1. Introduction

The Gardena Wall-Mounted Hose Box RollUp L with ecoPulse nozzle provides an efficient solution for garden and terrace irrigation. This system features an automatic RollUp function, eliminating the need to manually wind the hose. The hose box is designed for wall-mounting, allowing for convenient access without bending. Its RollControl mechanism ensures safe and steady hose retraction. The wall bracket offers over 180° pivot capability, enhancing flexibility to reach various areas of your garden. Additionally, it includes a practical holder for storing Gardena nozzles and spray guns. The hose box is built to be UV- and frost-resistant, ensuring durability for year-round outdoor use, and incorporates an anti-theft device for added security.

The package includes a high-quality 30 m Gardena hose (13 mm diameter, 1/2"), an ecoPulse nozzle with two spray options, a wall bracket, and all necessary original Gardena connection and assembly parts, enabling immediate setup and use.

2. Setup

- Mounting the Wall Bracket:** Select a suitable location on a sturdy wall. Use the provided mounting hardware to securely attach the wall bracket. Ensure the bracket is level and at a convenient height for operation.
- Attaching the Hose Box:** Once the wall bracket is installed, slide the hose box onto the bracket. The design allows for easy attachment and removal if needed.
- Connecting to Water Supply:** Connect the short connecting hose from the hose box to your outdoor water tap using the appropriate Gardena connectors.
- Attaching the Nozzle:** Connect the ecoPulse nozzle to the end of the main hose. Ensure a secure connection to prevent leaks.

**UV and frost protection for 365 days
of use a year**

The Gardena Wall-Mounted Hose Box RollUp L is designed for outdoor use, offering UV and frost protection for year-round durability.

The hose box comes complete with a high-quality hose, an ecoPulse nozzle, and all necessary connection and assembly parts for immediate use.

3. Operation

1. **Extending the Hose:** Gently pull the hose out to the desired length. The hose will automatically lock at short intervals, allowing you to stop at any point.
2. **Swivel Function:** The wall bracket allows the hose box to pivot more than 180°, providing flexibility to water all areas of your garden without repositioning the box.
3. **Retracting the Hose:** To retract the hose, give it a short, firm tug. The RollControl mechanism will engage, and the hose will automatically and safely rewind into the box at a steady speed. The integrated hose guide ensures the hose is wound neatly, layer by layer, preventing kinks and twists.
4. **Nozzle Storage:** Utilize the practical holder on the wall bracket to store your ecoPulse nozzle or other Gardena spray guns when not in use.

An internal view of the hose box reveals the integrated hose guide and winding mechanism, ensuring smooth and tangle-free retraction.

4. Maintenance

- **Frost Protection:** The Gardena Wall-Mounted Hose Box RollUp L features an innovative frost protection system, allowing it to remain outdoors year-round without risk of damage from freezing temperatures.
- **UV Resistance:** The materials used are UV-resistant, protecting the hose box from sun damage and ensuring long-term durability.
- **Cleaning:** Periodically wipe down the exterior of the hose box with a damp cloth to remove dirt and debris.

5. Troubleshooting

No specific troubleshooting information is provided in the product description. For any operational issues, please refer to the official Gardena support channels or contact customer service.

6. Specifications

Brand	Gardena
Model Number	18627-38

Material	Polyethylene (PE)
Color	White
Style	Wall-Mounted Hose Box
Item Weight	13700 Grams (30.2 pounds)
Installation Type	Wall Mount
Operation Mode	Automatic
Capacity	30 Meters
Item Diameter	13 Millimeters
Item Dimensions (L x W x H)	25.98 x 10.28 x 20.08 inches

12.3 kg / 27.1 lbs
