- 1 Fire Drill Map
- 11 Road Signs
- 1 Carrier Plane

## SETUP

### 1. Battery Installation

The main airplane requires 3 AA batteries (not included) for lights and sounds. Locate the battery compartment, typically on the underside or within the cockpit area. Use a small screwdriver to open the compartment, insert the batteries with correct polarity (+/-), and secure the cover.

Your browser does not support the video tag.

Video: This video demonstrates the installation process for the aircraft's components, including the battery compartment. It highlights the importance of correct assembly for optimal functionality.

### 2. Attaching Wings and Tail Fin

Carefully attach the main wings to the sides of the airplane body. Ensure they click securely into place. The tail fin also attaches to the rear of the aircraft. Refer to the visual guide for proper alignment.

Image: An illustration showing the dimensions of the airplane and how its main components, such as wings and tail, are assembled.

### 3. Applying Stickers (Optional)

The set includes a sheet of stickers to customize the airplane and road signs. Carefully peel and apply the stickers to their designated areas as shown in the guide. This step is optional and enhances the visual appeal of the toy.

Your browser does not support the video tag.

Video: A guide demonstrating how to apply the included stickers to the airplane and various road signs, enhancing the toy's appearance.

### 4. Setting up the Play Mat and Road Signs

Unfold the fire drill play mat on a flat surface. Assemble the 11 road signs by attaching their bases. Place the road signs and mini fire trucks on the mat to create a dynamic play environment.

Image: Two children engaging with the Dwi Dowellin Fire Airplane Toy set, featuring the playmat, mini fire trucks, and road signs.

## OPERATING INSTRUCTIONS

### 1. Friction-Powered Movement

Gently push the airplane forward or backward on a flat surface. The friction-powered mechanism will allow it to move a considerable distance on its own.

Image: A visual representation of the airplane's "Push and Go" feature, highlighting its friction-powered movement.

## 2. Lights and Sounds

Press the buttons located on top of the airplane's cockpit. Each button activates different sounds, such as airplane takeoff sounds or airport broadcasts, accompanied by bright flashing lights from the engines.

Your browser does not support the video tag.

Video: A demonstration of the airplane's sound and light features, showcasing the various engine sounds and flashing lights.

## 3. Loading and Unloading Mini Vehicles

The airplane features a large cargo bay. Open the side panels and the rear ramp to load and unload the mini fire trucks and helicopter. The vehicles can roll down the ramp for dynamic play scenarios.

Your browser does not support the video tag.

Video: A play demonstration of the airplane toy, including how to load and unload the mini fire trucks and utilize the playmat.

- **Cleaning:** Wipe the airplane and mini vehicles with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the toy set in a cool, dry place away from direct sunlight when not in use. Ensure all small parts are stored together to prevent loss.
- **Battery Care:** Remove batteries if the toy will not be used for an extended period to prevent leakage and damage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No lights or sounds	Batteries are dead or incorrectly installed.	Replace with new AA batteries, ensuring correct polarity.
Friction movement is weak	Wheels are dirty or mechanism is obstructed.	Clean the wheels and ensure no debris is blocking the friction mechanism.
Mini cars do not roll smoothly	Wheels are dirty or axles are bent.	Clean the wheels and check for any damage.
