TOTO CST614CEFGAT40

TOTO Carlyle II 1G One-Piece Elongated Toilet User Manual

Model: CST614CEFGAT40

1. Product Overview

The TOTO Carlyle II 1G is a one-piece elongated toilet designed for efficiency and ease of maintenance. It features TOTO's 1G technology for a powerful 1.0 gallon per flush (GPF) operation and the TORNADO FLUSH system for comprehensive bowl cleaning. The toilet is equipped with CEFIONTECT glaze to prevent particle adhesion and is WASHLET+ compatible for seamless integration with a T40 WASHLET+ bidet seat (sold separately).

Image 1.1: The TOTO Carlyle II 1G One-Piece Elongated Toilet in Cotton White, showcasing its sleek, integrated design and left-hand chrome trip lever.

Key Features:

- **WASHLET+ Compatibility:** Exclusively designed for seamless integration with T40 WASHLET+ bidet seats (seat sold separately).
- **One-Piece Skirted Design:** Offers a clean aesthetic and simplifies cleaning compared to two-piece toilets.
- **1.0 GPF TORNADO FLUSH System:** A powerful, centrifugal rinse system with dual-nozzles for efficient bowl cleaning using minimal water.
- **CEFIONTECT Glaze:** An exceptionally smooth ceramic surface that helps prevent waste particles from adhering, reducing cleaning frequency.
- **Auto Flush Ready:** Compatible with auto flush systems for hands-free operation.
- **Universal Height:** Provides a comfortable seating position for a wide range of users.

2. Installation and Setup

Proper installation is crucial for the optimal performance of your TOTO Carlyle II 1G toilet. It is highly recommended that installation be performed by a qualified plumber or professional to ensure compliance with local codes and proper function.

Before Installation:

Ensure you have the following items, which are sold separately:

- Wax ring or equivalent sealing gasket.
- Toilet mounting bolts.
- Water supply lines.
- Compatible SoftClose seat or TOTO T40 WASHLET+ electronic bidet seat.

WASHLET+ Integration:

The Carlyle II 1G is designed with a channel on the bowl surface to conceal the WASHLET supply line and power cord, providing a clean, integrated appearance when a T40 WASHLET+ bidet seat is installed.

Refer to the detailed installation guide included with your product packaging for step-by-step instructions and safety warnings.

3. Operating Instructions

Flushing Mechanism:

The TOTO Carlyle II 1G utilizes the TORNADO FLUSH system. To activate the flush, press down on the left-hand chrome trip lever located on the side of the tank. The TORNADO FLUSH system employs dual nozzles to create a powerful, centrifugal washing action that efficiently cleans the entire bowl surface with 1.0 gallons of water.

Auto Flush Functionality:

This toilet is compatible with TOTO's Auto Flush system. If an Auto Flush kit is installed (sold separately), the toilet will automatically flush after use, providing a hands-free experience. Consult the Auto Flush kit's instruction manual for specific setup and operation details.

4. Care and Maintenance

Regular cleaning and proper maintenance will ensure the longevity and optimal performance of your TOTO Carlyle II 1G toilet.

CEFIONTECT Glaze:

The CEFIONTECT glaze is an ultra-smooth, ion-barrier surface that helps keep the bowl cleaner for longer by preventing mold, mildew, and waste from adhering to the ceramic. This reduces the need for harsh chemicals and frequent scrubbing.

Cleaning Guidelines:

- For daily cleaning, use a soft cloth or sponge with a mild, non-abrasive cleaner.
- Avoid using abrasive cleaners, scouring pads, or harsh chemicals (e.g., bleach, acid-based cleaners) as these can damage the CEFIONTECT glaze and other surfaces.
- Clean the exterior surfaces, including the skirted design, with a damp cloth and mild soap.
- For the toilet seat, follow the cleaning instructions provided with the seat itself.
- Periodically check the water supply connection for any leaks.

5. Troubleshooting Guide

This section addresses common issues you might encounter with your toilet. For more complex problems, contact a qualified professional.

Common Issues and Solutions:

- **Weak Flush:** Ensure the water supply valve is fully open. Check for any obstructions in the trapway. If the issue persists, the internal flush valve mechanism may require inspection by a professional.
- **Continuous Running Water:** This often indicates an issue with the flapper or fill valve inside the tank. Check if the flapper is sealing properly or if the fill valve is adjusted correctly. Mineral deposits can sometimes interfere with these components.
- **Leaks:** Inspect all connections, including the water supply line, tank-to-bowl connection (for two-piece toilets, though this is a one-piece), and the wax ring at the base. Tighten connections if loose, but do not overtighten. A leaking wax ring typically requires professional replacement.
- **Unpleasant Odors:** Ensure the toilet is properly sealed to the floor with a wax ring. Check for any cracks in the porcelain or issues with the drain line. Regular cleaning is also essential.

If these basic troubleshooting steps do not resolve the issue, please contact TOTO customer support or a licensed plumber.

6. Product Specifications

Specification	Detail
Model Number	CST614CEFGAT40#01
Brand	TOTO

Specification	Detail
Color	Cotton White
Material	Ceramic
Item Weight	110 Pounds
