**Caution: The charging input is 5V/0.1A. Please DO NOT use fast chargers (e.g., mobile phone fast chargers) as high exchange rates can damage the internal chip of the stylus.**

## 7. MAINTENANCE

To ensure the longevity and optimal performance of your Hommie Active Stylus, follow these maintenance guidelines:

- **Cleaning:** Wipe the stylus body with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- **Tip Care:** Avoid applying excessive pressure to the tip. If the tip becomes worn or damaged, it may affect performance.
- **Storage:** Store the stylus in a cool, dry place away from direct sunlight and extreme temperatures. Use the protective cap when not in use.
- **Charging:** Always use the provided USB-C cable and a compatible 5V/0.1A power source for charging.

## 8. TROUBLESHOOTING

If you encounter any issues with your stylus, please refer to the following common problems and solutions:

- **Stylus not responding:**
  - Ensure the stylus is charged. Connect it to the charger for at least 10-15 minutes.
  - Tap the power button to ensure it's turned on. The LED indicator should be lit.
  - Check if your device's screen is clean and free of debris.
  - Verify compatibility with your specific device model.
- **Inaccurate or lagging input:**
  - Ensure the stylus tip is clean and undamaged.
  - Restart your device.
  - Ensure no other active stylus or pen is connected or interfering with your device.
- **Stylus not charging:**
  - Check if the USB-C cable is properly connected to both the stylus and the power source.
  - Try a different USB-C cable or power adapter (ensure it's 5V/0.1A).
  - Ensure the charging port on the stylus is clean.

If the issue persists after trying these steps, please contact Hommie customer support for further assistance.
