Canshuo 1080P Floodlight Security Camera User Manual

Model: a1 | Brand: hopesport

Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Canshuo 1080P Floodlight Security Camera. Designed for outdoor use, this device combines a high-definition camera with powerful floodlights to enhance security around your property. Please read this manual thoroughly before installation and use to ensure proper functionality and safety.

Package Contents

Upon opening the package, verify that all components are present and undamaged. The standard package typically includes:

- Canshuo 1080P Floodlight Security Camera Unit
- Mounting Hardware (screws, anchors)
- User Manual (this document)
- Installation Template (if applicable)

Setup and Installation

1. Site Selection

Choose a suitable outdoor location for installation. Consider areas that require enhanced security and illumination. Ensure the chosen spot has access to a stable Wi-Fi signal and a hardwired AC/DC power source.

2. Mounting the Camera

The camera is designed for wall mounting. Use the provided mounting hardware to securely attach the unit to a sturdy surface. It is recommended to consult a qualified electrician for hardwired installations.

3. Power Connection

Connect the camera to a compatible AC/DC power supply. Ensure all connections are secure and follow local electrical codes.

4. Wi-Fi Connectivity and App Setup

Download the dedicated mobile application (compatible with Android devices) from your device's app store. Follow the in-app instructions to connect the camera to your home Wi-Fi network. This typically involves scanning a QR code on the camera or entering network credentials.

Operating Instructions

1. Live View and Recording

Once connected, access the live video feed through the mobile application. The camera records in 1080p resolution, providing clear visuals both day and night. It features Night Color technology for improved low-light performance and infrared for complete darkness.

Figure 2: The camera provides clear full-color vision during the day (1080P HD) and detailed night vision (720P HD).

2. Motion Detection and Alerts

The camera is equipped with a motion sensor (PIR Motion Sensor with 120° detection) that triggers recording and sends real-time alerts to your smartphone. You can customize motion detection zones and sensitivity settings within the app to minimize false alarms.

Figure 3: Motion-activated alerts are sent directly to your phone, providing real-time notifications of activity.

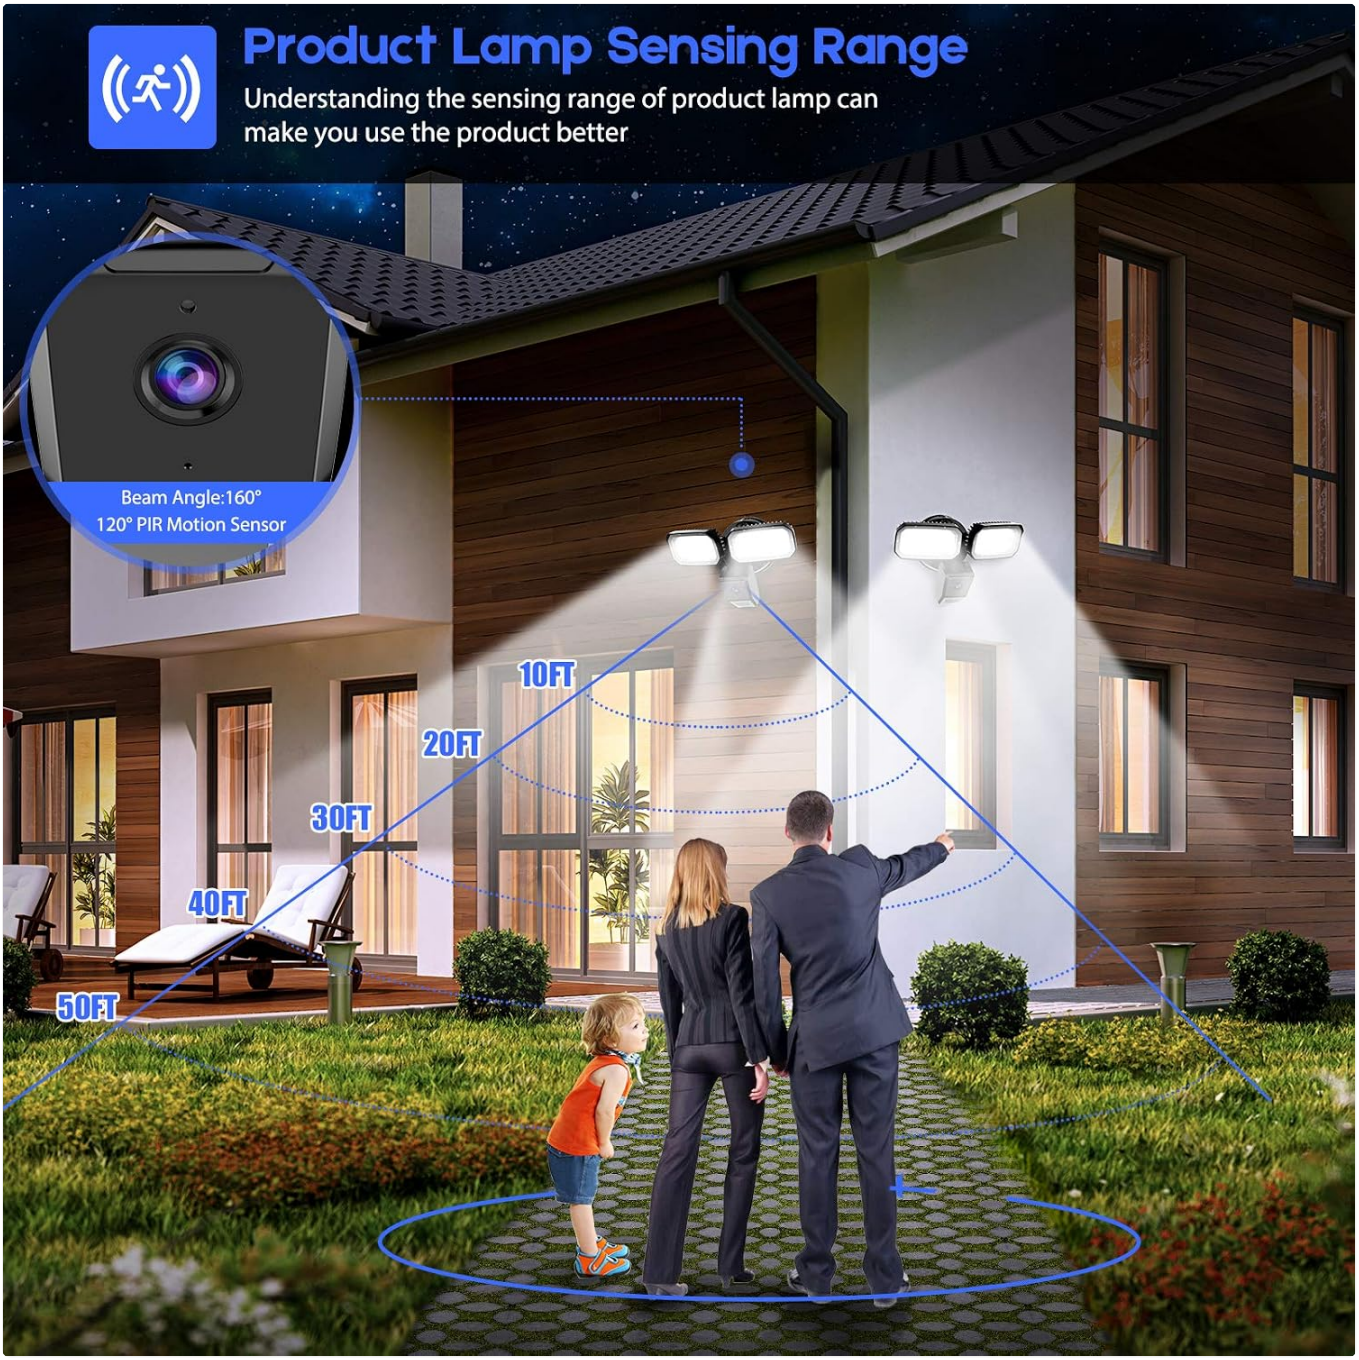

Figure 4: Understanding the product lamp's sensing range (up to 50ft) and the 160° beam angle with a 120° PIR motion sensor is crucial for optimal placement.

3. Two-Way Audio and Siren

Utilize the built-in microphone and speaker for two-way communication. You can speak to visitors or deter intruders directly through the app. The camera also features an 85dB siren that can be activated remotely to scare off unwanted guests.

Figure 5: The camera is equipped with an 85dB siren and two-way audio, allowing you to warn intruders or communicate with visitors.

4. Digital Zoom

The mobile application allows for digital zoom to get a closer look at specific areas within the camera's field of view.

Figure 6: The mobile application allows for digital zoom to inspect details within the camera's view.

Maintenance

To ensure optimal performance and longevity of your floodlight camera, regular maintenance is recommended:

- **Cleaning:** Periodically wipe the camera lens and floodlight surfaces with a soft, damp cloth to remove dust, dirt, or debris. Avoid abrasive cleaners.
- **Weather Resistance:** The camera is IP54 rated, providing protection against dust and splashing water. It is built to withstand various weather conditions, resistant to heat up to 122°F and frost down to 14°F.
- **Firmware Updates:** Check the mobile application regularly for available firmware updates to ensure your camera has the latest features and security enhancements.

Figure 7: The camera is designed for weather resistance, built to be heat resistant up to 122°F and frost resistant down to 14°F.

Troubleshooting

If you encounter issues with your Canshuo Floodlight Security Camera, refer to the following common troubleshooting steps:

- **No Power:** Ensure the camera is properly hardwired and the power source is active. Check circuit breakers.
- **Wi-Fi Connection Issues:** Verify your Wi-Fi network is active and the camera is within range. Try restarting your router and the camera. Ensure correct Wi-Fi credentials are entered in the app.
- **Motion Detection Not Working/Too Sensitive:** Adjust the motion detection sensitivity and detection zones within the mobile application. Ensure there are no obstructions blocking the sensor.
- **Poor Video Quality:** Check your Wi-Fi signal strength. Ensure the camera lens is clean and free from smudges or dirt.
- **No Recording/Playback Issues:** If using an SD card (not included), ensure it is properly inserted and formatted. Check the app for storage settings and cloud subscription status if applicable.
- **Siren/Audio Issues:** Verify volume settings in the app. Ensure there are no physical obstructions to the speaker

or microphone.

For persistent issues, consult the manufacturer's online support resources or contact customer service.

Specifications

Feature	Specification
Model Number	a1
Brand	hopesport
