OPERATING (HOW TO PLAY)

Basic Gameplay:

Players take turns rolling the die and moving their token around the gameboard. The objective is to buy properties and collect rent

from other players who land on them. The game is designed to be fast-paced and engaging for younger players, focusing on simple money counting and property acquisition.

- **Moving Your Token:** Roll the die and move your token the corresponding number of spaces clockwise.
- **Buying Properties:** When you land on an unowned property, you can buy it for the price indicated on the space. Place a "Sold" sign on the property to show you own it.
- **Collecting Rent:** If another player lands on a property you own, they must pay you rent. The rent amount is indicated on the property space.
- **Chance Cards:** Landing on a "Chance" space requires you to draw a Chance card and follow its instructions. These cards can provide money, move your token, or have other effects.
- **Passing GO:** When you pass or land on the "GO" space, you collect a salary from the bank.
- **Winning the Game:** The game ends when one player runs out of money and cannot pay rent or buy a property. The player with the most money at that point wins the game.
