Troubleshooting

If you encounter any issues with your TOTO WASHLET C2, please refer to the following general advice. For specific error codes or complex problems, consult the comprehensive User Manual (PDF) available online or contact TOTO Technical Support.

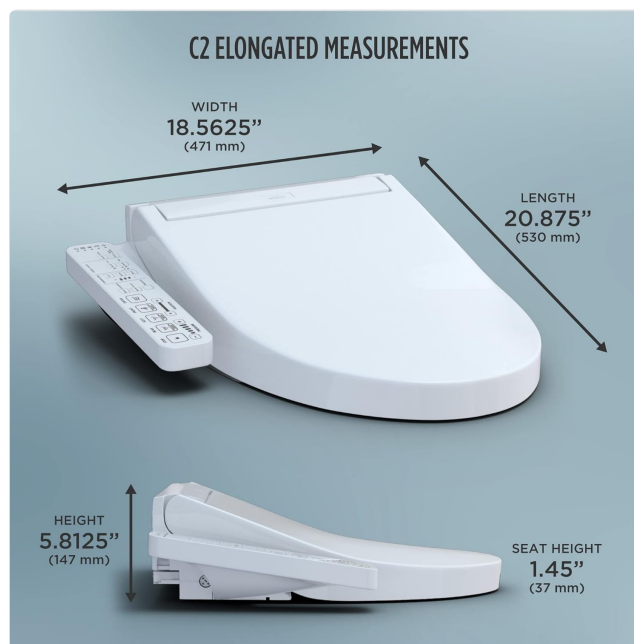

- **No Power:** Ensure the unit is properly plugged into a 120V GFCI outlet and that the outlet is functional. Check if the circuit breaker has tripped.
- **No Water Spray:** Verify that the water supply valve to the toilet is fully open. Check for any kinks in the water supply hose. Ensure the seat sensor is activated (you must be seated for the spray to operate).
- **Insufficient Water Pressure:** Adjust the pressure setting on the control panel. Ensure adequate water pressure from your home's supply.
- **Water Not Warm:** Check the water temperature setting on the control panel. Allow time for the water heater to warm up if it's the first use or after a long period of inactivity.

- **Deodorizer Not Working:** Ensure the deodorizer function is enabled on the control panel.
- **Wand Not Extending/Retracting:** Check for any obstructions around the wand. Perform a wand cleaning cycle.

If troubleshooting steps do not resolve the issue, it is recommended to contact TOTO Technical Support for further assistance.
