2. SAFETY INFORMATION

WARNING: Adult supervision is required at all times during operation.

- **Recommended Age:** Suitable for children aged 36 months to 5 years.
- **Maximum Weight Capacity:** 66 pounds.
- Do not operate on rugged roads or slopes exceeding 40° to prevent accidents.
- Ensure all assembly steps are completed correctly and securely before first use.
- Always wear appropriate safety gear, including a helmet.
- Keep hands and feet away from moving parts.

3. WHAT'S IN THE BOX

Upon opening the package, please verify that all components are present:

- Motorcycle body
- Charger
- Assembly instructions
- Small parts (screws, etc.)

4. SETUP AND ASSEMBLY

Assembly is quick and easy, typically taking about 60 minutes. The only tool required is a screwdriver.

1. **Connect Battery Wires:** Locate the battery compartment and connect the wires as instructed.
2. **Install Training Wheels:** Securely attach the training wheels to the rear of the motorcycle using the provided screws.
3. **Attach Handlebars:** Mount the handlebars to the steering column and fasten them with screws. Ensure all wires are properly connected.
4. **Install Front Fairing/Headlight:** Connect the headlight wires and attach the front fairing to the motorcycle body.
5. **Install Mirrors and Other Accessories:** Attach any remaining accessories such as mirrors.
