## Mr. Coffee 2129512

# Mr. Coffee® 5-Cup Mini Brew Switch Coffee Maker Instruction Manual

Model: 2129512

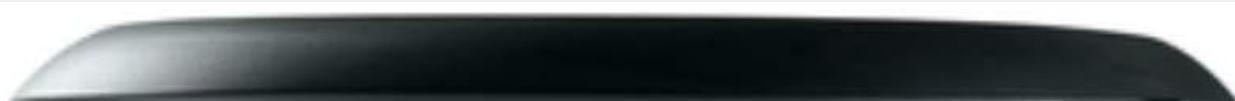

## IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before using this product.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not place cord, plug, or coffee maker in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been dropped or damaged in any manner. Return appliance to an authorized service facility for examination, repair or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off," then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Scalding may occur if the lid is removed during the brewing cycle.
- For household use only.

## PRODUCT OVERVIEW

The Mr. Coffee® 5-Cup Mini Brew Switch Coffee Maker is designed for simple and efficient coffee brewing, ideal for small spaces and personal use. It features a compact design, an ergonomic carafe with ounce markings, and a Grab-a-Cup Auto Pause function.

Image: Side view of the Mr. Coffee 5-Cup Mini Brew Switch Coffee Maker with its dimensions labeled. The height is 10.7 inches, depth is 7.2 inches, and width is 9.8 inches, highlighting its compact size.

## SETUP AND FIRST USE

- Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
- Clean:** Before first use, wash the carafe, carafe lid, and removable filter basket in warm, soapy water. Rinse thoroughly and dry.
- Initial Clean Cycle:**
  - Fill the water reservoir with fresh, cold water up to the 5-cup mark.
  - Place an empty filter basket into the brew basket holder. Do not add coffee grounds.
  - Place the empty carafe with its lid on the warming plate.
  - Plug the coffee maker into a standard electrical outlet.
  - Press the ON/OFF switch to start a brewing cycle. Allow the cycle to complete.
  - Discard the water from the carafe.

This process cleans the internal components and prepares the coffee maker for brewing.

## OPERATING INSTRUCTIONS

### Brewing Coffee

- Fill Water Reservoir:** Open the top lid and fill the water reservoir with fresh, cold water using the carafe. Refer to the ounce markings on the carafe for accurate measurement. Do not exceed the 5-cup (25 oz) maximum fill line.
- Insert Filter:** Place a 4-6 cup basket-style paper filter (not included) into the Lift & Clean Filter Basket. Alternatively, if a reusable filter is provided, place it in the basket.
- Add Coffee Grounds:** Add the desired amount of ground coffee into the filter. A general guideline is one level tablespoon of ground coffee per cup (5 oz) of water, but adjust to your personal taste.
- Position Carafe:** Place the carafe with its lid securely on the warming plate. Ensure the carafe is properly seated to activate the Grab-a-Cup Auto Pause feature.
- Start Brewing:** Plug the coffee maker into a standard electrical outlet. Press the ON/OFF switch. The indicator light will illuminate, signifying that the brewing cycle has begun.
- Grab-a-Cup Auto Pause:** If you wish to pour a cup before the brewing cycle is complete, you can temporarily remove the carafe. The brewing will pause. Return the carafe to the warming plate within 30 seconds to resume brewing and prevent overflow.
- Completion:** Once the brewing cycle is complete, the coffee maker will automatically switch to a "keep warm" mode. The ON/OFF switch light will remain illuminated until manually turned off.
- Serve:** Carefully remove the carafe from the warming plate and pour your coffee.

Image: A hand pressing the illuminated ON/OFF switch on the front base of the Mr. Coffee maker, indicating the ease of operation.

## CARE AND MAINTENANCE

---

Regular cleaning and maintenance will ensure optimal performance and longevity of your Mr. Coffee® 5-Cup Mini Brew Switch Coffee Maker.

### Daily Cleaning

- Always unplug the coffee maker and allow it to cool completely before cleaning.
- Remove the brew basket, filter, carafe, and carafe lid.
- Wash these removable parts in a solution of hot water and mild liquid soap. Rinse thoroughly. The Lift & Clean Filter Basket is dishwasher safe for easy cleanup.
- Wipe the exterior surfaces of the coffee maker with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
- Do not immerse the coffee maker base, cord, or plug in water or any other liquid.

### Decalcification (Monthly or as needed)

Mineral deposits (calcium) from water can build up in your coffee maker and affect its performance. Decalcify your coffee maker regularly, especially if you have hard water.

1. Pour one cup of plain white vinegar into the water reservoir.
2. Add two cups of cold water to the reservoir.
3. Place an empty filter basket (without a paper filter or coffee) into the brew basket holder.
4. Place the empty carafe with its lid on the warming plate.
5. Plug in the coffee maker and press the ON/OFF switch to start a brewing cycle.
6. Allow half of the vinegar-water solution to brew through, then turn off the coffee maker and let it soak for 20 minutes.
7. Turn the coffee maker back on and allow the remaining solution to brew through.
8. Discard the vinegar-water solution from the carafe.
9. Run two full cycles of fresh, cold water through the coffee maker to rinse thoroughly.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Coffee does not brew.	Coffee maker not plugged in. ON/OFF switch not pressed. Water reservoir empty. Carafe not properly seated.	Ensure power cord is securely plugged into a working outlet. Press the ON/OFF switch. Fill water reservoir with fresh, cold water. Ensure carafe is fully pushed onto the warming plate.

Problem	Possible Cause	Solution
Coffee tastes weak or too strong.	Incorrect coffee-to-water ratio. Coffee grounds too coarse/fine. Coffee maker needs decalcifying.	Adjust the amount of coffee grounds to your preference. Use medium grind coffee. Perform a decalcification cycle.
Water overflows from brew basket.	Too much water in reservoir. Filter basket clogged. Carafe removed for too long during brewing.	Do not exceed the maximum fill line. Clean the filter basket. Return carafe to warming plate within 30 seconds during Auto Pause.

## SPECIFICATIONS

---

- Model Number:** 2129512
- Capacity:** 5-Cup (25 oz)
- Color:** Black
- Dimensions (D x W x H):** 10.7"D x 9.8"W x 7.2"H
