ECR4Kids SoftZone Triple Tunnel Maze Toddler Playset User Manual

Brand: ECR4Kids

Model: ELR-12656F-CT

1. INTRODUCTION

The ECR4Kids SoftZone Triple Tunnel Maze is a multi-piece foam playset designed to provide a safe and engaging environment for toddlers to play and explore. This 9-piece set includes three tunnels, one platform, and five pads, offering numerous opportunities for climbing, crawling, and social interaction. It is suitable for everyday use in daycares, preschools, and homes, promoting early muscle movement, physical coordination, balance, and overall body control. The lightweight blocks are easy to arrange and store, making it a versatile addition to any play space.

2. SAFETY INFORMATION

- **Adult Supervision:** Active, engaged, and direct adult supervision is required at all times when children are using the playset.
- **Clear Play Area:** Ensure the area around the climber is clear of obstacles to create a safe play space. The recommended clear space is dependent on the child's height, generally at least 32 inches around the structure.
- **Indoor Use Only:** This playset is designed for indoor use.
- **Certified Safe:** The product is GREENGUARD [GOLD] Certified for low VOCs, CPSIA compliant, and adheres to CAL TB 117 requirements, ensuring it meets high safety standards.
- **Age Recommendation:** Suitable for children aged 9 months to 3 years.

Play Safely

Create a safe play space by keeping the area around the climber clear; space is dependent on your child's height.

Grown up supervision required

3. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all 9 pieces of the SoftZone Triple Tunnel Maze from the packaging.
2. **Allow to Breathe:** If any pieces have fold marks from packaging, simply unpack them and allow them to breathe. Most creases will smooth out naturally over time. For stubborn wrinkles, exposure to a little sunshine can help.
3. **Arrange Pieces:** Position the three tunnel blocks, one platform, and five pads in your desired configuration. The versatile design allows for independent use of shapes or assembly into a 360° climber or obstacle course.
4. **Secure with Fasteners:** Connect the pieces using the included stay-put fasteners. These detachable fastener strips help keep the components securely together during play. Placement of fasteners may vary by piece.
5. **Ensure Stability:** Verify that all pieces are firmly connected and stable. The non-slip base on each component provides added stability.

4. OPERATING INSTRUCTIONS

The SoftZone Triple Tunnel Maze encourages active play and supports developmental milestones. Children can engage in various activities:

- **Climbing and Crawling:** Toddlers can step up onto the platform, crawl over the tunnels, and navigate through the soft-sided tunnels. This helps develop gross motor skills, agility, and balance.
- **Exploration:** The multi-piece design allows children to explore different configurations, fostering curiosity and problem-solving skills.
- **Social Interaction:** Multiple children can play simultaneously, encouraging collaborative play and socialization.
- **Obstacle Course:** Arrange the shapes to create a fun obstacle course, promoting physical activity and imaginative play.

5. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your ECR4Kids SoftZone Triple Tunnel Maze, follow these simple cleaning and care tips:

1. **Regular Cleaning:** For everyday messes, simply wipe the surface of the foam pieces with a soft cloth.
2. **Mild Soap Solution:** For more thorough cleaning or spills, use a mild soap and water solution. Spray or apply the solution onto a soft cloth, then gently wipe down the vegan leather surface.
3. **Drying:** After cleaning with a solution, dry the pieces immediately with a clean, dry towel to prevent moisture buildup.
4. **Disinfection:** The water-resistant polyurethane vegan leather is easy to clean and disinfect, making it ideal for environments with multiple children.
5. **Crease Removal:** If fold marks appear from storage or packaging, allow the pieces to air out. Most creases will naturally smooth out. For stubborn creases, a short period in natural sunlight can help them disappear.

Video: This video provides essential cleaning and care tips for ECR4Kids Soft Foam products, demonstrating how to maintain their condition and hygiene.

6. TROUBLESHOOTING

While the ECR4Kids SoftZone Triple Tunnel Maze is designed for durability and ease of use, here are some common considerations:

- **Loose Connections:** If pieces become separated during play, re-engage the stay-put fasteners firmly. Ensure the

pieces are aligned correctly before pressing them together.

- **Persistent Creases:** If creases from packaging do not smooth out after a few days, try placing the affected piece in a warm, sunny spot for a few hours. Gentle manipulation can also help.
- **Surface Stains:** For tough stains, a slightly stronger, but still mild, cleaning solution may be used. Always test on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners, as these can damage the vegan leather.
- **Loss of Stability:** Ensure the playset is placed on a flat, even surface. Check that all non-slip bases are making full contact with the floor.

7. SPECIFICATIONS

Product Dimensions (Assembled)	66 L x 66 W x 18 H inches
Item Weight	23.6 pounds
Model Number	ELR-12656F-CT
Recommended Age	9 months - 3 years
Material	Dense foam core, water-resistant polyurethane vegan leather cover, non-slip base
Certifications	GREENGUARD [GOLD] Certified, CPSIA Compliant, CAL TB 117 Compliant
Number of Pieces	9 (three tunnels, one platform, five pads)
