## STARLYF VHGLCIND0103

# STARLYF Steam Mop VHGLCIND0103

Instruction Manual

## INTRODUCTION

Thank you for choosing the STARLYF Steam Mop. This powerful steam cleaner is designed to provide a deep and hygienic clean for various surfaces in your home. Utilizing superheated steam, it effectively eliminates bacteria, dirt, and odors without the need for harsh detergents. Please read this manual carefully before operating the appliance to ensure safe and efficient use.

## IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Read all instructions before use.
- Do not direct steam at people, animals, or electrical outlets. Steam is very hot and can cause burns.
- Ensure the appliance is unplugged before filling or emptying the water tank, or when not in use.
- Do not immerse the appliance in water or other liquids.
- Use only tap water or distilled water in the water tank. Do not add cleaning solutions, perfumes, or other chemicals, as this can damage the appliance or create hazardous fumes.
- Do not use on unsealed hardwood floors, as steam can cause damage. Test on an inconspicuous area first.
- Keep the appliance out of reach of children and pets.
- Do not operate the appliance with a damaged cord or plug.
- Always ensure the cleaning pad is properly attached before use.

## SETUP AND ASSEMBLY

Before first use, ensure all components are present and undamaged.

1. **Assemble the Mop Handle:** Insert the handle into the main body of the steam mop until it clicks securely into place.
2. **Attach the Cleaning Pad:** Place the microfiber cleaning pad onto the mop head, ensuring it is centered and securely attached. The pad is designed to absorb dirt and moisture effectively.
3. **Fill the Water Tank:** Open the water tank cap. Using a measuring cup or funnel, carefully fill the water tank with clean tap water or distilled water. Do not overfill. Close the cap securely.
4. **Attach Accessories (if needed):** For specialized cleaning tasks, attach the appropriate accessory (e.g., jet nozzle, brush) to the handheld steamer unit.

## OPERATING INSTRUCTIONS

1. **Power On:** Plug the power cord into a grounded electrical outlet. The indicator light will illuminate, signaling that the mop is heating up.
  2. **Steam Generation:** Allow approximately 30 seconds for the water to heat and steam to generate. The mop is ready when steam begins to emit.
  3. **Cleaning Hard Floors:** For sealed hard floors (wood, laminate, tile, marble, linoleum), gently glide the mop head across the surface. The rotating head allows for easy maneuverability around furniture.
  4. **Cleaning Carpets:** To refresh and sanitize carpets, attach the carpet glider (if included) over the mop head. Move the mop slowly over the carpeted area.
  5. **Handheld Steamer Use:** To convert to a handheld steamer for bathroom fixtures, sinks, or tight spaces, detach the main mop body from the handle. Attach the desired nozzle or brush. Direct the concentrated steam to remove grease and dirt.
  6. **Power Off:** When finished, unplug the appliance from the electrical outlet.
- 

## CARE AND MAINTENANCE

- **Cleaning Pads:** After each use, remove the microfiber cleaning pad and wash it. Pads can typically be machine washed with mild detergent and air-dried. Do not use bleach or fabric softeners.
- **Emptying Water Tank:** Always empty any remaining water from the tank after use and allow it

to air dry before storing.

- **Exterior Cleaning:** Wipe the exterior of the steam mop with a damp cloth. Do not use abrasive cleaners.
- **Descaling:** Depending on water hardness, mineral deposits may build up. If steam output decreases, descaling may be necessary. Consult the manufacturer's website for specific descaling instructions, typically involving a vinegar solution.
- **Storage:** Store the steam mop in a cool, dry place, out of direct sunlight and away from children. Ensure the cord is neatly wrapped.

---

## TROUBLESHOOTING GUIDE

If you encounter issues with your STARLYF Steam Mop, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No steam or low steam output.	Water tank is empty; appliance not heated sufficiently; mineral buildup.	Refill water tank; allow 30-60 seconds for heating; perform descaling procedure.
Water leaking from mop head.	Cleaning pad not properly attached; overfilling water tank.	Ensure cleaning pad is securely attached; do not overfill water tank.
Mop not turning on.	Not plugged in; power outlet issue; damaged cord/plug.	Check power connection; try a different outlet; inspect cord for damage (do not use if damaged).
Poor cleaning performance.	Cleaning pad is dirty or worn; insufficient steam.	Replace or wash cleaning pad; ensure adequate steam generation.

If the problem persists after attempting these solutions, please contact customer support.
