2. SAFETY INFORMATION

- **Warning:** This model kit contains small parts and is not suitable for children under 36 months due to choking hazards.
- Recommended age for assembly is 10 years and older. Adult supervision is advised for younger builders.
- Exercise caution when using hobby knives, glues, and paints (not included). Always work in a well-ventilated area.
- Keep all tools and materials out of reach of small children and pets.
- Dispose of waste materials responsibly according to local regulations.

3. ASSEMBLY INSTRUCTIONS

The assembly of the Revell VW T1 Bus model kit requires patience and attention to detail. Follow the included graphical instructions carefully for best results. It is recommended to read through all steps before beginning construction.

3.1. Preparation

1. **Unpack Components:** Carefully remove all plastic sprues, rubber tires, decal sheet, and instruction booklet from the box.
2. **Inspect Parts:** Check all parts against the parts list in the instruction booklet to ensure no pieces are missing or damaged.
3. **Gather Tools:** You will need a hobby knife or sprue cutters, plastic cement (model glue), fine sandpaper or files, and paints (for an unvarnished kit, painting is essential for a finished look).
4. **Clean Parts:** Wash plastic parts in mild soapy water to remove any mold release agents, then rinse and air dry thoroughly.

4. **Bodywork:** Assemble the multi-part body panels. Ensure a precise fit before applying glue. This kit includes various chrome parts for exterior detailing.
5. **Painting and Decals:** Once the main assembly is complete, paint the model according to your desired scheme. Allow paint to dry completely before applying the included decals. Follow the decal instructions for proper application.
6. **Final Touches:** Attach any remaining small parts, such as mirrors, wipers, and lights. Ensure all components are securely fastened.

4. CARE AND MAINTENANCE

- **Cleaning:** To clean your assembled model, gently dust it with a soft brush or a lint-free cloth. For stubborn dust, a slightly damp cloth can be used, but avoid excessive moisture, especially on decals.
- **Handling:** Always handle the model with care, grasping it by the main body rather than delicate parts like mirrors or antennas.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperature fluctuations to prevent warping or fading of paint and decals. A display case is recommended to protect it from dust and accidental damage.
- **Avoid Chemicals:** Do not use harsh chemical cleaners, solvents, or abrasive materials on the model, as these can damage the plastic, paint, or decals.

5. TROUBLESHOOTING

If you encounter issues during assembly or with the finished model, consider the following common solutions:

- **Parts Not Fitting:** Ensure you are using the correct parts for each step. Sometimes, minor trimming with a hobby knife or sanding may be required for a perfect fit. Refer to the instruction diagrams closely.
- **Decals Not Adhering:** Ensure the surface is clean and smooth. Use a decal setting solution to help decals conform to irregular surfaces and adhere better.
- **Paint Issues:** If paint is not adhering or appears uneven, ensure the surface was properly cleaned and primed (if necessary). Apply paint in thin, even coats, allowing each coat to dry thoroughly.
- **Missing or Damaged Parts:** If you find a part is missing or damaged upon opening the kit, contact Revell customer support.
