of your ScentLok Savanna Aero Attack V2 shirt in the field, consider the following guidelines:

- **Layering:** This lightweight shirt is ideal as a base or mid-layer in warmer conditions. For colder weather, layer it with additional ScentLok outerwear to maintain scent control and thermal regulation. The product is designed to be paired with other ScentLok Savanna Aero items, such as the Crosshair Lightweight Pants, for comprehensive coverage.
- **Field Use:** Wear the shirt during hunting activities to benefit from its scent-absorbing and moisture-wicking properties. The quiet fabric minimizes noise, allowing for stealthy movement. Utilize the zippered chest pocket for small, frequently accessed items like calls or licenses.
- **Scent Control Protocol:** For best results, store your ScentLok garments in an airtight container or bag when not in use to prevent them from absorbing ambient odors. Dress in your ScentLok gear just before entering the hunting area.

Care and Maintenance

Proper care of your ScentLok Savanna Aero Attack V2 shirt is essential to maintain its performance and longevity, especially its scent-absorbing capabilities.

- **Washing:** Always follow the specific care instructions provided on the garment tag. Generally, ScentLok garments should be washed with scent-free detergent in cold water on a gentle cycle. Avoid using bleach, fabric softeners, or stain removers, as these can compromise the Carbon Alloy technology.
- **Drying and Reactivation:** After washing, tumble dry the shirt on high heat. This heat cycle is crucial for reactivating the Carbon Alloy technology, releasing trapped odors and restoring the garment's adsorptive capacity. Ensure the garment is completely dry before storage.
- **Storage:** Store your clean and reactivated ScentLok garment in an airtight container or bag, such as a scent-control bag, to prevent it from absorbing foreign odors from your home or storage area.

Troubleshooting

If you experience issues with your ScentLok Savanna Aero Attack V2 shirt, consider the following common solutions:

- **Reduced Scent Control:** If you notice a decrease in the shirt's odor-adsorbing performance, it likely needs reactivation. Ensure you are drying the garment on high heat as per the care instructions. Repeated exposure to strong ambient odors without proper storage can also diminish effectiveness.

- **Fit Issues:** If the shirt feels too tight or too loose, re-check the sizing chart in the "Preparation for Use" section. An improper fit can hinder mobility and potentially affect the garment's ability to contain scent effectively.
- **Fabric Damage:** Avoid exposing the garment to sharp objects or abrasive surfaces that could tear or snag the fabric. Follow washing instructions carefully to prevent material degradation.

Specifications

Attribute	Detail
Department	Mens
Fabric Type	100% Polyester
Care Instructions	Follow care instructions on garment tag.
Origin	Imported
Closure Type	Zipper (1/4 Zip)
Model Name	Savanna Aero Attack V2 1/4 Zip
