## vidaXL 323820

# vidaXL Floating Wall Display Shelf

INSTRUCTION MANUAL

Brand: vidaXL

## INTRODUCTION

This manual provides essential information for the safe and effective installation, operation, and maintenance of your vidaXL Floating Wall Display Shelf. Designed with a sleek white finish, this shelf seamlessly integrates into modern and minimalist interiors, offering a stylish solution for displaying books, trophies, and decorative items. Its invisible mounting system ensures a clean aesthetic once installed.

## SAFETY INFORMATION

### **⚠ WARNING: California Proposition 65**

Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Always ensure the shelf is securely mounted to a suitable wall surface capable of supporting its weight and the weight of items placed upon it. Do not overload the shelf beyond its specified weight limit.

## PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact vidaXL customer support.

- 1 x Floating Shelf Board (White, Honeycomb MDF)
- 1 x Metal Mounting Bracket
- Mounting Hardware (screws, wall anchors - *Note: Hardware may not always be included; please check your specific packaging.*)

Image: The complete floating shelf, showcasing its sleek white design.

## SETUP AND INSTALLATION

This floating shelf features an invisible mounting system for a clean look. Follow these steps carefully for proper installation.

### 1. Prepare the Wall:

Choose a suitable location on your wall. Use a stud finder to locate wall studs for optimal support, especially for heavier items. If mounting to drywall without studs, ensure you use appropriate wall anchors (not always included) designed for your wall type and the expected load.

### 2. Mark Mounting Points:

Hold the metal mounting bracket against the wall at your desired height. Use a level to ensure it is perfectly horizontal. Mark the positions for drilling holes through the bracket's screw holes. Ensure the marks are accurate.

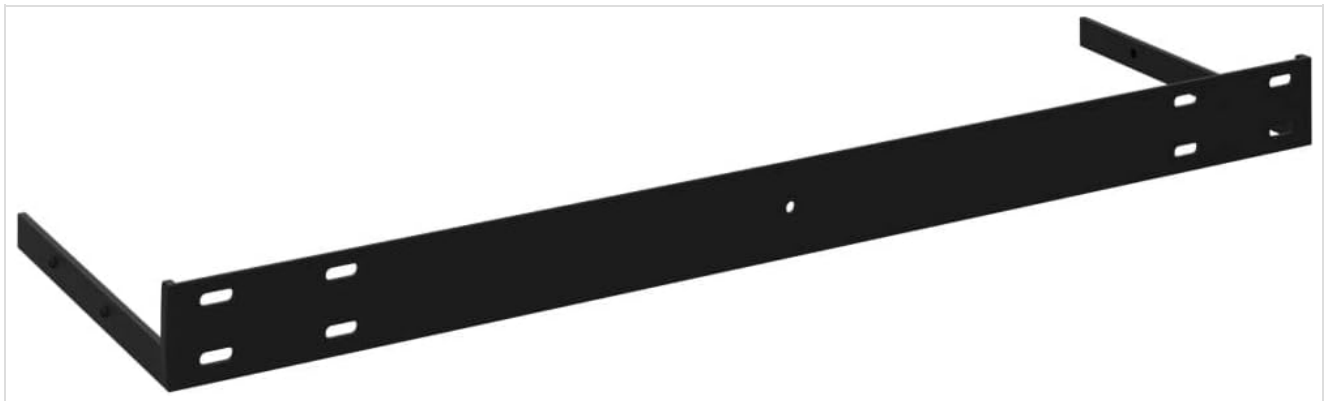

Image: The metal mounting bracket, which attaches to the wall and supports the shelf.

### 3. Drill Holes:

Using a drill, create pilot holes at the marked locations. The drill bit size should match the recommended size for your screws and wall anchors (if used). Ensure holes are deep enough for the anchors to sit flush with the wall surface.

### 4. Attach the Mounting Bracket:

Insert wall anchors into the drilled holes (if applicable). Align the metal mounting bracket with the holes and secure it firmly to the wall using the provided screws. Ensure the bracket is tightly fastened and stable.

### 5. Mount the Shelf Board:

Carefully slide the floating shelf board onto the protruding rods of the mounted bracket. This step may require firm pressure. *User feedback indicates that you may need to apply significant force to fully seat the shelf onto the bracket. Exercise caution during this step to avoid injury from sharp edges on the metal bracket.* Ensure the shelf is fully pushed back against the wall and feels secure.

#### 6. Test Stability:

Gently apply downward pressure to the shelf to confirm it is securely attached and stable before placing any items on it.

### OPERATING INSTRUCTIONS

---

Once installed, your vidaXL Floating Wall Display Shelf is ready for use. Place items evenly across the shelf surface. Avoid concentrating heavy items in one spot to prevent undue stress on the mounting system.

The shelf is ideal for displaying:

- Books and small decorative objects
- Picture frames and small plants
- Trophies and collectibles

Refer to the [Specifications](#) section for the maximum weight capacity.

### MAINTENANCE

---

To keep your floating shelf in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surface with a dry, soft cloth. Avoid abrasive cleaners or harsh chemicals, as they may damage the finish.
- **Inspection:** Periodically check the mounting screws and the shelf's connection to the bracket to ensure they remain tight and secure.
- **Avoid Moisture:** Do not expose the shelf to excessive moisture or humidity, as this can damage the MDF material.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Shelf feels flimsy or wobbly after installation.	Mounting bracket not securely fastened. Shelf not fully seated onto the bracket rods. Inadequate wall anchors for wall type/load.	Ensure all screws are tightened. Apply more firm pressure to push the shelf completely onto the bracket. Consider using stronger wall anchors or mounting into wall studs.
Difficulty sliding shelf onto the bracket.	Tight fit by design. Misalignment of shelf and bracket rods.	Apply firm, even pressure. Ensure the shelf is perfectly aligned with the bracket rods before pushing. <i>Caution: Be aware of potentially sharp edges on the metal bracket during installation.</i>
Missing mounting hardware.	Packaging error.	Contact vidaXL customer support for replacement parts. Alternatively, purchase appropriate screws and wall anchors from a hardware store.
Surface or edges appear damaged/imperfect.	Manufacturing defect or shipping damage.	Contact vidaXL customer support for assistance or replacement.

## SPECIFICATIONS

<b>Model Name</b>	Wall Shelf White Honeycomb MDF, Metal Standard Wall mounting vidaXL
<b>Model Number</b>	323820
<b>Dimensions (L x D x H)</b>	47.2" x 9.3" x 1.5" (120 cm x 23.5 cm x 3.8 cm)
<b>Color</b>	White
<b>Material</b>	Honeycomb MDF, Metal
<b>Weight Limit</b>	10 kg (22 lbs)
<b>Assembly Required</b>	Yes
<b>Product Weight</b>	5.84 pounds (2.65 kg)
