## SETUP: INITIAL PREPARATION

Before first use, it is recommended to wash your new SIMPLI-MAGIC dish towels. This process helps to remove any manufacturing residues and can enhance the towel's absorbency.

### First Wash Instructions:

1. **Separate Colors:** Wash dark-colored towels separately from light-colored items to prevent color bleeding.
2. **Water Temperature:** Use cold or warm water for the initial wash.
3. **Detergent:** Use a mild detergent. Avoid using fabric softeners, as they can reduce absorbency over time.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Reduced Absorbency	Fabric softener residue; excessive detergent; natural oils/grease buildup.	Wash without fabric softener. Consider a deep clean cycle with white vinegar to strip residue. Ensure proper detergent dosage.
Linting	New towels; over-drying; washing with lint-producing items.	Linting typically reduces after a few washes. Avoid over-drying. Wash separately from items like fleece or towels that shed heavily.
Color Fading	Washing with hot water; exposure to harsh chemicals (e.g., bleach); prolonged sun exposure.	Wash in cold or warm water. Avoid bleach. Dry away from direct sunlight if air drying.
Unpleasant Odor	Damp storage; mildew buildup.	Ensure towels are completely dry before storing. Rewash with a cup of white vinegar in the rinse cycle to eliminate odors.
