10L0L For Club Car DS 1993 & UP

10L0L 4PCS Golf Cart Fender Flares for Club Car DS 1993 & UP Instruction Manual

1. PRODUCT OVERVIEW

The 10L0L 4PCS Golf Cart Fender Flares are designed to provide enhanced protection and a refined appearance for your Club Car DS golf cart, specifically models from 1993 and up. These heavy-duty ABS plastic mud guards are engineered to block rocks, mud, and debris, safeguarding your cart's paint from scratches and road damage. The sleek design integrates seamlessly with your golf cart's aesthetics. They feature built-in reflectors for improved visibility and are constructed from UV-treated material to ensure long-lasting performance in various weather conditions.

2. PRODUCT FEATURES

- **Exact Fit for Club Car DS (1993 & UP):** Exclusively designed for factory-standard Club Car DS golf carts, ensuring perfect alignment with factory bolt holes (no modifications needed). Note: Not compatible with non-OEM bodies.
- **Heavy-Duty Protection + Scratch Resistance:** Made from high-impact ABS plastic to block rocks, mud, and debris while protecting your cart's paint from scratches and road damage.
- **Enhanced Safety with Built-In Reflectors:** Front fender flares feature high-visibility amber reflectors for safer night driving.
- **Weatherproof & Long-Lasting:** UV-treated material resists fading, cracking, and warping in extreme temperatures (-40°F to 180°F). Ribbed surface improves water drainage for all-weather performance.
- **Easy No-Drill Installation:** Includes 2 front and 2 rear fender flares with all necessary stainless steel mounting hardware for easy installation on standard golf carts as well as for lifted golf carts with off-road tires (not for modified vehicles).

3. PACKAGE CONTENTS

The package includes the following components:

- 2 x Front Fender Flares
- 2 x Rear Fender Flares
- Stainless Steel Mounting Hardware (screws, washers)

4. INSTALLATION INSTRUCTIONS

Follow these steps for a straightforward installation:

1. **Prepare the Golf Cart:** Ensure your Club Car DS is clean and parked on a level surface.
2. **Position the Fender Flare:** Align one of the fender flares (front or rear) with the corresponding wheel well on your golf cart. Ensure it sits flush against the body.
3. **Mark Drill Points:** Use a marker to mark the locations for drilling through the pre-drilled holes on the fender flare onto the golf cart body.

4. **Drill Pilot Holes:** Carefully drill pilot holes at the marked locations on the golf cart body. Use a drill bit appropriate for the size of the self-tapping screws.
5. **Secure the Fender Flare:** Place the fender flare back into position. Use the provided stainless steel self-tapping screws and washers to secure the flare to the golf cart body. Tighten securely but do not overtighten to avoid damaging the plastic.
6. **Repeat for Remaining Flares:** Repeat steps 2-5 for the remaining three fender flares.
7. **Final Check:** Once all flares are installed, ensure they are all securely fastened and properly aligned.

Quite Easy to Install

Video 2: Generic 10L0L Golf Cart Fender Installation Steps. This video provides a general overview of the installation process for 10L0L fender flares on a golf cart, which can be applied to various models.

5. OPERATING AND USAGE

Once installed, the fender flares operate passively by extending the coverage over your golf cart's wheels. Their primary function is to:

- **Protect Passengers:** Reduce the amount of dirt, water, mud, rocks, and other debris kicked up by the tires, keeping passengers cleaner and safer.
- **Protect Vehicle Body:** Shield the golf cart's paint and body from scratches and damage caused by flying debris.
- **Enhance Aesthetics:** Provide a rugged and finished look to your golf cart.

Figure 6: Before and after installation, demonstrating protection from debris.

6. MAINTENANCE

To ensure the longevity and appearance of your 10L0L fender flares:

- **Regular Cleaning:** Wash the fender flares with soap and water regularly to remove accumulated dirt and mud.
- **Inspect Fasteners:** Periodically check all mounting screws to ensure they remain tight. Retighten if necessary.
- **UV Protection:** While the material is UV-treated, occasional application of a UV protectant spray designed for plastics can further extend their life and prevent fading.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or solvents that could damage the ABS plastic material.

7. TROUBLESHOOTING

If you encounter any issues during or after installation, consider the following:

- **Poor Fitment:** Ensure the fender flares are correctly aligned with the factory bolt holes. Slight

adjustments may be needed before fully tightening all screws. Verify your golf cart is a standard Club Car DS (1993 & UP) and not a modified vehicle or non-OEM body, as this product is specifically designed for factory specifications.

- **Loose Flares:** Recheck all screws and ensure they are tightened adequately. Over time, vibrations can cause screws to loosen.
- **Reflector Damage:** If reflectors are damaged, they can often be replaced. Contact customer support for replacement parts.

8. SPECIFICATIONS

Attribute	Detail
Brand	10L0L
Model Name	For Club Car DS 1993 & UP
Part Number	00532-E
Material	High-Impact ABS Plastic
