

Lumme B08RPD4N7X

Lumme Electric Waffle Maker Instruction Manual

Model: B08RPD4N7X

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

1. Read all instructions before operating the appliance.
2. Do not touch hot surfaces. Use handles or knobs.
3. To protect against electrical shock, do not immerse cord, plugs, or appliance in water or other liquid.
4. Close supervision is necessary when any appliance is used by or near children.
5. Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
6. Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner. Contact customer support for assistance.
7. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
8. Do not use outdoors.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place on or near a hot gas or electric burner, or in a heated oven.
11. Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
12. To disconnect, turn any control to 'off', then remove plug from wall outlet.
13. Do not use appliance for other than intended use.

PRODUCT OVERVIEW

The Lumme Electric Waffle Maker is designed for convenient and efficient preparation of individual waffles, paninis, and hash browns. Its non-stick cooking plates ensure easy food release and simple cleaning.

Image: The Lumme Electric Waffle Maker shown open with a cooked waffle, alongside a plate of waffles with fruit and syrup.

Key Features:

- **Premium Non-Stick Plates:** Crafted with heavy-duty iron and a non-stick coating for superior cooking and easy food release.
- **Quick and Easy Operation:** Heats up in minutes with dual non-stick surfaces for consistent results.
- **Versatile Cooking:** Ideal for traditional waffles, paninis, hash browns, and creative stuffed combinations.

- **Indicator Lights:** Convenient power and ready light indicators for optimal cooking temperature.

IT'S ALWAYS TIME FOR WAFFLES

Extra deep non-stick coating plates

Convenient power and ready light indicators

Easy to use

Perfect waffles every single time

SETUP

1. **Unpack:** Carefully remove the waffle maker and all packaging materials.
2. **Initial Cleaning:** Wipe the cooking plates with a damp cloth or sponge. Dry thoroughly.
3. **First Use Preparation:** Before the first use, lightly coat the cooking plates with a small amount of cooking oil or non-stick spray. Close the lid and plug in the appliance. Allow it to heat until the 'Ready' indicator light illuminates, then unplug and let it cool. Wipe off any excess oil. This conditions the non-stick surface.
4. **Placement:** Place the waffle maker on a stable, heat-resistant surface near an electrical outlet. Ensure there is adequate ventilation around the appliance.

OPERATING INSTRUCTIONS

Follow these steps for optimal results when preparing waffles, paninis, or hash browns.

1. **Preheat:** Plug the waffle maker into a 120V AC electrical outlet. The power indicator light will illuminate. Allow the appliance to preheat until the 'Ready' indicator light turns on, signaling it has reached the optimal cooking temperature.
2. **Prepare Plates:** For best results and to extend the life of the non-stick coating, lightly spray or brush the cooking plates with cooking oil or non-stick spray before each use, especially for the first item.
3. **Add Batter/Ingredients:** Open the lid and pour your waffle batter, place panini ingredients, or spread hash brown mixture onto the lower cooking plate. Do not overfill; use approximately 1/2 to 3/4 cup of batter for waffles, depending on desired thickness.
4. **Close Lid:** Carefully close the lid. Do not force it shut.
5. **Cook:** Allow the food to cook. The 'Ready' light may cycle on and off during cooking, which is normal. Cooking time varies based on the recipe and desired crispness. For waffles, this typically takes 3-5 minutes.
6. **Remove Food:** Once cooked to your preference, open the lid. Use a heat-resistant plastic or wooden utensil to carefully remove the food from the non-stick plates. *Avoid using metal utensils, as they can damage the non-stick coating.*
7. **Repeat:** Close the lid to maintain heat for subsequent batches.

CLEANING AND MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and performance of your waffle maker.

1. **Unplug and Cool:** Always unplug the appliance from the electrical outlet and allow it to cool completely before cleaning.
2. **Clean Cooking Plates:** Use a soft, damp cloth or sponge to wipe the non-stick cooking plates. For stubborn residue, a small amount of cooking oil can be applied to soften it before wiping. Do not use abrasive cleaners, scouring pads, or metal utensils, as these can damage the non-stick surface.
3. **Clean Exterior:** Wipe the exterior of the waffle maker with a damp cloth. Do not immerse the appliance in water or any other liquid.
4. **Storage:** Once clean and completely dry, store the waffle maker in a cool, dry place. The compact design allows for easy storage.

TROUBLESHOOTING

If you encounter issues with your Lumme Electric Waffle Maker, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---------------------------------|--|---|
| Waffle maker does not heat up. | Not plugged in; power outlet malfunction; appliance malfunction. | Ensure the appliance is securely plugged into a working outlet. Test the outlet with another device. If the issue persists, contact customer support. |
| Waffles stick to the plates. | Insufficient oil/spray; plates not properly seasoned; batter too thin. | Lightly coat plates with cooking oil or non-stick spray before each use. Ensure initial seasoning was performed. Adjust batter consistency if too thin. |
| Waffles are not crispy. | Insufficient cooking time; batter too moist. | Increase cooking time slightly. Ensure batter is not overly moist. |
| Smoke or odor during first use. | Normal burning off of manufacturing oils. | This is normal for the first few uses. Ensure good ventilation. If smoke persists or is excessive, unplug and contact customer support. |

SPECIFICATIONS

- **Model:** B08RPD4N7X
- **Brand:** Lumme
- **Color:** Black
- **Material:** Iron (cooking plates), Lead Free, PFAS Free, PFOA Free
- **Wattage:** 1200 watts
- **Voltage:** 120 Volts
- **Special Feature:** Non-Stick Coating
- **Style:** Classic
- **Included Components:** Waffle Iron
- **UPC:** 700516368525
