ADESSO Xtream P2

ADESSO Xtream P2 USB Wired Multimedia Headset Instruction Manual

Model: Xtream P2 | Brand: ADESSO

Introduction

The ADESSO Xtream P2 USB Wired Multimedia Headset is designed for clear communication and active lifestyles. It features a built-in sound chip for direct plug-and-play connectivity via USB, eliminating the need for separate audio and microphone connections. This headset is compatible with PCs, laptops, and Chromebooks.

Product Overview

Key Features

- **Noise-Canceling Microphone:** Equipped with advanced noise-canceling technology and a 270-degree adjustable omnidirectional microphone for clear voice input.
- **In-line Volume Control:** Conveniently located controls on the cable for volume adjustment, track navigation, and microphone mute.
- **Comfortable Design:** Adjustable earcups and headband ensure a soft, comfortable fit for extended use.
- **Binaural Over-the-Head Style:** Provides immersive audio experience.

Components

The Xtream P2 headset includes the following main components:

Video 1: Adesso Xtream P2 USB Multimedia Headset Overview. This video provides a visual overview of the headset's features and design, including its noise-canceling microphone and in-line controls.

Setup

Connecting the Headset

1. Locate an available USB port on your PC, laptop, or Chromebook.
2. Plug the USB connector of the Xtream P2 headset into the USB port.
3. The headset is plug-and-play and should be automatically recognized by your operating system. No additional drivers are typically required.
4. Verify that the headset is selected as the default audio input and output device in your computer's sound settings.

Operating Instructions

Adjusting Fit

Adjust the headband and earcups to ensure a comfortable and secure fit over your head. The microphone boom can be rotated 270 degrees to position it on either your left or right side, and adjusted closer or further from your mouth for optimal voice capture.

Using the In-line Control Panel

The control panel integrated into the USB cable allows for easy management of audio and calls:

- **Volume Up:** Long press the "Volume Up" button.
- **Previous Track:** Short press the "Volume Up" button.
- **Volume Down:** Long press the "Volume Down" button.
- **Next Track:** Short press the "Volume Down" button.
- **Play/Pause:** Press the "Play/Pause" button.
- **Microphone On/Off (Mute):** Toggle the "Mic On/Off" switch to mute or unmute the microphone. An indicator light on the control panel will show the microphone status.

Maintenance

Cleaning

To maintain the headset's condition, gently wipe the earcups and headband with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure no liquid enters the microphone or control panel.

Storage

Store the headset in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable to prevent damage.

Troubleshooting

Problem	Possible Cause	Solution
No audio from headset	Headset not properly connected; Incorrect audio output device selected; Volume too low.	Ensure USB cable is fully inserted. Check your computer's sound settings to confirm "Xtream P2" is selected as the output device. Increase volume using the in-line control or computer settings.
Microphone not working	Microphone muted; Incorrect audio input device selected; Microphone not positioned correctly.	Check the "Mic On/Off" switch on the in-line control. Verify "Xtream P2" is selected as the input device in your computer's sound settings. Adjust the microphone boom closer to your mouth.
Unrecognized USB device error	USB port issue; Temporary software glitch.	Try plugging the headset into a different USB port. Restart your computer.

Problem	Possible Cause	Solution
Poor sound quality / Noise interference	Loose connection; Interference from other devices; Software issues.	Ensure the USB connection is secure. Move away from other electronic devices that might cause interference. Update audio drivers if necessary.
