3.2 Connections

The dishwasher comes with the necessary connection components:

- Power connector cable
- Drain hose

Connect the water inlet hose to a cold water supply tap. Ensure the connection is secure to prevent leaks. Position the drain hose into a suitable drain or sink, ensuring it is not kinked or blocked. Plug the power cord into a grounded electrical outlet (230 Volts).

3.3 Initial Use

Before the first wash cycle, it is recommended to:

1. Fill the salt dispenser with dishwasher salt. The salt indicator light will turn off once sufficient salt is added.
2. Fill the rinse aid dispenser with rinse aid. The rinse aid indicator light will turn off once sufficient rinse aid is added.
3. Run an empty cycle (e.g., a quick wash) to clean the interior of the appliance.

4. OPERATING INSTRUCTIONS

This section details how to load your dishwasher and select the appropriate wash program.

4.1 Loading the Dishwasher

The Candy CDCP 6S is designed for 6 place settings. For optimal cleaning performance, arrange dishes as follows:

- Scrape off large food particles from dishes before loading.
- Place larger items like plates and bowls in the lower basket. The lower basket features a stopper to prevent accidental falls and foldable grids for accommodating larger items.
- Smaller items, glasses, and cups should be placed in the upper basket.
- Cutlery should be placed in the cutlery basket, ensuring sharp ends face downwards for safety.
- Ensure that items do not block the spray arms.

Image 4.1: Interior view showing optimal loading of dishes in the Candy CDCP 6S.

Image 4.2: User demonstrating loading of the compact dishwasher.

4.2 Program Selection

The dishwasher offers 6 washing programs:

Program	Temperature	Approx. Duration	Description
Intensive	70°C	140 min	For heavily soiled dishes, pots, and pans.
Normal	60°C	120 min	For normally soiled dishes.
Economy (Eco)	50°C	195 min	Energy and water efficient program for normally soiled dishes.
Glass	45°C	75 min	For delicate items like glasses and fine china.
Daily	65°C	90 min	For daily use with mixed loads.
Rapid	40°C	30 min	Quick wash for lightly soiled dishes without drying.

4.3 Special Functions

- **Delayed Start:** You can set the dishwasher to start after 2, 4, or 8 hours.
- **Salt Indicator:** A light on the control panel indicates when the salt dispenser needs refilling.
- **Rinse Aid Indicator:** A light on the control panel indicates when the rinse aid dispenser needs refilling.
- **Anti-overflow System:** This system prevents water leaks by automatically shutting off the water supply if an overflow is detected.

5. MAINTENANCE AND CLEANING

Regular maintenance ensures optimal performance and extends the lifespan of your dishwasher.

5.1 Cleaning the Filters

The filter system prevents larger food particles from entering the pump. Clean the filters regularly to ensure efficient washing. To clean, remove the filter assembly at the bottom of the dishwasher and rinse it under running water. Reassemble and replace securely.

5.2 Cleaning the Spray Arms

Check the spray arm nozzles for blockages (e.g., from food particles). If blocked, remove the spray arms and clean the nozzles with a thin object like a toothpick.

5.3 Exterior and Interior Cleaning

- Wipe the exterior of the dishwasher with a damp cloth. Do not use abrasive cleaners.
- Clean the interior with a damp cloth and a mild detergent if necessary.
- Periodically run a dishwasher cleaner to remove grease and limescale buildup.

5.4 Refilling Salt and Rinse Aid

Monitor the salt and rinse aid indicator lights on the control panel. Refill these dispensers as needed to ensure proper washing and drying results.
