2. SAFETY INFORMATION

Please observe the following safety guidelines:

- **Initial Recovery:** The mattress is compressed for transport. Upon receipt, remove it from its packaging and allow it to expand. For best results, expose the mattress to sunlight for 2-3 days to aid in thickness recovery.
- **Ventilation:** Ensure adequate ventilation when the mattress is first unpacked to dissipate any new product odors.
- **Flammability:** Keep the mattress away from open flames and high heat sources.
- **Weight Distribution:** Distribute weight evenly across the mattress to prevent premature wear and maintain its shape.

3. SETUP INSTRUCTIONS

Follow these steps to prepare your futon mattress for use:

1. **Unpack the Mattress:** Carefully remove the futon mattress from its storage bag and compressed packaging. Avoid using sharp objects that could damage the fabric.
2. **Allow for Expansion:** Lay the mattress flat in a well-ventilated area. Due to compression during shipping, it will require 2-3 days to fully recover its intended thickness. Exposure to sunlight can accelerate this process.
3. **Prepare for Use:** Once fully expanded, the mattress is ready for use. You may place it directly on the floor or on a suitable bed frame.

- **Cleaning:** The mattress comes with a dustproof cover. This cover can be removed and washed according to its care label. For the mattress itself, spot clean with a mild detergent and allow to air dry completely.
- **Air Out Regularly:** To maintain freshness and prevent moisture buildup, air out the mattress periodically, ideally in sunlight.
- **Rotation:** Rotate the mattress regularly (head to foot) to ensure even wear and prolong its lifespan.
- **Storage:** When not in use, store the mattress in its provided storage bag in a dry, cool place to protect it from dust and moisture.
