Strong CAMERA-W-OUT

STRONG IOT Outdoor Camera User Manual

Model: CAMERA-W-OUT

Brand: Strong

INTRODUCTION

Thank you for choosing the STRONG IOT Outdoor Camera. This Full HD 1080p outdoor surveillance camera is designed to provide reliable monitoring for your home with features such as a wide-angle lens, motion detection, night vision, and convenient app control. This manual will guide you through the setup, operation, and maintenance of your new camera.

Image: Front view of the STRONG IOT Outdoor Camera, showing its white cylindrical body and black lens area, mounted on a wall bracket.

SAFETY INFORMATION

- Ensure the camera is installed securely to prevent falling.
- Use only the provided power cable and accessories.
- Do not expose the camera to extreme temperatures or corrosive substances.
- While the camera is IP66 waterproof, avoid submerging it in water.
- Keep out of reach of children.
- For outdoor use only.

PACKAGE CONTENTS

Please check the box for the following items:

- STRONG IOT Outdoor Camera
- Charging Cable (Power Cable)
- Wall Mounting Kit (Screws and anchors)
- User Manual (This document)

SETUP

1. App Installation

Download the "Helo by Strong" application from your smartphone's app store (available for Android and iOS devices). Search for "Helo by Strong" and install the app.

2. Mounting the Camera

The camera is designed for wall mounting. Choose a suitable outdoor location that provides the desired viewing angle and is within reach of a power outlet.

1. Mark the drilling points on the wall using the camera's mounting base as a template.
2. Drill holes at the marked points.
3. Insert the wall anchors (if necessary).
4. Secure the camera's mounting base to the wall using the provided screws.
5. Attach the camera to the mounted base.

Image: Diagram illustrating the camera's 360-degree adjustable angle feature, showing how the camera can be rotated on its mount for

optimal positioning.

3. Power Connection

Connect the provided charging cable to the camera's power input and then plug it into a suitable outdoor power outlet. The camera will power on automatically.

4. Wi-Fi Connection and Pairing

Follow the in-app instructions to connect your camera to your home Wi-Fi network and pair it with your "Helo by Strong" account. This typically involves scanning a QR code or following a guided setup process within the app.

OPERATING THE CAMERA

1. Live View

Open the "Helo by Strong" app and select your camera from the device list to access the live video feed. You can view real-time footage from your camera anytime, anywhere.

Image: A smartphone displaying a clear 1080P Full HD video feed from the outdoor camera, showcasing the high resolution and detail of the captured footage.

2. Motion Detection and Alerts

The camera features a 100° wide-angle lens and adjustable sensitivity for reliable motion detection. When motion is detected, the camera can send instant notifications to your smartphone.

- Adjust motion detection sensitivity in the app settings to minimize false alarms.
- Set up specific detection zones if your app supports this feature.

3. Two-Way Audio

Utilize the two-way audio feature to listen to what's happening around your camera and speak through its built-in speaker. This is useful for communicating with visitors or deterring unwanted guests.

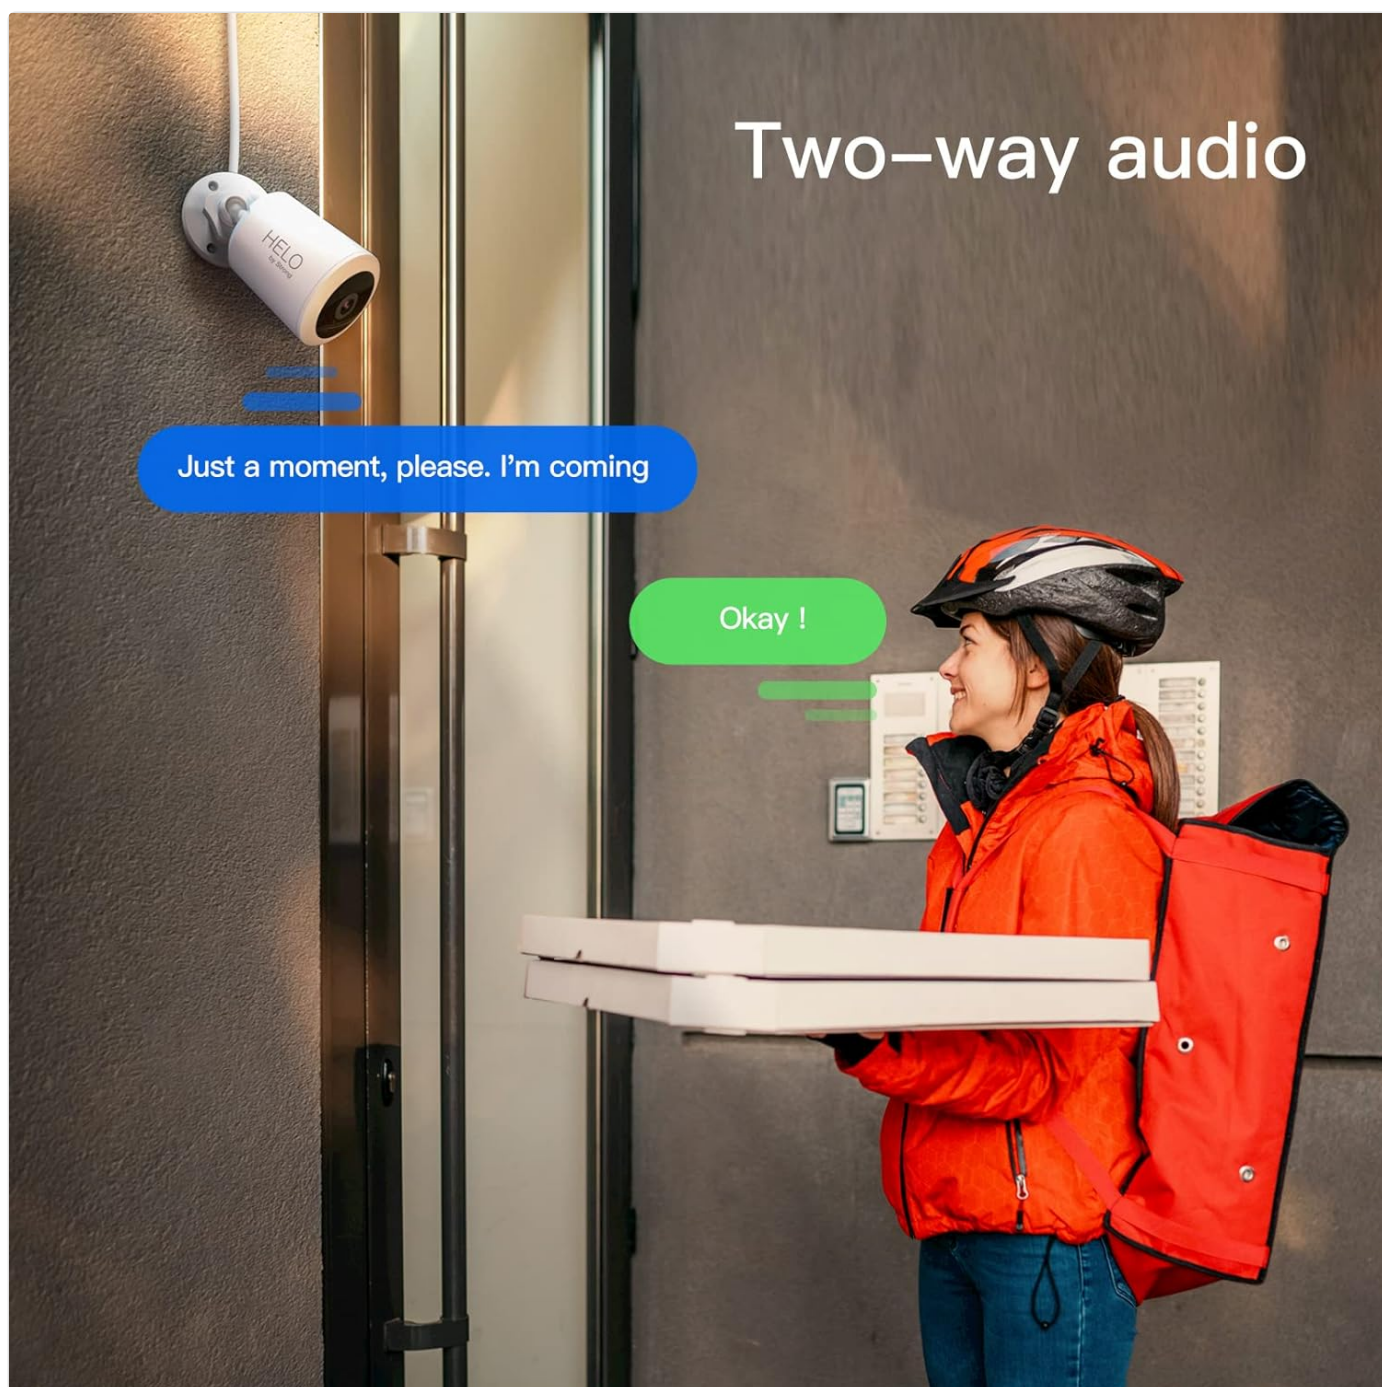

Image: A scenario depicting the two-way audio function, with a person at the door and text bubbles indicating a conversation between the person and someone speaking through the camera.

4. Night Vision

The camera is equipped with night vision capabilities, allowing it to capture clear video footage even in low-light or complete darkness conditions.

5. Recording and Storage

Your camera supports both local storage via a Micro SD card (up to 128GB, not included) and cloud storage options.

- **Local Storage:** Insert a Micro SD card into the designated slot on the camera to record footage locally. This ensures continuous recording even without an internet connection.
- **Cloud Storage:** The "Helo by Strong" app offers cloud storage options for secure backup of your recordings. Check the app for subscription details and free trial availability.

Cloud Storage

Users can choose between local storage with 128GB Micro SD card, or using encrypted cloud storage to ensure privacy and security even when the camera is stolen or damaged.

2 months free trial

Cloud storage Local storage

Image: The camera mounted outdoors, with icons below it representing cloud storage and local storage (Micro SD card), indicating the dual storage capabilities.

MAINTENANCE

- **Cleaning:** Periodically wipe the camera lens and body with a soft, damp cloth to remove dust and dirt. Do not use harsh chemicals.
- **Firmware Updates:** Check the "Helo by Strong" app regularly for firmware updates. Keeping your camera's firmware up-to-date ensures optimal performance and security.
- **Storage Management:** If using local storage, periodically review and manage recorded footage on your Micro SD card to prevent it from filling up.
- **Power Cycle:** If the camera experiences issues, try unplugging it from the power source for a few seconds and then plugging it back in.

TROUBLESHOOTING

Problem	Possible Solution
Camera not connecting to Wi-Fi.	• Ensure your Wi-Fi network is 2.4GHz (5GHz is not supported). • Check Wi-Fi signal strength at the camera's location. • Restart your Wi-Fi router. • Ensure correct Wi-Fi password is entered in the app. • Reset the camera and try pairing again.
Poor video quality.	• Check your internet connection speed. • Clean the camera lens. • Ensure adequate lighting for optimal daytime video.
Motion detection not working or too many false alarms.	• Adjust motion detection sensitivity in the app. • Ensure the camera's field of view is clear of moving objects like tree branches. • Check app notification settings.
Two-way audio not functioning.	• Ensure microphone and speaker permissions are granted to the app on your smartphone. • Check volume settings on your smartphone and within the app.

SPECIFICATIONS

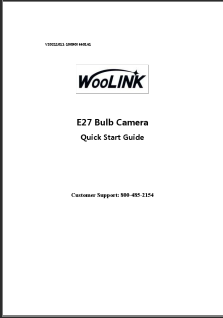

Feature	Detail
Model Number	CAMERA-W-OUT
