Bellemave B08R8PP2GN

Bellemave Low Bunk Beds Twin Over Twin House Bed Frame Instruction Manual

Model: B08R8PP2GN

1. Product Overview

This manual provides detailed instructions for the assembly, operation, and maintenance of your Bellemave Low Bunk Beds Twin Over Twin House Bed Frame. Designed for children, this bed features a sturdy pinewood frame with a house-inspired roof and window details, offering a unique and functional sleeping solution. Please read all instructions carefully before assembly and use.

2. Safety Information

Adherence to these safety guidelines is crucial for preventing injuries and ensuring the longevity of your bunk bed.

- Always supervise children when they are using the bunk bed.
- Exercise caution regarding sharp edges during both assembly and regular use.
- Do not exceed the specified weight capacities: **175 lbs for the upper bed** and **275 lbs for the bottom bed**.
- Ensure the bunk bed is fully and correctly assembled and stable before allowing any use.
- Only use mattresses that comply with the recommended thickness: **6 inches for the upper bed** and **8 inches for the bottom bed**.
- Regularly check all bolts and connections to ensure they remain tight.
- Do not allow jumping on the bed.
- The top bunk is not suitable for children under 6 years of age.

3. Package Contents

Your Bellemave Low Bunk Beds will arrive in **two separate packages**. Please ensure you have received both packages and all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support. Typical contents include:

- Wood frame components (headboards, footboards, side rails, roof panels, window panels)
- Plywood support slats for both upper and lower beds
- Ladder components
- Hardware pack (screws, bolts, nuts, washers, Allen wrench)
- Assembly instructions manual

4. Specifications

Feature	Detail
Product Type	Bunk Bed
Size	Twin-Over-Twin
Color	White
Product Material	Plywood + Pinewood
Overall Product Dimension	77.4"L x 55.4"W x 82.2"H
Overall Product Weight	155 lbs
Weight Capacity (Upper Bed)	175 lbs
Weight Capacity (Bottom Bed)	275 lbs
Recommended Mattress Thickness (Upper Bed)	6 inches
Recommended Mattress Thickness (Bottom Bed)	8 inches
Number of Slats (Upper Bed)	14
Number of Slats (Bottom Bed)	7
Assembly Required	Yes (Full Assembly Needed)
Estimated Assembly Time	2 hours
Box Spring Required	No

5. Assembly Instructions

Full assembly is required for this bunk bed. It is recommended that two adults assemble the bed. Please ensure you have a clear, spacious area for assembly. Avoid using power tools as they may overtighten and damage the wood.

5.1 Before You Begin

- Unpack all components and lay them out on a soft, clean surface to prevent scratches.
- Verify all parts and hardware are present against the provided parts list in your package.
- Familiarize yourself with the hardware and components.

5.2 Step-by-Step Assembly

1. **Assemble the Bed Frames:** Begin by connecting the headboards and footboards to the side rails for both the upper and lower beds. Ensure all connections are secure but do not fully tighten bolts until the entire frame is assembled.
2. **Install Support Slats:** Place the plywood support slats onto the designated ledges within each bed frame. Secure them

using the provided screws.

3. **Attach Ladder:** Securely attach the ladder to the designated side of the upper bunk bed frame. Ensure it is firmly fastened to prevent movement.
4. **Construct House Structure:** Assemble the roof panels and window panels according to the diagrams in your included manual. Attach these to the upper bunk frame.
5. **Final Tightening:** Once all components are in place and aligned, carefully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.

visual understanding during assembly.

6. Operating Instructions

Once fully assembled and inspected, the bunk bed is ready for use.

- **Mattress Placement:** Place a twin-size mattress on both the upper and lower bunks. Ensure the mattress thickness adheres to the recommended specifications (6 inches for upper, 8 inches for lower) to maintain proper guardrail height for safety.
- **Ladder Use:** Always use the integrated ladder for accessing the upper bunk. Do not climb on the side rails or other parts of the bed.
- **Weight Limits:** Adhere strictly to the weight limits: 175 lbs for the upper bunk and 275 lbs for the lower bunk. Overloading can compromise the bed's structural integrity and safety.
- **Play Area:** The house design encourages imaginative play. Ensure children understand that rough play or jumping on the bed is unsafe.

7. Maintenance and Care

Regular maintenance will help preserve the condition and safety of your bunk bed.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any loose hardware to ensure the bed remains stable and secure.
- **Structural Integrity:** Check for any signs of wear, cracks, or damage to the wood frame or slats. Address any issues promptly to maintain safety.
- **Ventilation:** Ensure adequate air circulation around the mattresses to prevent moisture buildup.

8. Troubleshooting

Here are solutions to common issues you might encounter:

- **Bed feels wobbly:** This is often due to loose hardware. Re-tighten all bolts and screws, ensuring they are snug but not overtightened. Check that all components are correctly aligned.
- **Missing parts or damaged components:** If you discover any missing parts or damaged pieces upon unboxing, do not proceed with assembly. Contact Bellemave customer support immediately for assistance and replacement parts.
- **Difficulty aligning holes during assembly:** Ensure you are using the correct parts for each step and that they are oriented correctly. Sometimes, slightly loosening adjacent connections can provide enough flexibility to align holes before re-tightening.
- **Squeaking noises:** Squeaking can result from loose connections or friction between wood parts. Re-tighten all hardware. Applying a small amount of paraffin wax or silicone spray to contact points (not on slats where mattresses rest) can also help.

9. Warranty and Support

For any questions, concerns, or assistance with your Bellemave Low Bunk Beds, please contact Bellemave customer support. While specific warranty details are not provided in this manual, Bellemave is committed to customer satisfaction.
Please have your product model number (B08R8PP2GN) and purchase information ready when contacting support.
