OMAR POLY GLOVE Instruction Manual

Model: POLY GLOVE

1. PRODUCT OVERVIEW

The OMAR POLY GLOVE is a disposable polyethylene glove designed for sanitary use in various applications, particularly in foodservice operations. These gloves are lightweight, clear, and offer a convenient solution for tasks requiring hand protection and hygiene.

They are latex-free, making them suitable for individuals with latex allergies, and are ideal for light-duty food preparation tasks such as slicing deli meat, tossing salads, or transferring food items. Their economical price and lightweight construction facilitate quick changes between tasks, helping to prevent cross-contamination.

2. KEY FEATURES

- **Latex-free & Powder-free:** Ensures comfort and safety for users with sensitivities.
- **Convenient to use:** Designed for easy donning and removal.
- **Anti-slip, Embossed:** Provides a better grip for handling various items.
- **One Size Fits All:** Universal fit for most hand sizes.
- **Clear Design:** Transparent for clear visibility.
- **Versatile Application:** Suitable for Food Service, Personal Safety, Hygienic Use, and Catering.

3. DONNING INSTRUCTIONS

Follow these simple steps to properly don your OMAR POLY GLOVES:

1. Ensure hands are clean and dry before handling gloves.
2. Remove one glove from the dispenser or packaging.
3. Insert your hand into the glove, ensuring fingers and thumb are fully seated.
4. Adjust the glove for a comfortable fit around your hand and wrist.
5. Repeat for the other hand if necessary.

4. USAGE GUIDELINES

OMAR POLY GLOVES are designed for single-use applications where hygiene and prevention of cross-contamination are critical. They are suitable for:

- Food preparation and handling (e.g., slicing, mixing, serving).
- Light cleaning tasks.
- General hygienic use in various settings.
- Catering and event services.

Always dispose of gloves after each task or when moving between different food types to maintain hygiene standards. Do not reuse gloves.

5. CARE AND STORAGE

To ensure the longevity and effectiveness of your OMAR POLY GLOVES:

- **Storage:** Store gloves in their original packaging in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp objects that could puncture or tear the gloves.
- **Disposal:** Dispose of used gloves responsibly according to local regulations.

Note: The product is designed for single use and cannot be washed or reused. The "Hand Wash" care instruction refers to general hygiene practices for hands, not the gloves themselves.

Image: A clear plastic bag filled with numerous folded OMAR POLY GLOVES, showing how they are packaged for bulk storage.

6. TROUBLESHOOTING

While OMAR POLY GLOVES are designed for reliability, here are some common considerations:

- **Glove Tears Easily:** Ensure hands are free of sharp edges (e.g., rings, long fingernails) before donning. The gloves are designed for light-duty tasks; for heavy-duty applications, a more robust glove type may be required.
- **Glove Does Not Fit:** These gloves are "One Size Fits All." While they accommodate most hand sizes, extreme variations may result in a less ideal fit.
- **Static Cling:** In very dry environments, static electricity might cause gloves to cling. This is normal and typically does not affect performance.

7. SPECIFICATIONS

Attribute	Detail
Brand	OMAR
Model	POLY GLOVE
Material	Polyethylene
Color	Clear
Size	One Size Fits All

Attribute	Detail
Features	Embossed, Latex-free, Powder-free, Anti-slip
