Video 1: An overview of the TUINYO Bluetooth Wireless Headphones, demonstrating key features and design.

SETUP

1. Charging the Headphones

Before first use, fully charge your headphones. Connect the provided USB charging cable to the charging port on the headphone earcup and the other end to a USB power source (e.g., computer, wall adapter). The LED indicator will show charging status and turn off when fully charged. A full charge takes approximately 2-2.5 hours and provides up to 40 hours of music playtime.

2. Powering On/Off

- **Power On:** Long press the Power button on the earcup until the LED indicator lights up.
- **Power Off:** Long press the Power button again until the LED indicator turns off.

3. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Long press the Power button until the LED indicator flashes blue and red alternately, indicating pairing mode.
3. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "TP 19" from the list of devices.
5. Once connected, the LED indicator will turn solid blue or flash blue slowly.

Note: The headphones are compatible with all Bluetooth-enabled devices. For TVs without built-in Bluetooth, a Bluetooth transmitter is required.

4. Wired Mode Connection

If the battery is depleted or you prefer a wired connection, use the provided 3.5mm audio cable. Plug one end into the headphone's 3.5mm jack and the other end into your audio device's 3.5mm port. The headphones will automatically switch to wired mode.

OPERATING INSTRUCTIONS

Music Playback

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Long press the '+' (Volume Up) button.
- **Previous Track:** Long press the '-' (Volume Down) button.
- **Volume Up:** Short press the '+' (Volume Up) button.
- **Volume Down:** Short press the '-' (Volume Down) button.

Call Management

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Long press the Multi-function button.
- **Redial Last Number:** Double press the Multi-function button.

Voice Assistant

Press the Voice Control button (often labeled 'M' or a microphone icon) to activate your device's voice assistant (e.g., Siri, Google Assistant). This allows for quick access to information and hands-free control depending on your device's operating system.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the headphones in their protective case to prevent damage. Avoid exposing them to extreme temperatures or humidity.
- **Battery Care:** To prolong battery life, avoid fully discharging the headphones frequently. Charge them regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Solution
---------	----------

Problem	Solution
Headphones won't turn on.	Ensure the headphones are fully charged.
Cannot pair with device.	Ensure headphones are in pairing mode (flashing blue/red). Turn off Bluetooth on other nearby devices. Forget "TP 19" from your device's Bluetooth list and try pairing again. Restart both the headphones and your device.
No sound in Bluetooth mode.	Check volume levels on both headphones and your device. Ensure headphones are correctly paired and connected. Try playing audio from a different application or device.
Sound distortion.	Move closer to your device to reduce interference. Check for obstacles between headphones and device. Ensure audio source quality is good.
