BIGASUO Bigasuo B509

BIGASUO Outdoor Movie Projector User Manual

Model: Bigasuo B509

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your BIGASUO Outdoor Movie Projector, Model B509. Please read this manual thoroughly before using the projector to ensure optimal performance and safety.

The BIGASUO B509 is a native 1080P projector featuring Bluetooth 5.0, digital zoom, and HiFi stereo speakers, designed for home cinema, outdoor movie nights, and various entertainment purposes.

PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Projector (1 unit)
- 100" Projector Screen (1 unit)
- AV Cable (1 unit)
- Lens Cover (1 unit)
- HDMI Cable (1 unit)
- User Manual (1 unit)
- Power Cable (1 unit)
- Cleaning Cloth (1 unit)
- Remote Control (1 unit)

Image: The BIGASUO B509 projector shown with its carrying case, a small tripod, and a smartphone displaying content, illustrating the complete package contents.

SETUP

1. Placement

The projector can be placed on a flat table, mounted on a tripod, or suspended from the ceiling using a compatible stand (tripod and stand not included). Ensure the projector is positioned to project onto a suitable surface or the included 100" screen.

For optimal viewing, operate the projector in a dark environment. The edges of the projected image may appear slightly less sharp than the center.

2. Power Connection

Connect the provided power cable to the projector's power input and then to a power outlet.

3. Initial Adjustments

After powering on, adjust the *focus wheel* until the picture is clear. If the screen appears trapezoidal, adjust the *keystone correction wheel* until the screen is square.

OPERATING INSTRUCTIONS

1. Connecting Devices

The projector supports various connectivity options:

- **HDMI:** Use the HDMI cable to connect devices such as laptops, gaming consoles, or streaming sticks (e.g., TV Stick).
- **USB:** Insert USB drives for media playback.
- **AV:** Use the AV cable for connecting older devices.
- **Bluetooth:** Connect Bluetooth-enabled audio devices like speakers or headphones.

Image: A detailed view of the BIGASUO B509 projector's rear panel, highlighting the various input ports for connectivity.

2. Bluetooth Connection

To connect a Bluetooth speaker or headphones:

- Ensure your Bluetooth audio device is in pairing mode.
- Navigate to the Bluetooth settings on the projector.
- Select your device from the list to pair.

Note: Some Bluetooth speakers may experience compatibility issues or audio lag due to Bluetooth protocol variations. The built-in HiFi stereo speakers provide a good audio experience.

3. Digital Zoom Function

The projector features a digital zoom function to adjust the screen size without moving the projector. Use the

remote control to access and adjust this setting.

4. **Mirror Display Function**

The mirror display function allows you to project content from your cellphone or tablet. Due to copyright protection, this function may not support the playback of protected videos from services like Netflix or Hulu. A TV Dongle may be required for such content.

MAINTENANCE

- **Lens Cleaning:** Use the provided cleaning cloth to gently wipe the projector lens. Avoid abrasive materials that could scratch the lens.
- **Dust Removal:** Regularly clean the projector's vents to prevent dust buildup, which can affect performance and lifespan.
- **Storage:** When not in use, cover the lens with the lens cover and store the projector in a cool, dry place, preferably in its carrying case.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No Sound from Netflix/Hulu	Dolby audio encoding	Turn off Dolby audio settings on the connected device or streaming app.
Blurred Image Edges	Incorrect focus adjustment	Adjust the focus wheel until the entire picture is clear.
Trapezoidal Image	Incorrect keystone correction	Adjust the keystone correction wheel until the screen is square.
Bluetooth Audio Lag	Bluetooth protocol compatibility	Try a different Bluetooth speaker, or use the projector's built-in speakers or a wired audio connection.
Protected Content Not Mirroring	Copyright restrictions	This is an inherent limitation. Consider using a TV Dongle for protected content.
