Nanit N301US

Nanit Pro Smart Baby Monitor Instruction Manual

Model: N301US

INTRODUCTION

The Nanit Pro Smart Baby Monitor provides crystal-clear 1080p HD video, secure Wi-Fi streaming, and smart features to keep you connected to your baby. This manual provides detailed instructions for setting up, operating, and maintaining your Nanit Pro monitor, ensuring optimal performance and peace of mind.

WHAT'S INCLUDED

- Nanit Pro Smart Baby Monitor with 1080p HD video and 2-way audio
- Companion app for continuous monitoring
- ASTM-certified Floor Stand (Gen 1)
- Free trial of Nanit Insights Sleep Plan

Video: Unboxing and assembly of the Nanit Pro Smart Baby Monitor with Floor Stand components. This video demonstrates the components included in the package and the initial steps to put the stand together.

SETUP

- Assemble the Floor Stand:** Connect the stand segments as instructed in the user guide. Ensure all connections are secure. The power cable is pre-threaded through the stand for a clean setup.
- Attach the Camera:** Securely attach the Nanit Pro camera to the top of the assembled floor stand. The camera head can be rotated and twisted for optimal viewing angles.
- Position the Monitor:** Place the floor stand next to your baby's crib, ensuring the camera has an overhead view of the entire crib area. The stand features a rubber stopper to prevent wall marks if leaned against a wall.
- Connect to Power:** Plug the power adapter into an electrical outlet and connect it to the monitor. The conduit helps manage the cable neatly.
- Download the Nanit App:** Download the Nanit app from your device's app store (iOS or Android).
- Pair the Camera:** Follow the in-app instructions to pair your Nanit Pro camera with your smartphone or tablet. This typically involves connecting via Bluetooth and then to your home Wi-Fi network.

OPERATING INSTRUCTIONS

The Nanit Pro Smart Baby Monitor is operated primarily through the Nanit mobile application. Ensure your device is connected to the internet for full functionality.

- **Live View:** Open the Nanit app to access the crystal-clear 1080p HD live video feed of your baby's crib.
- **Two-Way Audio:** Use the microphone icon in the app to speak to your baby through the monitor's speaker. This allows you to soothe your baby remotely.
- **Night Vision:** The monitor automatically switches to advanced night vision in low-light conditions, providing a clear view without disturbing your baby.
- **Sound and Motion Notifications:** Receive instant alerts on your phone for sounds, motion, or crying detected in the crib. Adjust sensitivity settings within the app.
- **Temperature and Humidity:** Monitor the room's temperature and humidity directly from the app to ensure a comfortable sleep environment.
- **Sleep Tracking and Insights:** Understand sleep patterns and improve routines (Nanit Insights subscription required for full features).
- **Split Screen:** If you have multiple Nanit cameras, utilize the Split Screen feature in the app to view multiple camera feeds simultaneously.
- **Night Light:** Control the integrated night light on the camera directly from the app, adjusting brightness and setting timers.
- **Nature Sounds:** Play various nature sounds (birds, waves, white noise, wind) through the monitor to help soothe your baby to sleep.

Video: A demonstration of the Nanit app's live view, showing a baby in a crib. The video highlights features like two-way audio, night light control, and various sound options available through the app.

FEATURES

- **1080p HD Video:** Provides a clear, high-definition view of your baby, day and night.
- **2-Way Audio:** Allows you to hear your baby and speak to them through the monitor.
- **Live Temp + Humidity Readings:** Keeps you informed about the nursery environment.
- **Split Screen Feature:** Monitor multiple cameras simultaneously for comprehensive coverage.
- **Real-time Notifications:** Receive alerts for cry, cough, sound, and motion.
- **Sleep Tracking and Personalized Insights:** Understand sleep patterns and improve routines (Nanit Insights subscription required for full features).
- **Secure Data:** 256-bit AES encryption and two-factor authentication protect your video feed and data.
- **Mobile Access:** Compatible with iOS and Android devices, allowing monitoring from anywhere.

MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and exterior with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Software Updates:** Regularly check the Nanit app for software updates to ensure optimal performance and access to new features.
- **Cable Management:** Ensure all cables are securely routed and out of reach of children to prevent entanglement hazards.
- **Storage:** When not in use, store the monitor and its components in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Solution
No video feed in app	Check Wi-Fi connection, ensure camera is powered on, and restart the app.
Poor video quality	Ensure strong Wi-Fi signal, check internet speed, and clean the camera lens.
Notifications not received	Verify app notification settings are enabled on your device and within the Nanit app.
Two-way audio not working	Check microphone and speaker permissions for the Nanit app on your device.

SPECIFICATIONS

Brand: Nanit

Model Name: Nanit Pro Smart Baby Monitor & 1st Gen Floor Stand

Model Number: N301US

Material: Plastic

Color: White

Compatible Devices: Smartphones (iOS and Android)

Product Dimensions: 10"L x 6.25"W x 4.25"H

Item Weight: 7.3 Pounds

Sensor Type: Movement

Battery Description: Lithium-Ion (for connected devices, not camera itself)

UPC: 850017851115, 810108752646
