

Summer Waves P10008305

Summer Waves P10008305 Quick Set Inflatable Pool Instruction Manual

Model: P10008305

Brand: Summer Waves

1. PRODUCT OVERVIEW

The Summer Waves P10008305 Quick Set Inflatable Pool is designed for easy setup and family enjoyment. This 8-foot wide pool features a transparent design with vivid 3D ocean life graphics on the bottom, creating an immersive underwater experience. It includes two pairs of 3D goggles for enhanced viewing of the graphics. Constructed with durable 3-ply Toughmesh materials, this pool is built for lasting use.

Key features include:

- **Quick Set Technology:** Inflate the top ring, and the pool rises as it fills with water, ready in approximately 10 minutes.
- **3D Deep Sea Graphics:** Engaging ocean animal graphics on the pool bottom, visible with included 3D goggles.
- **Durable Construction:** Made from puncture-resistant 3-ply Toughmesh material.
- **Included Accessories:** Two pairs of 3D goggles and a repair patch.

2. SETUP INSTRUCTIONS

Follow these steps for a quick and easy pool setup:

1. **Site Selection:** Choose a firm, level surface free of rocks, sharp objects, or debris. Ensure the area is large enough for the pool and surrounding activity.
2. **Unfold the Pool:** Carefully unroll and spread out the pool liner in the chosen location. Ensure the drain plug is accessible and closed.
3. **Inflate the Top Ring:** Locate the air valve on the top inflatable ring. Use an air pump (not included) to inflate the ring until it is firm but not over-inflated.
4. **Fill with Water:** Begin filling the pool with water. As the water level rises, the inflatable top ring will float, and the pool walls will expand upwards. Smooth out any wrinkles in the bottom of the pool as it fills.

5. **Monitor Water Level:** Fill the pool to the recommended fill line, typically indicated on the inside of the pool wall. Do not overfill.

3. OPERATING THE POOL AND 3D GOGGLES

Once the pool is set up and filled, it is ready for use. Always supervise children when they are in or near the pool.

Using the 3D Goggles:

The pool features special 3D ocean life graphics on its bottom. To experience the full effect:

1. Put on one of the included 3D goggles.
2. Submerge your head underwater and look at the pool bottom. The graphics will appear to come to life, creating a unique underwater adventure.

4. MAINTENANCE

Proper maintenance ensures the longevity and cleanliness of your pool.

Water Care:

- Regularly check and maintain water chemistry (pH, chlorine levels) if using pool chemicals.
- Skim debris from the water surface daily.
- Consider using a pool cover when not in use to keep out leaves and dirt.

Cleaning the Pool:

- Periodically drain and clean the pool liner with mild soap and water. Rinse thoroughly.
- Ensure the pool is completely dry before refilling or storing.

Repairing Punctures:

A repair patch is included for minor punctures. To use:

1. Locate the puncture.
2. Clean and dry the area around the puncture thoroughly.
3. Cut the repair patch to a size slightly larger than the puncture.
4. Apply the patch firmly over the puncture, pressing out any air bubbles.
5. Allow sufficient time for the adhesive to cure before refilling the pool.

Storage:

- Completely drain the pool using the drain plug.
- Clean and dry all surfaces thoroughly to prevent mold and mildew.
- Deflate the top ring.
- Fold the pool neatly and store it in a cool, dry place away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool is losing air from top ring.	Puncture in the inflatable ring or loose valve cap.	Check valve cap for tightness. Locate puncture and use the included repair patch.
Water level is decreasing.	Leak in the pool liner or drain plug not fully closed.	Ensure drain plug is securely closed. Inspect pool liner for punctures and apply repair patch if found.
Pool walls are not rising properly during filling.	Top ring not sufficiently inflated or pool not on a level surface.	Ensure the top ring is firmly inflated. Verify the pool is on a completely level surface.
Water appears cloudy or dirty.	Lack of proper water treatment or debris accumulation.	Skim debris regularly. Consider using appropriate pool chemicals (e.g., chlorine, clarifier) and a filter pump if desired (not included).

6. PRODUCT SPECIFICATIONS

Model Number: P10008305

Brand: Summer Waves

Dimensions (L x W x H): 96 x 96 x 30 inches (8 feet wide, 30 inches deep)

Shape: Round

Material: Durable 3-ply Toughmesh

Assembly Time: Approximately 10 minutes

Special Features: Inflatable top ring, Drain Hole, Lightweight, 3D Ocean Life Graphics

Included Accessories: 2 pairs of 3D Goggles, Repair Patch

Target Audience: Kid (Unisex-Kids)

UPC: 192072028201

ASIN: B08RGLRMG4
