

Satechi ST-TCC2MM

Satechi USB C to USB C Cable 100W Instruction Manual

Model: ST-TCC2MM

1. INTRODUCTION AND OVERVIEW

The Satechi USB C to USB C Cable 100W is engineered for efficient power delivery and reliable data transfer between compatible USB-C devices. This cable supports fast charging up to 100 Watts, making it ideal for charging a wide range of devices from smartphones and tablets to laptops. It also facilitates data synchronization at speeds up to 480 Mbps, ensuring quick file transfers.

Crafted with a durable braided nylon exterior, the cable is designed to resist fraying and withstand daily use. Its 6.5-foot (2-meter) length provides ample reach, and an included Velcro strap helps keep it organized and tangle-free.

The Satechi USB C to USB C Cable 100W, featuring a durable braided design and USB-C connectors on both ends.

2. SETUP

Setting up your Satechi USB C to USB C Cable is straightforward. No software or drivers are required for its operation.

1. **For Charging:** Connect one end of the USB-C cable to a compatible USB-C power adapter (sold separately). Connect the other end of the cable to the USB-C charging port of your device (e.g., smartphone, tablet, laptop). Ensure both the power adapter and your device support USB Power Delivery for optimal charging speeds.
2. **For Data Transfer:** Connect one end of the USB-C cable to the USB-C port of your source device (e.g., laptop). Connect the other end of the cable to the USB-C port of your target device (e.g., smartphone, external hard drive). Your devices should automatically recognize the connection for data transfer.

FAST-CHARGE YOUR IPAD PRO

SATECHI

IPAD AND WALL ADAPTER
SOLD SEPARATELY

The Satechi USB C cable connected to an iPad Pro for fast charging via a wall adapter. Note: iPad and wall adapter are sold separately.

3. OPERATING INSTRUCTIONS

The Satechi USB C to USB C Cable is designed for simple plug-and-play functionality for both charging and data transfer.

- **Charging:** Once connected to a compatible power source and device, the cable will automatically initiate charging. The 100W Power Delivery capability ensures rapid charging for devices that support this standard.
- **Data Transfer:** When connected between two data-enabled USB-C devices, the cable allows for seamless file synchronization and transfer. Data speeds can reach up to 480 Mbps. Please note that this cable does not support video output.

POWER AND SYNC TYPE-C DEVICES

The Satechi USB C cable facilitating power and data synchronization between a smartphone and a laptop.

4. MAINTENANCE

Proper care and maintenance will extend the lifespan of your Satechi USB C to USB C Cable.

- **Cleaning:** Use a soft, dry, lint-free cloth to gently wipe the cable and connectors. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture.
- **Storage:** When not in use, coil the cable neatly and secure it with the included Velcro strap to prevent tangling and kinking. Store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp bends or excessive pulling on the cable, especially near the connectors, as this can damage the internal wires. Always grasp the connector head when plugging or unplugging the cable.

5. TROUBLESHOOTING

If you encounter issues with your Satechi USB C to USB C Cable, refer to the following common troubleshooting steps:

- **Device Not Charging or Charging Slowly:**

- Ensure both ends of the cable are securely connected to the power adapter and the device.
- Verify that your power adapter supports USB Power Delivery and provides sufficient wattage for your device.
- Try using a different USB-C port on your device, if available.
- Test the cable with another compatible device and power adapter to isolate the issue.

- **Data Transfer Issues:**

- Confirm that both connected devices support data transfer via their USB-C ports.
- Check your device settings to ensure data transfer is enabled (e.g., 'File Transfer' mode on Android devices).
- Try disconnecting and reconnecting the cable.
- Attempt data transfer with a different USB-C cable to determine if the issue is with the cable or the devices.

- **Physical Damage:**

- Visually inspect the cable and its connectors for any signs of damage, such as fraying, bent pins, or discoloration.
- If the cable appears damaged, discontinue use immediately to prevent potential harm to your devices.

6. SPECIFICATIONS

Feature	Specification
Brand	Satechi
Model Number	ST-TCC2MM
Connector Type	USB Type C (Male to Male)
Cable Type	USB
Length	6.5 feet (2 meters)
Power Delivery	Up to 100W
Data Transfer Speed	Up to 480 Mbps
