PRODUCT OVERVIEW

Key Features

- **Silent Operation:** Operates at a low noise level (20 dB), ensuring a quiet environment.
- **360-Degree Air Intake:** Efficient air purification with comprehensive air circulation.
- **Compact and Portable:** Small size and lightweight design for easy placement and transport.
- **HEPA and Activated Carbon Filtration:** Captures 99.7% of airborne particles including dust, pollen, smoke, odors, mold, and pet dander.
- **Negative Ion Purification:** Restores fresh air quality.
- **USB Powered:** Convenient power supply via USB port, compatible with various devices.
- **One-Touch Operation:** Simple and intuitive control.

Image: Diagram illustrating key features such as negative ion purification, silent operation, quick purification, deodorization, triple purification, and small size.

SETUP

1. **Unpack the Device:** Carefully remove the air purifier from its packaging.
2. **Place on a Stable Surface:** Position the air purifier on a flat, stable surface in your desired location (e.g., desk, car console).
3. **Connect Power:** Connect the USB cable to the air purifier's USB port and plug the other end into a compatible 5V USB power source (e.g., USB adapter, power bank, car USB port, computer).

**Fashionable, simple and not occupying space
suitable for many places**

OPERATING INSTRUCTIONS

1. **Power On:** Once connected to power, press the power button located on the top panel of the device. The indicator light will illuminate, indicating the purifier is active.
2. **Air Purification:** The device will immediately begin drawing in air from its 360-degree intake vents, filtering it through the HEPA and activated carbon filter, and releasing purified air.
3. **Power Off:** To turn off the device, press the power button again. The indicator light will turn off.

Usage Tips

- For optimal performance, ensure the air intake and outlet vents are not obstructed.
- The device is suitable for small areas such as offices, bedrooms, or car interiors.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your air purifier.

Filter Replacement

The HEPA and activated carbon filter should be replaced periodically, depending on usage and air quality. A general guideline is every 3-6 months.

1. **Power Off and Unplug:** Ensure the air purifier is turned off and disconnected from the power source.
2. **Access Filter Compartment:** Gently twist or open the bottom cover of the air purifier to access the filter compartment.
3. **Remove Old Filter:** Carefully remove the used filter.
4. **Insert New Filter:** Place a new Zerodis compatible HEPA and activated carbon filter into the compartment, ensuring it is seated correctly.
5. **Close Compartment:** Securely close the bottom cover.

Cleaning the Exterior

- Wipe the exterior of the device with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Ensure no liquid enters the device.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	No power supply or loose connection.	Check USB cable connection. Ensure power source is active (5V).
Weak airflow or poor purification.	Clogged filter or obstructed vents.	Replace the filter. Ensure air intake and outlet vents are clear.
Unusual noise during operation.	Obstruction inside the device or improper filter installation.	Turn off and unplug the device. Check for any foreign objects. Reinstall the filter correctly.

If the problem persists after attempting these solutions, please contact customer support.

SPECIFICATIONS

Brand	Zerodis
Model Number	Zerodis9gyuc0ki54
Color	Default (White with Black top)
Product Dimensions	13 x 6 x 6 cm (5.1 x 2.4 x 2.4 inches)

Product Weight	194 g (0.43 lbs)
Power	1.3 Watts
Material	ABS
Noise Level	20 Decibels
Power Source	USB (5V)
Control Method	Touch
Filter Type	HEPA, Activated Carbon
Recommended Area	Up to 5 square meters
