## Battat BT4708Z

# Battat Classic Trains - 6 Pieces Wooden Railroad Set

MODEL: BT4708Z

## Introduction

This instruction manual provides essential information for the Battat Classic Trains 6-piece wooden railroad set. This set includes three locomotives and three freight cars, designed to connect magnetically. It encourages imaginative play and aids in the development of fine motor skills and hand-eye coordination.

The trains are compatible with all Battat wooden trains and railway track sets (sold separately), and also work with many other standard wooden railway systems.

## Safety Information

- This product is intended for children aged 36 months to 8 years.
- Adult supervision is recommended during play.
- Ensure all pieces are intact before and after use.
- Keep away from small children if any parts become detached.
- All Battat products meet or exceed EU, U.S., and Canadian safety standards.

## What's Included

Your Battat Classic Trains set includes:

- 6 Pieces Wooden Locomotives & Freight Cars (3 locomotives, 3 freight cars)

Image: The complete set of six wooden train cars.

## Setup

The Battat Classic Trains set requires minimal setup. The trains are ready for play directly out of the box.

1. Unpack all components from the packaging.
2. Inspect each train car to ensure there are no loose or damaged parts.
3. The trains are now ready for play.

## Operating Instructions

The primary function of these wooden trains is to connect them magnetically and engage in imaginative play.

### Connecting Trains

Each locomotive and freight car features magnetic connectors at both ends. To form a train:

1. Select two train cars you wish to connect.
2. Bring the magnetic ends of the two cars together. The magnets will automatically align and connect.

3. Experiment with different combinations to create various train configurations.

### Compatibility

This set is designed to be compatible with all Battat wooden trains and railway track sets (sold separately). It also works with many other standard wooden railway systems, allowing for expanded play possibilities.

### Play Ideas

Encourage imaginative play by creating scenarios such as transporting goods, passengers, or exploring different routes on a railway track. The diverse colors and designs of the trains can inspire various storytelling adventures.

## Maintenance

### Cleaning

To clean the wooden train cars, wipe them gently with a damp cloth. Avoid submerging the toys in water or using harsh cleaning agents, as this may damage the wood or paint finish.

### Storage

Store the train set in a dry place away from direct sunlight and extreme temperatures to prevent warping, fading, or damage to the wooden components.

## Troubleshooting

- Trains not connecting:** Ensure the magnetic ends are brought close enough together. If magnets appear weak, check for any debris obstructing the connection. The magnets are designed to hold the weight of a single car; longer trains may require careful handling, especially on inclines or curves.

- **Trains not fitting under bridges:** Some train car designs, particularly those with taller funnels or structures, may not fit under all standard-height wooden railway bridges. If this occurs, consider elevating the bridge with a block or an alternative track piece to provide sufficient clearance.

## Specifications

Feature	Detail
Product Dimensions	4.25 x 1.25 x 1.75 inches (per car, approximate)
Item Weight	1.48 pounds (total set)
Item Model Number	BT4708Z
Manufacturer Recommended Age	36 months - 8 years
Release Date	October 27, 2021
Manufacturer	Branford Ltd
