## Outsunny 84C-028GY

# Outsunny 10' x 10' Patio Gazebo Instruction Manual

Model: 84C-028GY

Brand: Outsunny

## 1. INTRODUCTION

---

Thank you for choosing the Outsunny 10' x 10' Patio Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor shelter. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

An overview of the Outsunny 10' x 10' Patio Gazebo, showcasing its square design, double-tier roof, and full mesh netting enclosure.

This gazebo is designed to provide a comfortable and shaded area for various outdoor activities, including patio relaxation, weddings, catering events, and general gatherings. Its robust construction and thoughtful features aim to enhance your outdoor experience.

The gazebo positioned in a lush garden setting, demonstrating its use as an outdoor dining or lounging area, with the mesh curtains tied back.

## 2. SAFETY INFORMATION

---

**WARNING:** Failure to follow these safety instructions may result in injury or damage to the product.

- Always assemble and disassemble the gazebo with care, following the provided manual.
- Secure the gazebo to a stable surface using the included stakes and ropes to prevent it from tipping over, especially in windy conditions.
- Be cautious of the two-tier canopy and netting to avoid entanglement or falling hazards.
- Handle the steel frame with care to avoid injury from sharp edges.
- Do not use open flames or heating appliances inside or near the gazebo.
- In case of severe weather conditions (heavy rain, strong winds, snow), disassemble the gazebo to prevent damage and ensure safety.

### 3. PACKAGE CONTENTS

---

Before assembly, ensure all parts are present and undamaged. If any parts are missing or defective, contact customer support immediately.

- Steel Frame Components (legs, beams, roof supports)
- Polyester Canopy (main roof and upper vent cover)
- Mesh Netting Sidewalls with Zippers
- Corner Shelves
- Ground Stakes
- Ropes
- Assembly Hardware (bolts, nuts, washers, etc.)
- Instruction Manual

### 4. ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two or more adults. Follow the steps below carefully. Do not overtighten bolts until instructed.

#### **Step 4.1: Unpack and Identify Parts**

Lay out all components on a clean, flat surface. Refer to the parts list in your included manual to identify each piece.

#### **Step 4.2: Assemble the Base Frame**

Connect the lower leg sections and horizontal beams to form the base square of the gazebo. Ensure all connections are secure but do not fully tighten bolts yet.

#### **Step 4.3: Attach Corner Shelves and Upper Leg Sections**

Install the decorative corner frame shelves onto the lower leg sections. Then, attach the upper leg sections to complete the vertical structure.

# MORE DETAILS

**Mesh Side Walls**  
provide good ventilation

**Plastic Pull Ring**  
for conveniently fixing the curtains onto the frame

**Curtain Straps**  
tie to the curtain easily

**Double-sided Zipper**  
easy to access

A detailed view of the gazebo's corner frame, featuring a built-in triangular shelf for decorative items or small storage.

## **Step 4.4: Construct the Roof Frame**

Assemble the roof support beams and connect them to the top of the leg sections. This will form the structure for the main canopy and the double-tier vent.

## GAZEBO

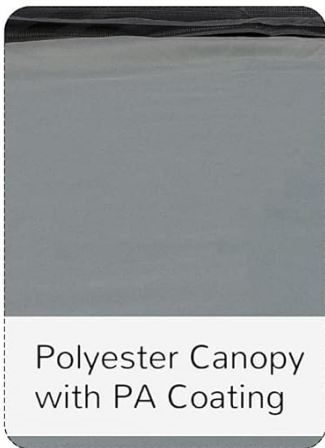

Set up a pavilion in your yard, it's excellent for afternoon tea, parties, and meals

An illustration of the gazebo in use, providing shade and shelter for outdoor activities such as barbecues and gatherings.

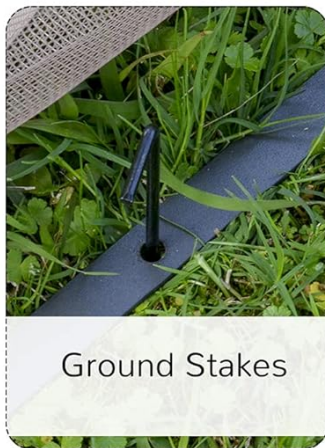

### **Step 4.5: Install the Canopy**

Carefully drape the main canopy over the roof frame, ensuring it is centered and taut. Secure the canopy to the frame using the integrated fasteners. Then, attach the smaller upper canopy to the top vent structure.

Polyester Canopy with PA Coating

premium material for durability

Ground Stakes

for adding stability

Double Tier Roof

keeps airflow adequately

8 Drainage Holes

ensure proper water drainage

This image highlights key structural and material features: the durable polyester canopy with PA coating, ground stakes for stability, the design of the double-tier roof for airflow, and the eight drainage holes to prevent water accumulation.

### Step 4.6: Attach Mesh Netting

Hang the mesh netting sidewalls from the roof frame. Ensure the zippers align correctly for easy access. Use the plastic pull rings and curtain straps to secure the netting as desired.

# UNIQUE DESIGN

Novel Arrow-shaped Design  
beautiful and unique appearance

Triangular Storage Shelf  
for adding stability and convenience

This image illustrates the functionality of the mesh sidewalls, including the plastic pull rings for securing curtains, the curtain straps for tying them back, and the double-sided zipper for easy access.

## Step 4.7: Secure the Gazebo

Once fully assembled, use the provided ground stakes and ropes to firmly anchor the gazebo to the ground. This is crucial for stability and safety.

## 5. OPERATING INSTRUCTIONS

### 5.1: Using the Mesh Netting

The gazebo features protective mesh netting sidewalls designed to keep insects out while allowing airflow. The netting can be zipped closed for full enclosure or tied back to the frame using the integrated straps for an open-air feel.

### 5.2: Double-Tier Canopy Functionality

The double-tier vented canopy is designed to improve air circulation and enhance stability by allowing wind to pass through. The canopy material is 180 g/m<sup>2</sup> polyester fabric with a PA coating, offering water resistance. Grommets are integrated into the canopy to facilitate water drainage during rain.

### 5.3: Corner Frame Shelves

Each corner of the gazebo includes a decorative and functional shelf. These shelves can be used to display potted plants, small decorations, or to hold light items, adding to the aesthetic and utility of your gazebo.

Showcases the unique arrow-shaped finial at the peak of the gazebo and another view of the practical triangular storage shelf integrated into the corner frame.

## 6. MAINTENANCE

- **Cleaning the Canopy:** Use a mild soap and water solution with a soft brush or cloth to clean the polyester canopy. Rinse thoroughly and allow to air dry completely before storage. Do not use harsh chemicals or abrasive cleaners.
- **Cleaning the Frame:** Wipe the powder-coated steel frame with a damp cloth. For stubborn dirt, use a mild

detergent. Dry immediately to prevent rust.

- **Inspecting Components:** Regularly check all bolts, nuts, and connections to ensure they are tight. Inspect the canopy and netting for any tears or damage. Repair or replace damaged parts promptly.
- **Winter Storage:** For prolonged product life, especially in regions with harsh winters, it is recommended to disassemble and store the gazebo in a dry, protected area during the off-season.

## 7. TROUBLESHOOTING

- **Gazebo feels unstable:** Ensure all frame connections are securely tightened. Verify that the ground stakes are fully inserted into the ground and ropes are taut. Consider using additional weights on the legs in windy conditions.
- **Water pooling on canopy:** Check if the canopy is properly stretched and secured to allow water to drain through the grommets. Ensure the roof frame is correctly assembled and not sagging.
- **Difficulty zipping netting:** Ensure the netting is correctly aligned and not snagged. Lubricate zippers with a silicone-based spray if they are stiff.
- **Parts missing or damaged:** Refer to the package contents list. Contact Outsunny customer support with your model number and a description of the issue.

## 8. SPECIFICATIONS

Feature	Detail
Brand	Outsunny
Model Number	84C-028GY
Product Dimensions	118"L x 118"W x 108.5"H (approx. 9.8'L x 9.8'W x 9'H)
Floor Area	96.9 Square Feet
Item Weight	69.1 Pounds
Frame Material	Alloy Steel (Powder-coated)
Canopy Material	180 g/m <sup>2</sup> Polyester with PA Coating
Color	Gray
Water Resistance Level	Water Resistant
UV Protection	Yes
Assembly Required	Yes
