What's in the Box:

- Car Stereo x 1
- Main Harness x 1
- Audio Harness x 1
- Universal Bracket x 2
- Screws
- Instruction Manual x 1

2. SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance of your car stereo. It is recommended to have the unit installed by a

qualified professional.

Installation Overview:

The Corehan CS-JD-AACP-01 unit is designed to be compatible with most aftermarket double din mounting dash kits, including those from Metra and Scosche. This ensures a secure and integrated fit into your vehicle's dashboard.

Detailed installation instructions and video tutorials are available to assist you. Please refer to the separate installation guide or contact Corehan technical support for assistance.

3. OPERATING INSTRUCTIONS

3.1 Apple CarPlay

Connect your iPhone to the stereo via USB to activate Apple CarPlay. This feature provides a safer way to use your iPhone's essential functions while driving, including navigation, calls, messages, and music, all controlled via Siri voice commands.

Image: The car stereo screen displaying the Apple CarPlay interface, with a connected iPhone showing its home screen. This illustrates how CarPlay integrates your iPhone's functions into the car's display.

3.2 Android Auto

Connect your Android phone to the stereo via USB to enable Android Auto. This allows you to display and interact with your Android apps on the stereo screen. Use Google Assistant for navigation, texting, music playback, and calls, keeping your focus on the road.

3.3 MirrorLink

The MirrorLink function allows you to cast your smartphone's screen directly to the stereo display. This enables sharing content like videos, photos, or navigation from your phone to a larger screen for passengers.

The Multimedia Player on Car

Equipped with USB, microSD slot, and AUX port to offer multiple options for music and movie enjoyment in the vehicle.

3.4 Multimedia Playback

The unit is equipped with a USB port, microSD card slot, and an AUX input, providing multiple options for playing music and videos. Simply insert your storage device or connect an external audio source.

The Best Car Assistant

FM/AM radio is integrated to help you access the latest news and traffic information. Besides, it features steering wheel control and reversing camera input, allowing you to control the vehicle more easily.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Corehan car stereo, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **General Cleaning:** Keep the unit's exterior free from dust and debris. Use a soft, dry cloth. Ensure all ports (USB, AUX, microSD) are clear of obstructions.
- **Avoid Extreme Temperatures:** Do not expose the unit to extreme heat or cold for prolonged periods, as this can affect its electronic components.
- **Power Off When Not in Use:** If the vehicle will be stored for an extended period, it is advisable to power off the unit.

5. TROUBLESHOOTING

If you encounter issues with your Corehan car stereo, refer to the following common troubleshooting steps. For more complex problems, contact technical support.

- **No Power:** Check all power connections and fuses. Ensure the vehicle's ignition is on.
- **No Audio:** Verify speaker connections. Check volume levels on both the stereo and connected devices. Ensure the correct audio source is selected.
- **Touchscreen Unresponsive:** Perform a soft reset by pressing the reset button (if available, often a small pinhole) or by turning the vehicle off and on. Ensure the screen is clean and free of debris.
- **CarPlay/Android Auto Not Connecting:** Ensure your phone's operating system is up to date. Use a certified USB cable. Try restarting both your phone and the stereo unit. Verify that CarPlay/Android Auto is enabled in the stereo's settings.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and attempt to re-pair the devices. Ensure devices are within range.
- **Unit Freezes or Glitches:** This can sometimes occur due to software issues or prolonged use. Try restarting the unit. If the problem persists, ensure the unit's firmware is up to date (check Corehan's support website).

For further assistance, please contact Corehan technical customer support.

6. SPECIFICATIONS

Product Dimensions	7 x 2.36 x 3.9 inches (2.36"D x 7"W x 3.9"H)
Item Weight	1.48 pounds
Model Number	CS-JD-AACP-01
Brand	Corehan
Connectivity Technology	Bluetooth
Controller Type	CarPlay, Google Assistant
Special Feature	Touchscreen
Compatible Devices	Smartphone, Speaker
Connector Type	RCA, USB 2.0
