2. PRODUCT FEATURES

- **Double-Wall Vacuum Insulation:** Keeps beverages hot for up to 8 hours, cold for up to 12 hours, and iced for up to 40 hours.
- **Quick Flip Lid:** Features a push-button mechanism for easy one-handed opening and a secure latch to prevent accidental spills.
- **Leakproof Design:** Engineered to prevent leaks, making it suitable for travel and carrying in bags.
- **Durable Construction:** Made from 18/8 stainless steel for long-lasting use.
- **BPA-Free Materials:** Ensures your drinks remain safe and free from harmful chemicals.
- **Easy to Clean:** Wide mouth opening for simple hand washing, and all components are dishwasher safe.

- **Car Cup Holder Compatible:** Designed to fit in most standard car cup holders.

3. SETUP

3.1 Initial Cleaning

1. Before first use, disassemble the lid from the bottle.
2. Wash all components (bottle and lid) with warm, soapy water.
3. Rinse thoroughly and allow to air dry completely.

3.2 Assembly

1. Ensure all parts are dry.
2. Reattach the lid to the bottle by screwing it clockwise until securely tightened.

4. OPERATION

4.1 Filling the Bottle

1. Unscrew the lid from the bottle.
2. Fill the bottle with your desired beverage. Do not overfill; leave space for the lid.
3. Securely screw the lid back onto the bottle, ensuring it is tight to prevent leaks.

4.2 Using the Quick Flip Lid

1. To open the mouthpiece, press the button located on the lid. The flip-top will open automatically.
2. To close, push the flip-top down until it clicks securely into place.
3. For added security, engage the metal latch over the button to prevent accidental opening.

4.3 Temperature Retention Tips

- For hot beverages, pre-heat the bottle with hot water for 5 minutes before filling.
- For cold beverages, pre-chill the bottle with cold water or ice for 5 minutes before filling.
- Ensure the lid is always securely closed to maximize temperature retention.

5. MAINTENANCE

5.1 Cleaning Instructions

All components of your Stanley Quick Flip GO Water Bottle are dishwasher safe. For best results and to prolong the life of the product, hand washing is also recommended, especially for the lid's intricate parts.

Hand Washing:

1. Disassemble the lid from the bottle.
2. Wash the bottle interior with warm, soapy water using a bottle brush.
3. Clean the lid thoroughly, paying attention to the push-button mechanism and mouthpiece, using a small brush if necessary.

4. Rinse all parts completely with clean water.
5. Allow all components to air dry completely before reassembling or storing.

Dishwasher Cleaning:

1. Place the bottle and lid components on the top rack of your dishwasher.
2. Use a standard dishwasher cycle.
3. Ensure all parts are dry before reassembly.

Caution: Do not use bleach or cleaners containing chlorine. Do not place in a microwave or oven.

6. TROUBLESHOOTING

- **Leakage:** Ensure the lid is screwed on tightly and the flip-top is securely closed with the latch engaged. Check the silicone gasket inside the lid for proper placement and any damage.
- **Poor Temperature Retention:** Verify that the lid is fully sealed. Ensure the bottle was pre-heated or pre-chilled as recommended for optimal performance. Extreme external temperatures can affect retention.
- **Difficulty Opening/Closing Lid:** Ensure the lid mechanism is clean and free of debris. If the latch is stiff, a small amount of food-grade lubricant can be applied to the hinge points.

7. SPECIFICATIONS

Feature	Detail
Brand	STANLEY
Model Name	The Quick Flip GO Bottle
Capacity	24 Fluid Ounces
