Philips Hue Smart Wireless Dimmer Switch V2 Instruction Manual

Model: 929002398602

Brand: Philips Hue

INTRODUCTION

Control and dim your lights with the Philips Hue Dimmer Switch V2. Both a wall switch and remote control, this smart switch attaches easily to walls with the included adhesive and can be removed from the magnetic base to use as a remote control.

WHAT'S IN THE BOX

- 1 x Hue Dimmer Switch

SETUP

The Philips Hue Dimmer Switch V2 offers flexible setup options. It can be paired directly with your Philips Hue lights or integrated into an existing Philips Hue Bridge system for extended functionality and control via the Philips Hue app.

Installation

The dimmer switch features an installation-free design. The wall plate can be mounted anywhere using the included adhesive. The remote control unit is magnetic and can be easily removed from the base plate for portable use.

**Wireless installation,
place it anywhere**

Customization via Philips Hue App

The Philips Hue app allows for extensive customization of the dimmer switch's functions. You can personalize which scene is assigned to each click of the Hue button and configure the power button's behavior.

Customize settings in the Hue app

Image: A smartphone screen displaying the Philips Hue app with settings for the dimmer switch, showing options to customize button presses for different actions within a home layout.

MAINTENANCE

The Philips Hue Dimmer Switch V2 is battery-powered. When the battery is low, the indicator light on the switch may flash or the switch may become unresponsive. To replace the battery, carefully open the back compartment and insert a new Lithium Metal battery (CR2450). Ensure proper polarity. Clean the switch with a soft, dry cloth. Avoid using abrasive cleaners or solvents.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Switch unresponsive	Low battery; out of range; pairing issue.	Replace battery. Move closer to lights/bridge. Re-pair the switch via the Philips Hue app.
Lights not dimming/changing scenes	Incorrect app settings; interference.	Check customization settings in the Philips Hue app. Ensure no strong interference sources are nearby.

SPECIFICATIONS
