DORTALA DO-HW64315ES-CA

DORTALA Twin Loft Bed with Slide Instruction Manual

Model: DO-HW64315ES-CA

1. INTRODUCTION

Thank you for choosing the DORTALA Twin Loft Bed with Slide. This manual provides detailed instructions for assembly, safe operation, and maintenance of your new loft bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Careful when using the slide.
- Ensure proper assembly to prevent instability.
- Do not exceed weight capacity of 175 pounds.
- Always use the recommended mattress thickness (≤ 6 inches) to ensure adequate guardrail height.
- Periodically check and tighten all connections.
- Do not allow children under 6 years of age on the upper bunk.
- Prohibit more than one person on the upper bunk.
- Always use the ladder for entering and exiting the upper bunk.
- Do not attach or hang items on any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts, and jump ropes.

3. COMPONENTS LIST

Before assembly, ensure all parts are present and undamaged. If any parts are missing or damaged, please contact DORTALA customer support.

3.1 Main Components

- Bed Frame (Wood)
- Slide (Wood and other materials)
- Guardrails
- Bed Slats (8 solid wood slats)
- Ladder

3.2 Hardware

Assorted screws, bolts, nuts, and metal brackets for wall attachment. A detailed hardware list with quantities will be provided in the packaging.

4. SETUP AND ASSEMBLY

Assembly is required. Two people are recommended for efficient and safe assembly. Follow the numbered instructions provided in your product packaging. Ensure all connections are secure before use.

1. Unpack all components and hardware. Verify against the components list.
2. Assemble the main bed frame structure according to the diagrams.
3. Install the 8 solid bed slats onto the frame. Ensure they are evenly spaced and securely fastened to provide reliable support.
4. Attach the guardrails to the bed frame. The elevated handrails are designed to ensure safety.
5. Assemble and attach the slide. Ensure the tilt angle is suitable and the surface is smooth.
6. Attach the built-in ladder.
7. For additional security, use the two metal brackets provided to attach the bed firmly to the wall. This anti-tipping kit is crucial for stability.
8. Once assembled, double-check all screws and bolts to ensure they are tightened.

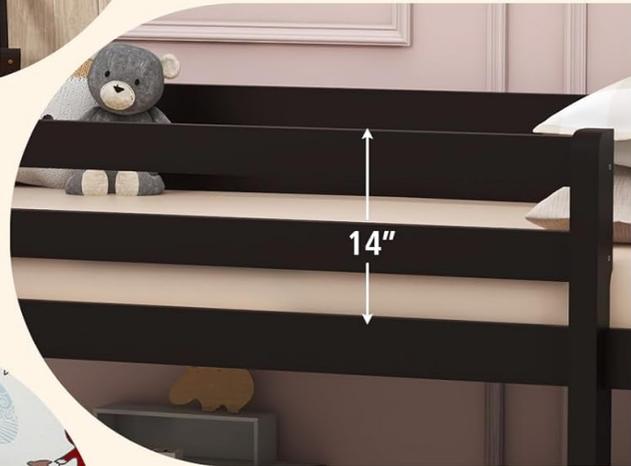

8 Solid Bed Slats

Helpful to reduce frictions and offer reliable support

Elevated Handrails

Ensure kids sleep in a safe area and keep them balanced

Anti-Tipping Kits

Reliable to fix the loft bed firmly to the wall

5. OPERATING THE LOFT BED

The DORTALA Twin Loft Bed is designed to maximize space and provide a fun, functional sleeping area for children.

- **Sleeping Area:** The elevated design creates a cozy sleeping space. Ensure a twin-sized mattress is used, with a recommended thickness of 6 inches or less to maintain safety guardrail height.
- **Under-Bed Space:** The 29.5-inch height under the bed provides ample floor space for various activities such as playing, reading, or storing toys.
- **Slide:** The built-in slide offers an exciting way to exit the bed. Always ensure the area around the slide is clear before use.
- **Ladder:** Use the integrated ladder for safe and easy access to the bed.

3-In-1 Option for Convenience & Endless Fun

6. MAINTENANCE

Proper care will extend the life of your DORTALA Twin Loft Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Tightening:** Periodically check all bolts and screws and tighten them as needed to ensure the bed remains sturdy and safe. This is especially important for the anti-tipping brackets.
- **Inspection:** Regularly inspect the bed for any signs of wear, damage, or loose parts. Address any issues promptly.
- **Wood Care:** As the bed is made of wood, avoid prolonged exposure to direct sunlight or extreme temperature changes, which can cause warping or cracking.

7. TROUBLESHOOTING

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
Bed squeaks or wobbles	Loose connections or uneven assembly.	Ensure all bolts and screws are securely tightened. Check that the bed is on a level surface.
Slide feels too fast/steep	Perception of speed, or mattress thickness affecting slide entry.	Ensure the recommended mattress thickness (≤ 6 inches) is used. Consider placing a soft mat or crash pad at the bottom of the slide for added cushioning.
Difficulty climbing ladder	Mattress thickness or user's height.	Verify mattress thickness is within recommended limits. Ensure the ladder is securely attached.

8. SPECIFICATIONS

Feature	Detail
Brand	DORTALA
Model Number	DO-HW64315ES-CA
Colour	Espresso
Product Dimensions	200.66 x 109.22 x 114.3 cm (79 x 43 x 45 inches)
Material	Wood, Metal
Item Weight	27.2 kg (59.9 lbs)
Special Features	No Box Spring Needed, Built-in Slide, Guard Rails, Ladder
Compatible Mattress Size	Twin
Recommended Mattress Thickness	≤ 6 inches
