## THE G-LAB COMBO-IRIDIUM/FR

# THE G-LAB IRIDIUM Combo Gaming Keyboard and Mouse User Manual

Model: COMBO-IRIDIUM/FR

## INTRODUCTION

Thank you for choosing the THE G-LAB IRIDIUM Combo Gaming Keyboard and Mouse. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new gaming peripherals. Please read this manual carefully before use to ensure optimal performance and longevity of your product.

## PACKAGE CONTENTS

- THE G-LAB IRIDIUM Gaming Keyboard
- THE G-LAB IRIDIUM Gaming Mouse
- User Manual (this document)

## SETUP INSTRUCTIONS

The THE G-LAB IRIDIUM Combo is designed for plug-and-play functionality. No additional drivers are required for basic operation.

1. **Connect the Keyboard:** Locate an available USB port on your computer (PC, PS4, PS5, Xbox One, Xbox Series X). Insert the USB connector of the keyboard into the USB port.
2. **Connect the Mouse:** Locate another available USB port on your computer. Insert the USB connector of the mouse into the USB port.
3. **System Recognition:** Your operating system will automatically detect and install the necessary generic drivers. This process may take a few moments.
4. **Ready for Use:** Once the installation is complete, your keyboard and mouse are ready for use.

## OPERATING INSTRUCTIONS

## Keyboard Features

- **Reactive and Precise Typing:** The keyboard is engineered for responsive, accurate, and quiet keystrokes.
- **19-Key Anti-Ghosting:** Prevents conflicts and unintended actions during rapid key presses, ensuring every command is registered.

Image: Close-up of the keyboard highlighting the reactive typing and 19-key anti-ghosting feature, with a hand typing.

- **Multimedia Shortcuts:** 12 dedicated multimedia shortcut keys provide quick access to essential PC functions. These are typically accessed by pressing the **FN** key in combination with the corresponding **F1-F12** keys.
- **Windows Key Lock (Gaming Mode):** To prevent accidental returns to the desktop during gameplay, you can lock the Windows key. Press **FN + Windows Key** to activate/deactivate this feature.
- **Backlight Control:** The keyboard features intense backlighting.
  - Press **FN + Light Key** (usually the Scroll Lock key or a dedicated light key) to activate the "Breathing Effect" for the backlight.
  - Further presses may cycle through different lighting modes or adjust brightness, depending on the specific model.

# RÉTROÉCLAIRAGE INTENSE

Image: Keyboard layout showing the 12 multimedia shortcuts (F1-F12) and instructions for Windows key lock (FN + Windows Key) and backlight breathing effect (FN + Light Key).

## Mouse Features

- **High Precision Optical Sensor:** The mouse is equipped with an ultra-precise optical sensor for exceptional responsiveness in all game types.
- **Adjustable DPI:** Adjust the sensitivity of the mouse up to 3200 DPI across 4 levels (typically 800, 1200, 1600, 3200 DPI). Use the dedicated **DPI button**, usually located behind the scroll wheel, to cycle through these settings. Each DPI level may correspond to a different LED backlight color for easy identification.

# PRÉCISION MAXIMALE

Image: Close-up of the gaming mouse, highlighting the DPI button and its adjustable sensitivity levels (800-3200 DPI).

- **125 Hz Refresh Rate:** Ensures flawless responsiveness, accurately translating your fastest movements.
- **Ergonomic Design:** The mouse is designed for a comfortable grip, suitable for various hand sizes, and features a soft-touch coating. It is lightweight, weighing only 105g.
- **Braided Cable:** The reinforced braided cable enhances durability and resistance to wear.

# DESIGN ERGONOMIQUE

Image: Detailed view of the ergonomic mouse, pointing out features like the reinforced braided cable, side grip, 105g weight, and soft-touch coating.

- **7-Color Backlight:** The mouse features a dynamic 7-color backlight with a "Breathing Effect". This lighting often changes with DPI settings or cycles automatically.

# ÉCLAIRAGE 7 COULEURS

EFFET  
RESPIRATION

Image: The gaming mouse illuminated with a 7-color backlight, demonstrating the breathing effect.

## MAINTENANCE

To ensure the longevity and optimal performance of your THE G-LAB IRIDIUM Combo, follow these simple maintenance guidelines:

- **Cleaning:**
  - Disconnect both the keyboard and mouse from your computer before cleaning.
  - Use a soft, slightly damp cloth to wipe down the surfaces. Avoid using harsh chemicals, abrasive cleaners, or solvents.
  - For the keyboard, use compressed air to remove dust and debris from between the keys.
  - For the mouse, ensure the optical sensor on the bottom is clean and free of obstructions.
- **Storage:** Store the peripherals in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Cable Care:** Avoid sharp bends or excessive pulling on the braided cables to prevent damage.

## TROUBLESHOOTING

If you encounter any issues with your THE G-LAB IRIDIUM Combo, please refer to the following common troubleshooting steps:

- **Keyboard/Mouse Not Responding:**

- Ensure both USB connectors are securely plugged into your computer's USB ports.
- Try plugging the devices into different USB ports.
- Test the devices on another computer to determine if the issue is with the peripherals or your system.
- Restart your computer.

- **Backlight Not Working (Keyboard/Mouse):**

- For the keyboard, ensure the backlight is not turned off or set to the lowest brightness. Try pressing **FN + Light Key** to cycle through modes.
- For the mouse, the backlight is usually tied to DPI settings or cycles automatically. Ensure the mouse is powered.

- **DPI Adjustment Not Working (Mouse):**

- Ensure the mouse is properly connected.
- Press the **DPI button** firmly to cycle through the sensitivity levels.

- **Keys Not Registering (Keyboard):**

- Check for any physical obstructions under the keycaps.
- Ensure anti-ghosting is functioning correctly for multiple key presses.

If the problem persists after trying these steps, please contact customer support.
