## 2. Setup and Installation

The SENSEA MIA shower head is designed for straightforward wall-mounted installation. No specialized tools are typically required for attaching the shower head to a standard shower hose.

### Installation Steps:

1. **Preparation:** Ensure the water supply to your shower is turned off before beginning installation.
2. **Remove Old Shower Head:** Unscrew your existing shower head from the shower hose by turning it counter-clockwise. If it's tight, you may use a wrench, but protect the finish with a cloth.
3. **Clean Threads:** Clean any residue or old sealant from the threads of your shower hose.
4. **Apply Plumber's Tape (Optional but Recommended):** Wrap plumber's tape (PTFE tape) clockwise around the threads of the shower hose connection point 3-4 times. This helps create a watertight seal.
5. **Attach SENSEA MIA Shower Head:** Screw the SENSEA MIA shower head onto the shower hose by turning it clockwise. Hand-tighten until snug. Avoid over-tightening, which can damage the threads.
6. **Check for Leaks:** Turn on the water supply and check for any leaks around the connection point. If leaks occur, tighten slightly more or reapply plumber's tape.

## 4. Maintenance

Regular cleaning and maintenance will ensure the longevity and optimal performance of your SENSEA MIA shower head.

### Cleaning the Shower Head:

- **Anti-Limescale Nozzles:** The shower head is equipped with flexible anti-limescale nozzles. To remove limescale buildup, simply rub the rubber nozzles with your finger or a soft cloth. This should dislodge most deposits.
- **General Cleaning:** For general cleaning of the shower head's surface, use a soft cloth and a mild, non-abrasive cleaner. Avoid harsh chemicals, abrasive sponges, or scouring pads, as these can damage the chrome finish.
- **Deep Cleaning (if necessary):** If limescale is severe, you can soak the shower head in a solution of white vinegar and water for a few hours, then scrub gently and rinse thoroughly. Ensure the shower head is fully rinsed before use.

*Note: Always follow the cleaning instructions for your specific bathroom cleaners to avoid damage to the product finish.*
