REPIND BP1908-PD

USB C Wall Charger 18W PD 3.0 Fast Charger Instruction Manual

Model: BP1908-PD | Brand: REPIND

PRODUCT OVERVIEW

The REPIND 18W USB-C PD 3.0 Fast Charger is designed to provide rapid and efficient charging for a wide range of compatible devices. This compact and lightweight power adapter offers significantly faster charging speeds compared to standard 5W chargers, capable of charging devices like the iPhone 12 up to 50% in just 30 minutes. It features intelligent control mechanisms to protect your devices from various electrical hazards, making it a reliable choice for home, office, and travel.

This image displays the compact and sleek design of the REPIND 18W USB C Wall Charger in Ivory White, highlighting its single USB-C output port and standard US plug prongs.

SPECIFICATIONS

Input	AC 100V–240V 50/60Hz
USB-C Output	DC 5V-3A or 9V-2A or 12V-1.5A
Power Output	18W
Color	Ivory White
Package Dimensions	4.72 x 3.54 x 1.14 inches
Item Weight	0.176 ounces

Model Number	BP1908-PD
Manufacturer	Shenzhen Putuo Technology Co.,Ltd.

SETUP

What's in the Box

- 1 x USB C Power Adapter Wall Charger
- *Note: Charging cables are not included and must be purchased separately.*

Connecting the Charger

1. Ensure you have a compatible USB-C charging cable for your device. For iPhone devices, a USB-C to iPhone charger cable is required. For USB-C devices, a USB-C to USB-C cable is needed.
2. Plug the USB-C end of your charging cable into the USB-C port on the REPIND 18W Wall Charger.
3. Plug the other end of the charging cable into your device's charging port.
4. Insert the wall charger into a standard AC 100V-240V wall outlet.
5. Your device should begin charging automatically.

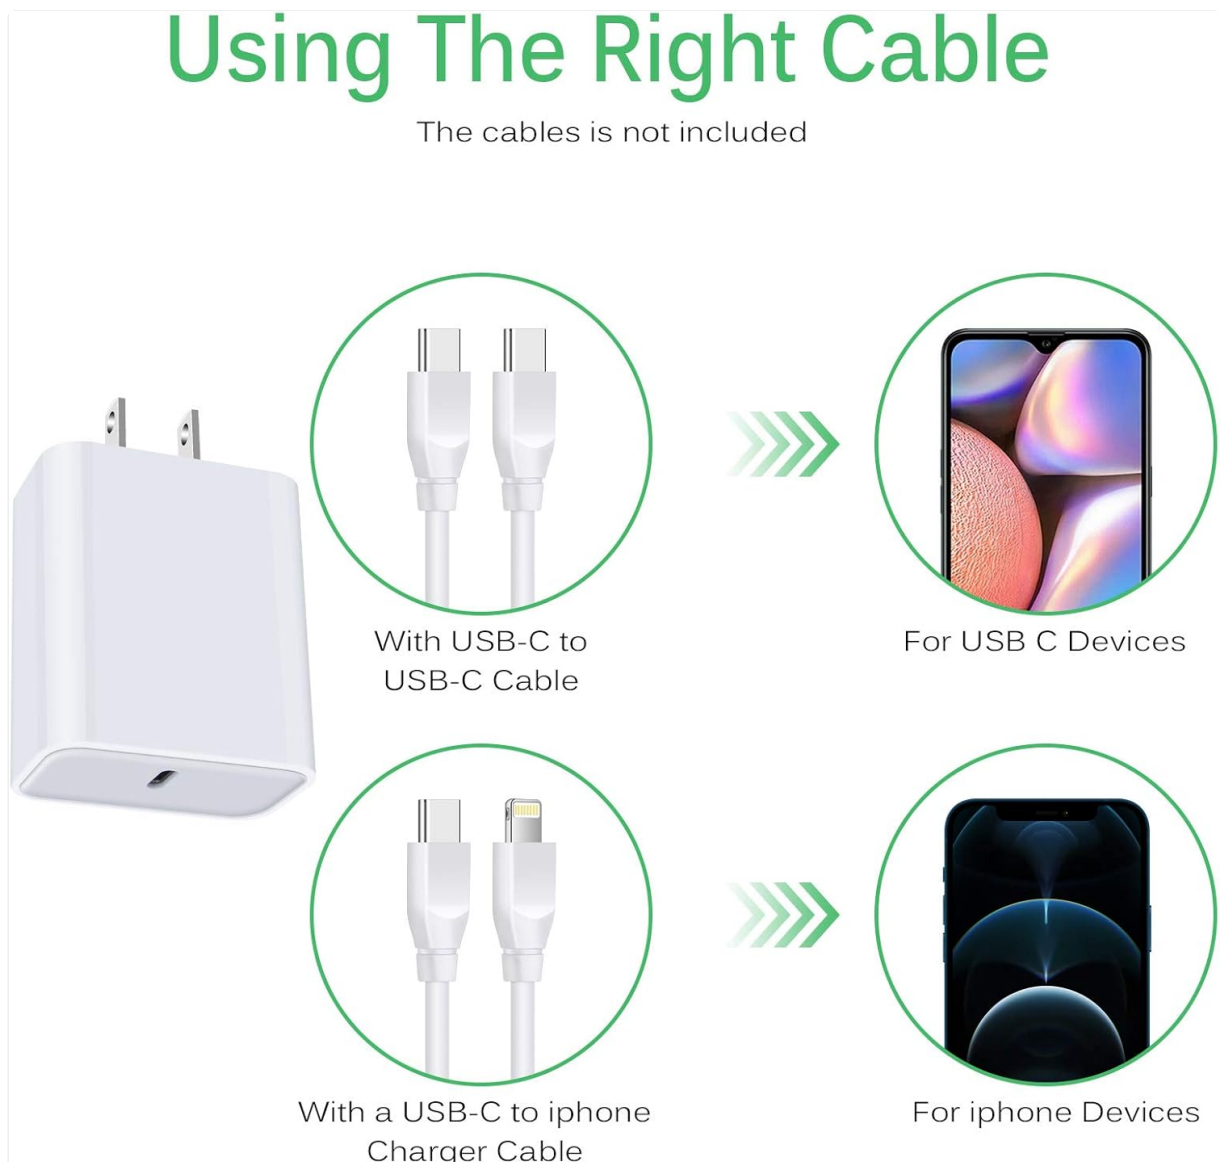

Figure 2: Using the Right Cable

This diagram illustrates the correct cable types to use with the USB-C wall charger: a USB-C to USB-C cable for USB-C

devices and a USB-C to iPhone charger cable for iPhone devices. It emphasizes that cables are not included.

OPERATING INSTRUCTIONS

Fast Charging Feature

The REPIND 18W USB-C PD 3.0 charger is engineered for fast charging. It can charge compatible devices up to 2.5 times faster than conventional 5W chargers. For example, an iPhone 12 can reach 50% charge in approximately 30 minutes when using this adapter with a suitable USB-C to iPhone cable.

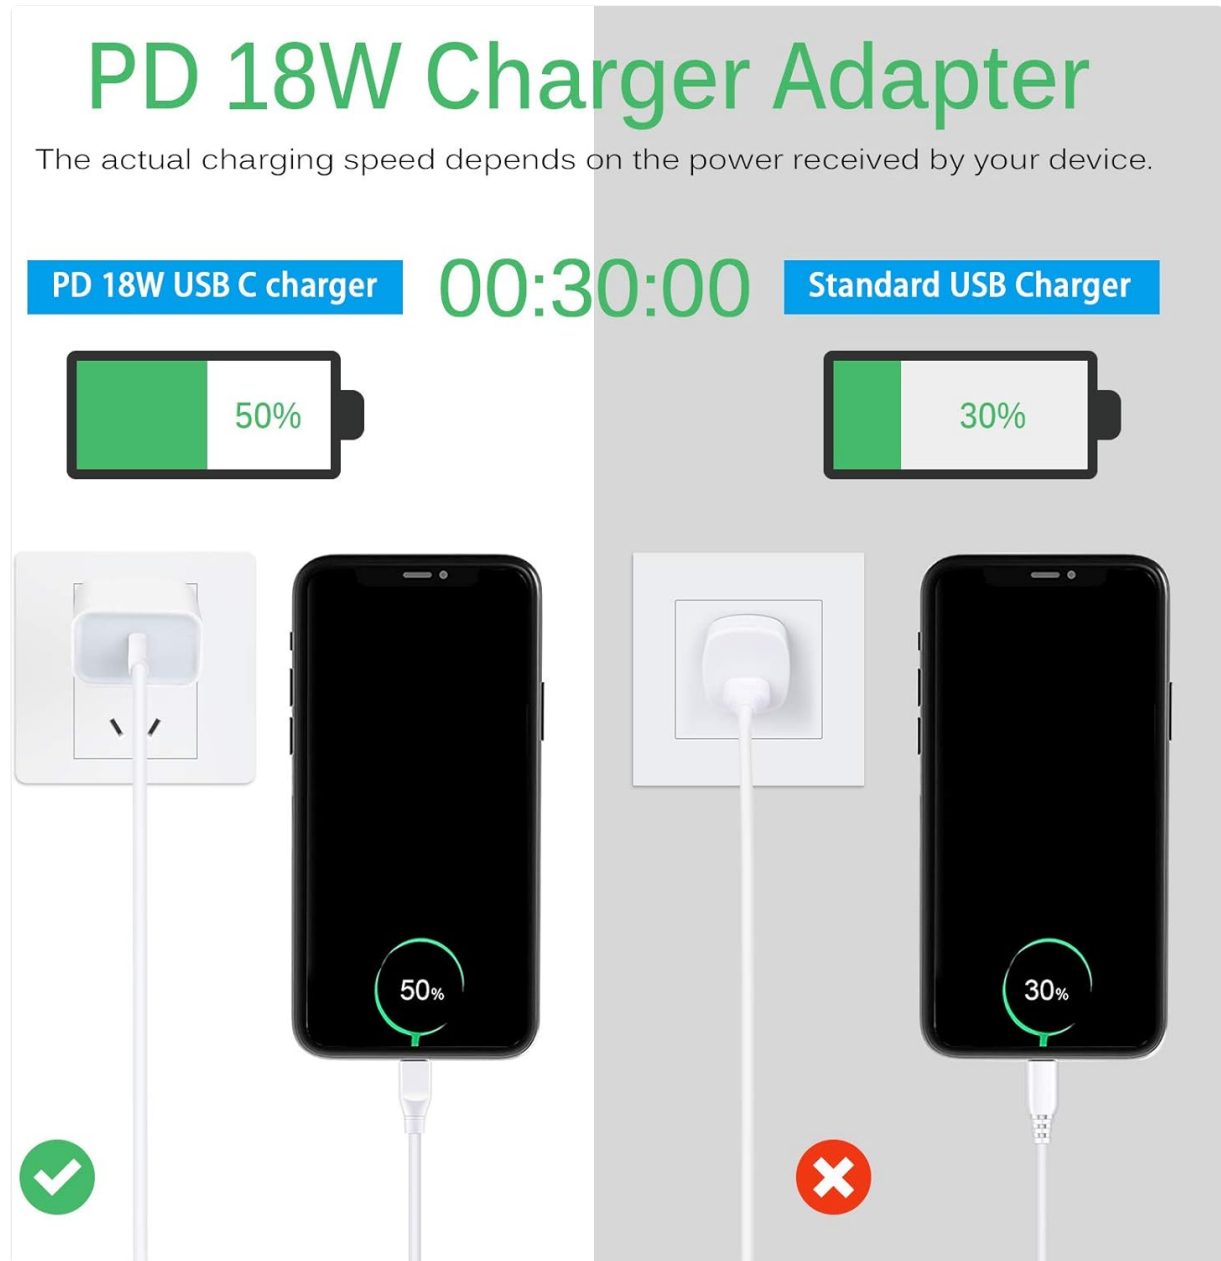

Figure 3: PD 18W Charger Adapter Speed Comparison

This image visually compares the charging speed of the 18W PD USB-C charger against a standard USB charger, showing the 18W charger reaching 50% battery in 30 minutes while the standard charger only reaches 30% in the same timeframe.

Figure 4: High-Speed Charging

This image highlights the 18W power output for high-speed charging, emphasizing its efficiency, concentrated power delivery, and smaller size.

COMPATIBILITY

The REPIND 18W USB-C PD Wall Charger offers wide compatibility with numerous USB-C enabled devices, including but not limited to:

For iPhone Fast Charger:

- iPhone 14/13/12/12 Mini/12 Pro/12 Pro Max
- iPhone SE 2020/11/11 Pro/11 Pro Max/XR/XS/XS Max/X/8/8 Plus
- iPad Pro 2020/2018
- iPad Mini 5/4

For Samsung Fast Charger:

- Samsung Galaxy Note 20 Ultra, Note 20, Note 10, Note 10+, Note 9, Note 8
- Samsung Galaxy S21, S21 Ultra, S20 Plus, S20 Ultra, S20 FE, S20, S10, S10 Plus, S10e, A20e, A10e, S9, S9 Plus, S8, S8 Plus
- Samsung Galaxy A90, A80, A71, A70, A50s, A51, A50, A41, A40, A30s, A31, A30, A20s, A21, A20, A11,

For Google Charger:

- Google Pixel 5, 4a, 4XL, 4, 3a, 3a XL, 3XL, 3, 2XL, 2, XL

For LG Charger:

- LG V60, V50, V40, V35, V30S, G8, G8S, G8X, G7 ThinQ, LG V30, V20, G6, G5, Q7, Q7+, Q8, LG Stylo 4, 5, 5+, 6

For Motorola Charger:

- Motorola Moto G9 Power, G9 Plus, G9 Play, G8 Play, G8 Plus, G7 Power, G7 Play, G7 Plus, G7, G7 Supra, G7 Optimo Maxx, G6, G6 Plus
- Motorola Moto One 5G Action Zoom, G Fast, G Power, G Stylus, Z3, Z3 Play, Z2 Force Edition, Z2 Play, Z4, M, X4

And many more USB-C enabled devices.

SAFETY INFORMATION

The REPIND 18W USB-C Wall Charger incorporates advanced safety features to protect your devices and ensure safe operation:

Intelligent Control

prevents from overcharging

Figure 5: Intelligent Control Protections

This image illustrates the intelligent control features of the charger, including protection against over voltage, over current, short circuit, over power, and temperature fluctuations, all designed to prevent overcharging and ensure device safety.

- **Over Voltage Protection:** Prevents damage from excessive voltage input.
- **Over Current Protection:** Safeguards against harmful current levels.
- **Short Circuit Protection:** Automatically cuts off power in case of a short circuit.
- **Over Power Protection:** Ensures the charger does not exceed its rated power output.
- **Temperature Protection:** Prevents overheating during charging.

General Safety Guidelines:

- Do not expose the charger to liquids, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not attempt to disassemble, repair, or modify the charger.
- Keep out of reach of children.
- Unplug the charger from the wall outlet when not in use or during electrical storms.

TROUBLESHOOTING

Common Issues and Solutions:

- **Device not charging:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Verify that the charging cable is properly connected to both the charger and your device.
 - Try using a different compatible charging cable to rule out cable issues.
 - Test the charger with a different compatible device to confirm charger functionality.
- **Slow charging:**
 - Confirm that your device supports 18W PD 3.0 fast charging. Older devices may charge at a slower rate.
 - Ensure you are using a high-quality USB-C cable designed for fast charging.
 - Check if your device is running many background applications, which can slow down charging.
 - Avoid using your device extensively while it is charging, as this can prolong charging time.
- **Charger feels warm:**
 - It is normal for the charger to become slightly warm during operation, especially during fast charging.
 - If the charger becomes excessively hot, unplug it immediately and contact customer support.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface of the charger. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the charger with care. Avoid bending or twisting the cable excessively, as this can damage internal wires.

WARRANTY AND SUPPORT

REPIND stands behind the quality of its products. This USB C Wall Charger comes with a standard manufacturer's warranty covering defects in materials and workmanship under normal use. Please refer to the product packaging or contact our customer support for specific warranty terms and duration.

For any questions, technical assistance, or warranty claims, please contact REPIND Customer Support through the retailer's platform or visit our official website. Please have your product model number (BP1908-PD) and purchase information ready when contacting support.
