## INITIAL SETUP

### Battery Information

The watch comes with one CR2 battery pre-installed. No initial battery installation is required for immediate use.

### Button Functions Overview

# Fashion Multi Function

Image: Diagram illustrating the functions of each button on the cofuo digital watch: Light, Mode, ST/STP (Start/Stop), and Reset.

- **LIGHT Button (Top Left):** Activates the LED backlight.
- **MODE Button (Bottom Left):** Cycles through different modes: Time, Alarm, Stopwatch, Date.
- **ST/STP Button (Top Right):** Starts/Stops the stopwatch, adjusts values during setting.
- **RESET Button (Bottom Right):** Resets the stopwatch, selects digits/items during setting.

## Setting Time and Date

1. From the normal time display, press the **MODE** button three times to enter Time Setting mode. The seconds will begin to flash.
2. Press the **RESET** button to cycle through the setting options: Seconds > Hours > Minutes > Month > Date > Day of the Week.
3. While a digit is flashing, use the **ST/STP** button to adjust the value.
4. After setting all desired values, press the **MODE** button once to return to the normal time display.
5. To switch between 12-hour and 24-hour format, press the **ST/STP** button while the hour is flashing in time setting mode.

## OPERATING INSTRUCTIONS

## Activating the LED Backlight

Press the **LIGHT** button (top left) to illuminate the display with colorful LED lights for clear visibility in low-light conditions.

## Using the Alarm Function

1. From the normal time display, press the **MODE** button once to enter Alarm mode.
2. Press the **RESET** button to select the hour or minute digit.
3. Use the **ST/STP** button to adjust the desired alarm time.
4. Press the **MODE** button to confirm and exit Alarm setting mode.
5. To turn the alarm ON/OFF, press the **ST/STP** button while in Alarm mode (without flashing digits). An alarm icon will appear/disappear.

## Using the Stopwatch

1. From the normal time display, press the **MODE** button twice to enter Stopwatch mode.
2. Press the **ST/STP** button to start the stopwatch.
3. Press the **ST/STP** button again to pause the stopwatch.
4. Press the **RESET** button to reset the stopwatch to zero.
5. Press the **MODE** button to exit Stopwatch mode.

## CARE AND MAINTENANCE

---

### Water Resistance Guidelines

Image: The cofuo digital watch demonstrating its water resistance in water, suitable for daily use.

- The watch is 50M water resistant, suitable for daily use, hand washing, showering, and swimming.
- **IMPORTANT: DO NOT PULL OUT ANY BUTTONS UNDERWATER.** This can compromise the water seal and cause damage.
- Avoid exposing the watch to extreme hot or cold temperatures, as this can shorten its lifespan.
- If mist or water droplets are found inside the watch surface, contact the manufacturer immediately.
- Excessive water contact over time may shorten the watch's life.

### **Cleaning the Watch**

Regularly clean the watch strap and case with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the watch's finish.

### **Battery Replacement**

The watch uses a CR2 battery. When the display dims or functions become unreliable, it may be time to replace the battery. Battery replacement should ideally be performed by a qualified technician to ensure the water resistance seal is maintained.

## TROUBLESHOOTING COMMON ISSUES

- **Watch not displaying correct time or date:**

Ensure you have followed the 'Setting Time and Date' instructions carefully. If the issue persists, the battery may be low.

- **Alarm sounding unexpectedly:**

Check the alarm setting. It might have been accidentally activated or set to a time you did not intend. Follow the 'Using the Alarm Function' steps to turn it off or adjust.

- **Display is dim or blank:**

This usually indicates a low battery. Replace the CR2 battery.

- **Mist or droplets inside the watch:**

Stop using the watch immediately and contact the manufacturer. Do not attempt to open the watch yourself.

- **Buttons are unresponsive:**

Ensure the watch is not submerged in water when pressing buttons. If the issue occurs outside of water, try replacing the battery. If the problem continues, contact customer support.
