Each brick is secured using a pin and the provided pin driver. This method creates a strong connection between individual blocks.

- **Cleaning:** To clean your assembled model, gently wipe with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Disassembly:** If disassembling, carefully remove the pins using the pin driver. Avoid forcing pieces apart to prevent damage.

6. TROUBLESHOOTING

- **Missing Pieces:** If you find any missing pieces, please refer to the contact information in the Support section.
- **Difficulty Assembling:** Ensure you are following the instruction guide precisely. The pins must be inserted and

turned 90 degrees to secure the bricks. If a piece does not fit, do not force it; re-check the previous steps.

- **Loose Connections:** Verify that all pins are fully inserted and turned 90 degrees. A properly secured pin will create a firm connection.
