# LIQUIPEL Liquid Glass Screen Protector User Manual

Model: B08Q3LB3V5

## INTRODUCTION

The LIQUIPEL Liquid Glass Screen Protector provides an invisible, durable layer of protection for your device's screen. Utilizing advanced nano-technology, it enhances scratch, shatter, and impact resistance. This manual provides detailed instructions for proper application and activation of the associated protection plan.

## WHAT'S INCLUDED

The LIQUIPEL Liquid Glass Screen Protector package contains the following items:

- LIQUIPEL Invisible Screen Protection Liquid Glass Vial
- Alcohol Wipe
- Microfiber Cloth
- Applicator
- Protection Plan Activation Card

## APPLICATION INSTRUCTIONS

Follow these steps carefully for optimal application of the LIQUIPEL Liquid Glass Screen Protector. Ensure your device is powered off before beginning.

### 1. Step 1: Clean the Device Surface

Use the provided alcohol wipe to thoroughly clean the surface of your device's screen. After cleaning, use the microfiber cloth to dry the screen completely, ensuring no residue or lint remains.

Image: A visual representation of the first step, showing the application of liquid glass to a smartphone screen.

### 2. Step 2: Apply the Liquid Glass

Open the liquid glass vial by twisting off the top completely. Place the Liquid Glass tip into the applicator with the opened portion facing towards the applicator. Squeeze the bottle and spread the Liquid Glass EVENLY across the entire screen until the bottle is empty.

### 3. Step 3: Curing and Buffing

Allow your device to dry for 5 minutes. After this period, use the microfiber cloth to buff off any extra solution from the screen. The product will be fully cured after 24 hours.

Image: A three-step diagram showing the process: 1) applying liquid to a phone, 2) the liquid forming a hexagonal pattern on the screen, and 3) a protected screen with a shield icon.

For a visual guide, you may refer to the official application video (if available) or visit the LIQUIPEL support page: [LIQUIPEL Application Guide](#).

## PROTECTION PLAN ACTIVATION

---

To qualify for the screen repair guarantee and activate your product warranty, you must register your product.

- Scan QR Code:** Scan the QR code on the green InstaProtek shield provided in your package using your smartphone camera. This will direct you to download the InstaProtek app from the Apple App Store or Google Play Store.
- Open App:** Open the InstaProtek app on your device.
- Complete Registration:** Follow the in-app instructions to complete the registration process for your product.

## Activate Your Protection Plan

### Register your product warranty:

To qualify for the screen repair guarantee, your device must be protected by our product at the time of damage. We encourage you to register with us directly after purchase. To do so, you must scan the QR code on the green instaProtek shield listed below with your smartphone camera or download the instaProtek app from the APPLE or Google Play Store, and follow the instructions to register your product.

### HOW TO ACTIVATE:

1. Scan the QR code on the green instaProtek shield listed below with your smartphone camera or download the instaProtek app from the APPLE or Google Play Store.

2. Open the app and follow the steps to register your product.
3. Complete Registration Process.

## PRODUCT FEATURES AND TECHNOLOGY

LIQUIPEL Liquid Glass Screen Protection utilizes Nano-Shock Technology to provide universal protection for various glass screens. This advanced polymer forms a molecular bond with the glass surface, significantly strengthening it.

- **Enhanced Durability:** Increases shatter resistance and improves overall screen durability.
- **9H Sapphire Hardness:** Provides a high level of scratch resistance.
- **Invisible Protection:** The nano-coating is completely transparent and does not alter screen clarity or touch sensitivity.
- **Easy Application:** Designed for a straightforward, bubble-free application process.

## COMPATIBILITY

The LIQUIPEL Liquid Glass Screen Protector is designed for universal application on a wide range of devices with glass screens, including:

- Smartphones:** Apple iPhone, Samsung Galaxy, Google Pixel, and other compatible models.
- Tablets:** Apple iPad, Samsung Tab, Microsoft Surface, Amazon Fire, Lenovo Tab, and other compatible models.
- Smartwatches:** Apple Watch and other compatible smartwatches.

For a comprehensive list of compatible devices, refer to the product specifications or the LIQUIPEL website.

## SPECIFICATIONS

Feature	Detail
Brand	LIQUIPEL

Material	Liquid Glass (Nano-Shock Technology)
Item Hardness	9H
Finish Type	Glossy
Screen Surface Description	Glossy
Clarity	10 (High Optical Clarity)
Item Weight	2.89 ounces
Product Dimensions	7 x 5.5 x 5 inches (packaging)
Compatible Devices	Smartwatch, Tablet, and various smartphones (e.g., Samsung Tablet, Apple iPad, Microsoft Surface Go 2, Amazon Fire 7, etc.)

## SAFETY INFORMATION

### WARNING: FLAMMABLE.

Read all cautions and instructions carefully before use. Keep out of reach of children. Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water. Use in a well-ventilated area. Do not ingest.

## WARRANTY AND SUPPORT

The LIQUIPEL Liquid Glass Screen Protector includes a \$150 protection plan. To activate this plan, follow the "Protection Plan Activation" steps outlined in this manual. For further support, product information, or warranty claims, please visit the official LIQUIPEL website or contact customer service through the InstaProtek app.

## TROUBLESHOOTING

This section addresses common issues you might encounter during the use of your LIQUIPEL Liquid Glass Screen Protector.

### Issue: Streaks or Residue After Application

**Solution:** Ensure the screen was completely dry and free of lint before application. After the 5-minute drying period, buff the screen thoroughly with the microfiber cloth to remove any excess solution. If streaks persist, gently clean the screen with a damp microfiber cloth and re-buff.

### Issue: Protection Plan Registration Problems

**Solution:** Verify that you have scanned the correct QR code and downloaded the official InstaProtek app. Ensure your device has an active internet connection. If issues persist, contact InstaProtek support directly through their app or website.

### Issue: Insufficient Liquid for Large Screens

**Note:** The amount of liquid provided is typically sufficient for one application on most standard smartphone or tablet screens. For very large devices or multiple devices, additional kits may be required. Ensure even distribution during application.
