## Juskys 51392

# Juskys Cadras Hanging Chair Instruction Manual

Model: 51392

## 1. INTRODUCTION

---

Thank you for choosing the Juskys Cadras Hanging Chair. This manual provides essential information for the safe assembly, operation, and maintenance of your new hanging chair. Please read these instructions carefully before use and retain them for future reference.

The Juskys Cadras Hanging Chair is designed for comfortable relaxation, featuring a modern macrame design and a soft, comfortable cushion. It is suitable for indoor use and can support a maximum weight of 120 kg.

## 2. SAFETY INSTRUCTIONS

---

- **Maximum Weight Capacity:** Do not exceed the maximum weight capacity of 120 kg (264 lbs). Overloading can lead to injury or damage to the chair.
- **Secure Installation:** Ensure the hanging chair is securely attached to a sturdy ceiling or support structure capable of holding the chair's weight plus the maximum user weight. Consult a professional if unsure about your ceiling's capacity.
- **Regular Inspection:** Before each use, inspect the hanging ropes, loops, and the chair's frame for any signs of wear, damage, or fraying. Do not use the chair if any damage is found.
- **Children's Safety:** Children should only use the hanging chair under direct adult supervision. Ensure they do not play roughly or swing excessively, which could cause instability.
- **Clearance:** Ensure there is adequate clear space around the hanging chair to prevent collisions with walls, furniture, or other objects during use.
- **Indoor Use:** This chair is primarily designed for indoor use. While it can be used outdoors on warm, dry days, prolonged exposure to weather elements (rain, direct sunlight, humidity) can cause material degradation.
- **Avoid Sharp Objects:** Keep sharp objects away from the chair's fabric and ropes to prevent cuts or tears.

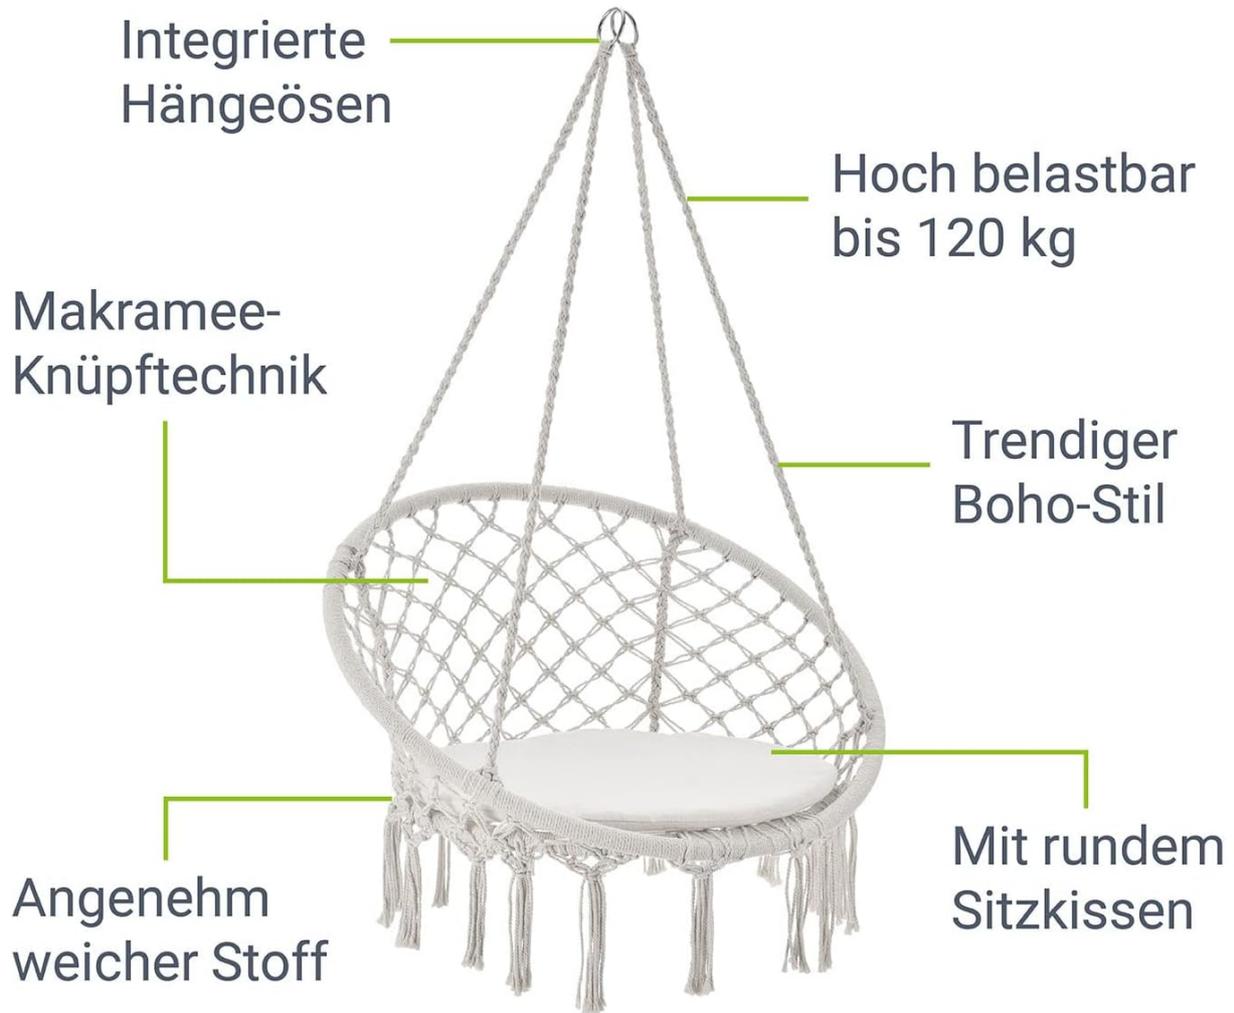

## 3. PACKAGE CONTENTS

---

Please check that all components are present and undamaged before proceeding with assembly.

- 1 x Juskys Cadras Hanging Chair (Macrame basket)
- 1 x Round Seat Cushion (Beige, 60 cm diameter, 3 cm thick)
- Integrated Hanging Loops (pre-attached to the chair)

### 4. SETUP AND ASSEMBLY

The Juskys Cadras Hanging Chair comes largely pre-assembled. The primary step involves securely attaching it to a suitable overhead support.

1. **Identify a Suitable Mounting Point:** Choose a ceiling beam, concrete slab, or other structural element that can safely support at least 120 kg (264 lbs) plus dynamic load from swinging. If in doubt, consult a qualified builder or structural engineer.
2. **Install Ceiling Hook(s):** Depending on your chosen mounting point and desired hanging method, install one or two conventional ceiling hooks (not included) that are rated for the required weight. Ensure the hooks are installed according to the manufacturer's instructions.

3. **Attach Hanging Chair:** Use the two integrated hanging loops on the chair to attach it to your installed ceiling hook(s). Ensure the loops are fully engaged and secure.
4. **Test Stability:** Before full use, gently apply weight to the chair to test the stability of the installation. Gradually increase weight to ensure it is securely mounted.
5. **Place Cushion:** Position the round seat cushion inside the chair for comfort.

## 5. OPERATING INSTRUCTIONS

Once securely installed, your Juskys Cadras Hanging Chair is ready for use.

- **Seating:** Gently sit into the chair, ensuring your weight is centered. The included 60 cm wide, 3 cm thick cushion provides ample comfort.
- **Relaxation:** The chair is designed for gentle swaying and relaxation. Avoid aggressive swinging or sudden movements.
- **Single User:** This chair is designed for one person at a time, with a maximum weight limit of 120 kg.

## 6. MAINTENANCE

---

Proper care will extend the life and appearance of your hanging chair.

- **Cleaning the Chair:** The chair is made from a textile material with cotton content. For light cleaning, gently wipe with a damp cloth. For deeper cleaning, a mild soap solution can be used, followed by rinsing with a clean damp cloth. Allow to air dry completely. Do not use harsh chemicals or abrasive cleaners.
- **Cushion Care:** The seat cushion can be spot cleaned with a mild detergent and water. Allow it to air dry thoroughly before placing it back in the chair. Check for care labels on the cushion for specific washing instructions.
- **Storage:** If using outdoors, bring the chair indoors during inclement weather or for prolonged periods of non-use to protect it from moisture and UV damage. Store in a dry, cool place.
- **Rope and Loop Inspection:** Regularly check the hanging ropes and loops for any signs of wear, fraying, or weakening. Replace if necessary.

## 7. TROUBLESHOOTING

If you encounter any issues with your Juskys Cadras Hanging Chair, please refer to the following common solutions:

- **Chair feels unstable:**
  - Ensure the ceiling hook(s) are securely fastened to a structural support.
  - Verify that the hanging loops are correctly attached to the hook(s).
  - Check for any signs of damage or wear on the ropes or chair frame.
- **Squeaking noises during use:**
  - Inspect the connection points between the chair and the ceiling hook(s). Lubrication might be needed on metal-to-metal contact points if applicable to your hook system.
- **Cushion slips:**
  - Adjust the cushion to ensure it is properly seated within the chair's basket.

If the problem persists or you experience an issue not listed here, please contact Juskys customer support.
