## MAINTENANCE

- **Cleaning:** Wipe the doll and accessories with a damp cloth as needed. Do not submerge the doll in water for cleaning, as this may affect its crying mechanism.
- **Drying:** After making the doll cry, ensure any remaining water is drained from the doll to prevent mold or mildew. Allow the doll to air dry completely.
- **Storage:** Store the doll and its accessories in a clean, dry place, preferably back inside its tear-shaped house, to keep all parts together and protected.

## TROUBLESHOOTING

- **Doll Not Crying Tears:**
  - Ensure the baby bottle is filled with water and the doll has been fed.
  - Gently but firmly squeeze the doll's tummy to activate the crying mechanism.

- Check for any blockages in the doll's eyes or mouth.
