# EVILTO Projection Alarm Clock User Manual

Model: B08PL1GZC4

## INTRODUCTION

Thank you for purchasing the EVILTO Projection Alarm Clock. This device combines a digital alarm clock with a projection feature, FM radio, and USB charging capabilities. It is designed to provide convenience and functionality for your bedroom or office environment.

Key features include a 180° adjustable projector, a 7.3-inch ultra-large LED display, 4-level brightness settings, dual alarms with 2 sounds, snooze function, FM radio with sleep timer, and a 5V USB output for charging other devices.

The EVILTO Projection Alarm Clock, shown with a phone charging via its USB port.

## SETUP

### Powering On

Connect the provided power adapter to the clock and plug it into a standard wall outlet. The clock will power on and the LED display will illuminate.

### Memory Battery

The clock includes a backup memory battery (CR5, included) that retains time, alarm, radio, and snooze settings in case of a power outage. No need to reset settings after a power interruption.

Detailed view of the clock's features, including the memory battery compartment.

### Initial Time Setting

Upon first power-on, the clock may display a default time. Refer to the 'Operating' section for detailed instructions on setting the correct time and date.

## OPERATING

## Time and Date Setting

The clock supports both 12-hour and 24-hour time formats. You can switch between these modes as per your preference.

## Projection Feature

The 180° adjustable projector allows you to project the time onto your ceiling or wall. It has 3 levels of projection brightness, and the farthest projection distance is 5m/16.4ft. Long press the "project" key to rotate the projection view 180°.

The projection feature allows you to easily view the time on your ceiling.

## FM Radio with Sleep Timer

The alarm clock radio can tune into FM frequencies from 76.0Mhz to 108Mhz. It features automatic searching, locking, and storing of stations. You can choose from 0-15 volume levels. The sleep timer function (5-90 minutes) will automatically turn off the radio after the set time.

Automatic storage

Frequency  
76.0MHz-108.0MHz

15 Level  
volume

Auto-off after  
5-90 minutes

Enjoy your favorite FM radio stations with adjustable volume and a convenient sleep timer.

### Alarm and Snooze Function

The clock features dual alarms, allowing you to set two separate wake-up times. It also includes a snooze function for those extra minutes of sleep.

# DUAL ALARM FUNCTION

1. Short press "AL" to select alarm 1,2;  
Press and hold for 3 seconds to set up.

2. Different alarm mode optional:  
wake-to-radio or wake-to buzzer.

3. Press "z•" to enter snooze duration mode.

4. Short press "▼" once to turn  
on/off alarm easily.

Set two independent alarms and utilize the snooze feature for flexible wake-up routines.

## Display Brightness Settings

Choose from 4-level brightness settings (Bright-Medium-Dim-Off) to suit your needs day and night. An Auto Mode adjusts brightness according to the environment, protecting your eyes and saving energy.

# MAKE-UP MIRROR

## FOUR KINDS OF BRIGHTNESS SWITCHING

Adjust the display brightness or let the clock automatically adapt to ambient light.

## USB Charging Port

The clock includes a 5V USB output interface, allowing you to charge your cellphone, tablets, and other electronic devices simultaneously while the alarm clock is powered.

Watch this video for a comprehensive overview of the EVILTO Projection Alarm Clock's features and operation.

## MAINTENANCE

To ensure the longevity and optimal performance of your EVILTO Projection Alarm Clock, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the display and body of the clock. Avoid using abrasive cleaners, solvents, or chemical sprays, as these can damage the surface.
- **Placement:** Place the clock on a stable, flat surface. Keep it away from direct sunlight, extreme temperatures, high humidity, and sources of strong magnetic fields, which can affect its functionality.
- **Ventilation:** Ensure proper ventilation around the clock to prevent overheating. Do not cover the ventilation holes.

## TROUBLESHOOTING

---

If you encounter any issues with your EVILTO Projection Alarm Clock, please refer to the following common troubleshooting steps:

- **Display is blank/No power:** Ensure the power adapter is securely plugged into both the clock and a working wall outlet. Check if the power outlet is functional. The memory battery only retains settings, not powers the display.
- **Projection is unclear or not visible:** Adjust the distance of the projector from the wall/ceiling. Ensure the room is sufficiently dark for optimal visibility. Check the projection brightness settings.
- **Alarm not sounding:** Verify that the alarm time is correctly set and activated. Check the alarm volume level. Ensure the alarm sound preference (radio or buzzer) is selected correctly.
- **Radio static/Poor reception:** Extend and adjust the position of the FM antenna. Try moving the clock to a different location to improve signal reception.
- **USB charging not working:** Ensure the clock is properly powered. Check if the USB cable connecting your device is functional. Some devices may charge slower than with their dedicated chargers.

If the problem persists after trying these steps, please contact customer support.

## SPECIFICATIONS

---

Feature	Detail
Brand	EVILTO
Color	White
Display Type	Digital
Style	Modern
Special Feature	Adjustable Brightness, Alarm
Product Dimensions	6.2"W x 3.1"H
Power Source	Corded Electric
Room Type	Bedroom, Living Room, Office
Material	Acrylonitrile Butadiene Styrene (ABS)
Item Weight	0.27 Pounds (4.3 ounces)
Batteries	1 CR5 battery required (included)
Warranty Type	Lifetime

## WARRANTY & SUPPORT

---

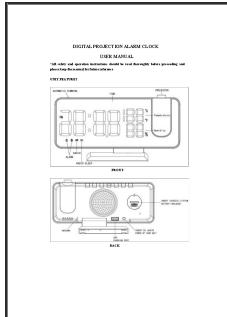

EVILTO 7.3-inch clock molds are well-made and quality guaranteed. The product comes with a lifetime warranty.
