3. PRODUCT OVERVIEW

An image showing a single jar of UVUBXT ROBB Original Ointment placed on top of its red and blue cardboard box packaging. The jar is red with a white label, and the box features the 'ROBB Well Being Original Ointment' branding.

UVUBXT ROBB Original Ointment is a topical preparation designed to provide effective relief. Its active ingredient, Menthol, contributes to its therapeutic properties. The product is supplied in a 23ml jar, typically available in a pack of 12 units.

Key Features:

- Effective relief from muscular pain and aches.
- Aids in clearing nasal congestion and catarrh.
- Contains Menthol as an active ingredient.

4. PREPARATION FOR USE

Before application, ensure the affected skin area is clean and dry. Wash your hands thoroughly before and after applying the ointment.

5. OPERATING INSTRUCTIONS (APPLICATION)

For Nasal Congestion and Catarrh:

1. Take a small amount of ointment on your fingertip.
2. Gently apply a thin layer under the nose.
3. Avoid direct contact with the nostrils or inside the nasal passages.
4. Repeat as needed, typically up to three times daily.

For Muscular Pain and Aches:

1. Apply a sufficient amount of ointment to cover the affected area.
2. Gently rub the ointment into the skin until it is absorbed.
3. A warming sensation may be experienced.

4. Repeat application up to three times daily, or as directed by a healthcare professional.

6. MAINTENANCE AND STORAGE

Store UVUBXT ROBB Original Ointment in a cool, dry place, away from direct sunlight and excessive heat. Ensure the lid is tightly closed after each use to prevent drying out. Do not store in a bathroom or other humid areas. Keep the product in its original packaging.

7. TROUBLESHOOTING

- **Skin Irritation:** If redness, itching, or burning occurs, wash the affected area with soap and water and discontinue use. If symptoms persist, consult a doctor.
- **No Relief:** If symptoms of pain or congestion do not improve after several days of regular use, or if they worsen, seek advice from a healthcare professional.
- **Accidental Ingestion:** If the ointment is accidentally swallowed, contact a poison control center or seek immediate medical attention.
