MASTERCANOPY MC 10x15 Premium Pop Up Canopy white

MASTERCANOPY Premium Heavy Duty Pop Up Commercial Instant Canopy Tent

Model: MC 10x15 Premium Pop Up Canopy white

INTRODUCTION

This instruction manual provides comprehensive guidance for the assembly, operation, maintenance, and care of your MASTERCANOPY Premium Heavy Duty Pop Up Commercial Instant Canopy Tent. Designed for durability and ease of use, this 10x15 foot canopy offers 150 square feet of shade, making it ideal for market stalls, parties, picnics, and various outdoor events. Please read this manual thoroughly before initial use to ensure safe and proper handling of your canopy.

SAFETY INFORMATION

Important Safety Precautions:

- This product is designed for outdoor use and must be properly anchored to withstand windy conditions. Always use the provided sandbags, ropes, and stakes as needed to secure the canopy. Failure to do so may result in damage to the canopy or personal injury.
- The canopy provides UV protection, effectively reflecting 99% of harmful sun rays. However, avoid direct fire exposure or placing heat sources too close to the canopy fabric.
- Before each use, carefully inspect the product for any signs of damage, wear, or loose components that could affect its safety and stability. Do not use if damaged.
- Ensure all locking mechanisms are fully engaged during setup and before use.
- Do not leave the canopy unattended in severe weather conditions, including strong winds, heavy rain, or snow. Disassemble and store the canopy during such conditions.

COMPONENTS AND PACKING LIST

Your MASTERCANOPY tent package includes the following items:

Complete Package Contents: Includes the canopy top, pre-assembled frame, wheeled roller bag, 4 ropes, 4 tent stakes, and 4 bonus weight bags (sand not included).

Bigger Wheels of Carrying Bag

A light-weight wheeled bag makes it easy to carry your tent wherever you want.

Detailed Packing List: Visual representation of all components for easy verification upon receipt.

The canopy cover is made of 200 Denier polyester silver coated fabric, which is water-resistant and designed to effectively reflect 99% of harmful sun rays. The wheeled bag is constructed from durable 1680D fabric coated with PVC and features reinforced handles for easy transport.

SETUP INSTRUCTIONS

Setting up your MASTERCANOPY tent is a simple process that can be completed quickly, ideally with two people. No tools are required for assembly.

Step-by-Step Assembly:

1. Unpack and Prepare:

Remove the fully assembled frame with the canopy top from the wheeled bag. If the wheels are not pre-installed, attach them to the wheeled bag for easier transport. Unzip the bag and carefully slide out the frame.

The wheeled roller bag features bigger wheels for smooth movement, a rust-proof zipper, a detachable axle, and an additional pocket for accessories.

2. Unfold the Frame:

With a partner, stand on opposite sides of the folded frame. Gently pull the frame outwards to begin unfolding it. The top bar in the center will rise as the frame expands. Continue pulling until the frame is nearly fully extended.

Visual guide for the quick setup process, starting with unfolding the pre-assembled canopy tent frame.

3. Attach the Canopy Top:

If not already attached, place the canopy fabric over the frame. Ensure the corners are aligned and secure the fabric to the frame using the internal stickers or straps to hold the top in place. Push up on the locking slider button at each corner to fully extend the frame and lock it into position. This secures the perimeter fixing.

Details of the canopy's construction, including the upgraded top frame and smooth, safe push buttons for easy setup.

4. Extend the Legs and Adjust Height:

Extend each leg downwards. Use the thumb press buttons on each leg to easily adjust the height to your desired level. The legs can be adjusted to 89.3 inches, 93.7 inches, or 97.2 inches. Ensure all legs are locked into place at the same height for stability.

The canopy features 3-adjustable height settings, easily secured with a smooth button mechanism.

5. Secure the Canopy:

For optimal stability, especially in windy conditions, utilize the provided ropes and stakes to anchor the canopy to the ground. Fill the bonus weight bags with sand and attach them to the legs for additional stability.

OPERATING THE CANOPY

Once set up, your MASTERCANOPY tent provides a spacious and protected area for various activities.

- **Shade and Coverage:** The 10x15 foot canopy offers a true 150 square feet of shade, comfortably accommodating approximately 6-10 people.
- **UV Protection:** The 200 Denier polyester silver coated fabric effectively reflects 99% of harmful UV rays, providing a safe and cool environment.
- **Versatile Use:** This canopy is suitable for a wide range of outdoor events, including market stalls, parties, picnics, camping, and other commercial or recreational uses.

PACKING LIST

The MASTERCANOPY tent provides ample space and protection for various outdoor activities, such as market stalls.

MAINTENANCE

Proper maintenance will extend the lifespan of your MASTERCANOPY tent.

- **Cleaning:** Clean the canopy fabric with mild soap and water. Do not use harsh chemicals or abrasive cleaners, as these can damage the fabric's coating. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Care:** Wipe down the alloy steel frame with a damp cloth to remove dirt and debris. Ensure the frame is dry before folding and storing to prevent rust.
- **Storage:** Always store the canopy in its wheeled bag in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the fabric and frame are completely dry to prevent mold, mildew, and corrosion.
- **Inspection:** Regularly inspect all components, including the frame, fabric, ropes, and stakes, for any signs of wear, tear, or damage. Address any issues promptly to maintain the canopy's integrity and safety.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Canopy is unstable in wind:** Ensure the canopy is properly anchored using all provided ropes and stakes. Fill the

bonus weight bags with sand and attach them to each leg for additional stability. Disassemble the canopy in winds exceeding 50km/h.

- **Water accumulation on top:** The canopy features a top center pole frame support designed to prevent water accumulation. Ensure the frame is fully extended and the canopy top is taut. If water still pools, gently push up from underneath to release it.
- **Difficulty unfolding/folding the frame:** Ensure all locking buttons are disengaged when folding. If the frame is stiff, gently wiggle the joints while applying pressure. Two people are recommended for easier setup and takedown.
- **Damaged or bent parts:** In case of manufacturing defects or damage, refer to the warranty information for replacement options. Avoid forcing bent parts, as this may cause further damage.

SPECIFICATIONS
